Proceedings

5418

1 (In open court; outside the presence of the jury.)

2 THE COURT: Good morning, everybody. Please have
3 a seat.

4 So we received the party's joint submission
5 regarding the deposition affiliate. We've incorporated it
6 into a new iteration of the jury instructions that we have
7 designated Court Exhibit 4.

8 The verdict sheet is unchanged, though, it remains
9 4-A or it will be 4-A and it appears, as you know, in
10 Count 8 at Page 78, I believe.

11 So I want to make sure that is acceptable to the
12 defense.

13 MR. BRAFMAN: Yes, Your Honor.

14 MR. AGNIFILO: Yeah, I'm having trouble
15 downloading it.

16 THE COURT: We'll also try to get you a hard copy.

17 MR. BRAFMAN: Yeah, that's fine.

18 THE COURT: Yes, Ms. Smith.

19 MS. SMITH: Judge, before you get started, we have
20 two issues we wanted to raise based on Mr. Brafman's closing
21 remarks yesterday. The first is that prior to trial, we
22 filed a motion in limine that the defense should not be able
23 to argue about the defendant's future plans if he's
24 acquitted or what punishment might mean for him, and
25 Mr. Brafman on June 19th at the final pretrial conference

Proceedings

5419

1 said that it was not his intention to base the jury that
2 they should acquit him because this is -- the line that they
3 want, that he makes some very devastating diseases, and
4 there were two sections in his closing yesterday where he
5 said exactly that.

6 One was on Page 5336, he said, Making someone a
7 felon for the rest of their life is a very, very tough
8 decision and when you're dealing with anyone who has to be
9 right, but when you're dealing with maybe one of the most
10 extraordinary minds of this generation, you need to be right
11 before you snuff that out.

12 And then also on Page 5377 he said, That requires
13 you to understand how special his mind is and how careful
14 you need to be before just tossing it in a heap.

15 So we feel that a limine instruction to the jury
16 would be appropriate. On Page 90 of the jury instructions
17 there's a section on -- that the jury shouldn't consider
18 punishment.

19 THE COURT: All right. Would you wait one moment,
20 I'm going to tell my clerk to hold off making multiple
21 copies of a 90-page document.

22 MS. SMITH: Oh, I'm not requesting for a change,
23 I'm just asking that it be read to the jury.

24 THE COURT: Oh, right now. Okay.

25 MR. BRAFMAN: Your Honor, most respectfully, I

Proceedings

5420

1 think everything I said was fair comment on the evidence
2 that their witnesses produced. And if you want to
3 incorporate something in the section on your charge
4 concerning sympathy of the future, I can accept that.

5 But we didn't ask the jury --

6 THE COURT: Before you start arguing, let me just
7 please call my clerk and make sure we don't waste more time
8 and paper on instructions, which should have been finalized
9 a long time ago.

10 (Pause in proceedings.)

11 THE COURT: All right. Let me finish hearing from
12 Ms. Smith and then I will hear from Mr. Brafman.

13 MR. BRAFMAN: I think she's finished.

14 MS. SMITH: So that was point 1.

15 And then secondly Mr. Brafman made a comment about
16 Marek Biestek, and he said, Do you see him in this case? Do
17 you see him sitting next to Martin? Why he is not Martin
18 Shkreli. And so we also ask that the Court read from the
19 jury instructions, again we're not asking for a new
20 instruction, but on the section that says Consider only this
21 defendant.

22 So those are the two kind of oral instructions to
23 the jury.

24 One, stop considering punishment and one about
25 considering only this defendant that we would ask the jury

1 to be instructed. I think both of those are proper.

2 And the first argument about his plans
3 post-acquittal and about how special he is and about that's
4 the reason why you should not convict him, are arguments
5 Mr. Brafman represented he would not make.

6 MR. BRAFMAN: Your Honor, when you make a
7 representation in preliminary instructions and then you
8 watch the trial unfold and the Government introduces
9 evidence in which every witness talks about how brilliant he
10 is and how special he is, that's fair comment on the
11 testimony. If Your Honor wants to include something in your
12 jury instructions about this, I have no problem with that.

13 But after Ms. Smith finished, we pointed out that
14 she made a glaring error on the way she interpreted Rule 144
15 and we didn't ask you to instruct the jury at that time. We
16 incorporated it into to the Court's Charge. I think it
17 would be inappropriate because everything I did was fair
18 comment, and I would ask you if you are going to change your
19 instructions, so that be in your jury instructions and not
20 do it at that point.

21 She said a number of things that were
22 inappropriate and our position was you're going to cover it
23 in the jury instructions. So I think to do it now would
24 just be unfair and it's not the way Your Honor treated her
25 error which was a glaring error and it's a glaring error as

Proceedings

5422

1 a matter of law, so we don't even need to debate whether it
2 was fair comment or not.

3 I walked a very careful line, Your Honor, and I
4 did not -- I indicated in that comment that we're not asking
5 for sympathy and you're not going -- you're going to be told
6 by the Judge that you're not supposed to be consider
7 sentence.

8 So I had did both parts.

9 THE COURT: Well, the consideration of sentence is
10 definitely in the instructions. I think what the Government
11 is asking for something beyond the sentencing that there has
12 been a suggestion that somehow the great visionary of this
13 generation, if the jury convicts him, will be stuffed out,
14 that kind of a comment. So we can look at the instructions
15 regarding --

16 MR. BRAFMAN: I'm sorry.

17 THE COURT: We can look at the instructions
18 regarding the jury's -- that the jury not consider
19 punishment. We can maybe add something to the effect about
20 not considering, you know, the consequences of their
21 decision on the defendant. I think that is fair.

22 MR. BRAFMAN: I think it is fair if you put it in
23 your instruction.

24 THE COURT: I am not sure we need a special
25 instruction to highlight.

Proceedings

5423

1 I did have another question, though. There was a
2 reference to the finding that Mr. Richardson had an
3 inappropriate relationship and that he was therefore
4 terminated or had to resign because of that. I don't
5 believe that's in the record.

6 MS. SMITH: It's not in the record, Your Honor.

7 THE COURT: All right. Where did that come from?

8 MR. BRAFMAN: Well, it comes from what happened.

9 THE COURT: But it's not in the record.

10 MR. BRAFMAN: I thought it was. So to the extent
11 that she said things that weren't in the record, that were
12 inaccurate, I just don't think highlighting that particular
13 point is appropriate now. And if you want to in your
14 instructions say, if you find that any argument of counsel
15 was based on something that's not in the record, you know,
16 that's fine.

17 You know, you gave her complete latitude, we
18 didn't object. There were a number of things that we take
19 issue with. She made comments about exhibits which she's
20 wrong on and I'll address them in my summation. She said
21 Evan Greebel got shares, that's not true.

22 MS. SMITH: I didn't. I said they were -- I said
23 that the Fearnow shares some of them were sent to Evan's
24 address because there's an exhibit -- there's a FedEx
25 label --

Proceedings

5424

1 THE COURT: It's in evidence.

2 MS. SMITH: -- with his name on it.

3 MR. BRAFMAN: Your Honor, there was evidence in
4 the record by Mr. Aselage that there was an commission
5 report that he got that indicated and then Mr. Richardson's
6 testimony indicates when he resigned.

7 I think that's fair comment.

8 THE COURT: You went beyond that, though. You
9 said there was a finding in the commission report that
10 Mr. Aselage had an inappropriate relationship with
11 Mr. Shkreli and was therefore forced to resign.

12 MR. BRAFMAN: No, but he --

13 THE COURT: My concern was that we had, you know,
14 talked about not suggesting to the jury that because of
15 someone's sexual orientation or relationship that that not
16 be grounds for --

17 MR. BRAFMAN: But that's what Ms. Smith said.

18 MS. SMITH: Actually he said that the commission
19 was in October and November and that all he said was that
20 there was a finding that there's a personal relationship, he
21 didn't define it, and Mr. Richardson said that he left in
22 March ark of 2015. So temporally the one week that we're
23 not sure where that came from, and I think we can address
24 that. We're not asking for an instruction on it.

25 MR. BRAFMAN: They can address it in rebuttal,

Proceedings

5425

1 Your Honor, that's how this works. If I say something wrong
2 they can say that. I don't think for the Court --

3 THE COURT: No. I am just saying that I want to
4 make sure that we stick to references of evidence in the
5 record.

6 MR. BRAFMAN: Yes, Your Honor.

7 THE COURT: Because that is a concern of mine.

8 MR. BRAFMAN: Okay.

9 THE COURT: It has nothing to do with who says it,
10 but it has to do with what is in the record and my constant
11 reminder for the jurors, they are to decide the case based
12 only on the evidence that has been admitted in the record.

13 MR. BRAFMAN: And Ms. Kasulis can address it in
14 rebuttal.

15 THE COURT: I beg your pardon?

16 MR. BRAFMAN: I think Ms. Kasulis can address it
17 in --

18 THE COURT: I am just asking all lawyers to make
19 sure that they do not refer to matters that are not in
20 evidence.

21 MR. BRAFMAN: That's fine.

22 THE COURT: So in any event the Government wishes
23 me to incorporate the additional language about directing
24 that the jury not consider the future impact of a conviction
25 on somebody's life or on humanity, I guess, as it was

Proceedings

5426

1 couched.

2 And then the second issue was.

3 MS. SMITH: So why isn't Mr. Biestek sitting here.
4 I do think that's covered by the jury instructions.

5 THE COURT: It is. And I think we can just
6 incorporate it into the general jury instructions, not a
7 specific instruction.

8 MS. SMITH: Okay. That's fine.

9 THE COURT: All right. Thank you.
10 Are all the jurors here?

11 (Pause in proceedings.)

12 THE COURT: I am going to engage the parties on
13 this language, on the instruction point blank, the
14 Government, and I think point two is covered.

15 MS. SMITH: It is.

16 THE COURT: Okay. Why don't you work it out. We
17 will then need time to incorporate something.

18 MS. SMITH: Okay.

19 THE COURT: Okay?

20 (Pause in proceedings.)

21 (Jury enters.)

22 (Jury present.)

23 THE COURT: Good morning, members of the jury.
24 All are present.

25 Please have a seat.

Summations - Brafman

5427

1 Mr. Brafman, if you would like to finish your
2 summation, you may do so.

3 MR. BRAFMAN: Thank you, Your Honor.

4 BY MR. BRAFMAN:

5 Good morning, ladies and gentlemen.

6 THE JURY: Good morning.

7 MR. BRAFMAN: I hope you got some sleep last
8 night. Sorry for keeping you until exactly 5:30, and I
9 appreciate your attention. And to the extent that at times
10 during my summation last night I raised my voice or I
11 expressed excitement, it's coming out of me. I'm not
12 apologizing. I want to draw your attention to certain
13 things and hopefully, I have.

14 So I'm going to continue this morning and I'm glad
15 I wasn't required to finish because it's just too much stuff
16 that's important and you were tired and I was tired. So
17 today is a fresh start. I'm not going to go back, but there
18 are things that I need to explain so that your verdict is
19 accurately based on all of the evidence and not on the
20 mistaken view of the evidence.

21 Exhibit 704, and I'm going to walk over to the
22 Elmo and show it to you. Exhibit 704 is the Government's
23 chart for MSMB Capital, and on a number of occasions in the
24 courtroom during trial and certainly on summation, Ms. Smith
25 stressed the fact that MSMB Capital didn't invest in

1 Retrophin, so how could you even consider factoring that
2 into the equation? Well, she used very, very careful words
3 when she said that.

4 MSMB Capital did not invest but they did receive
5 free shares from Martin Shkreli. If they had not received
6 shares, you would have investors coming in here and saying,
7 I lost all my money. But because Martin deposited his
8 shares, his ownership shares into MSMB Capital, they don't
9 come in here and cry that they lost their money. They come
10 in here and say well, it took me awhile to get my money, but
11 they got it back and as you saw yesterday they got it back
12 in duplicates and triplicate and some of them quadrupled
13 their money. So I have a 5-dollar bill in my pocket that I
14 have carried with me for almost 20 years. One of my kids
15 gave it to me, it's important. But if I went down to the
16 store in the lobby and bought some water and I used that
17 5-dollar bill, the owner would not care where that money
18 came from. I'm giving it to him. It has value. So when
19 Martin gives money or shares to MSMB Capital, MSMB Capital
20 doesn't have to invest in Retrophin in order for the value
21 of those shares to be counted when he sends out the
22 statements which indicate what the value of the investment
23 is.

24 So I needed to straighten that out. Because if
25 you listen carefully, and I know you did, to Ms. Smith's

Summations - Brafman

5429

1 summation, she said MSMB never invested in Retrophin. But
2 MSMB got Retrophin shares and they were Martin's shares and
3 they had a right to be part of the valuation, which were
4 completely ignored by the agent who when he made the charts
5 who told you candidly that he looked at the bank accounts
6 and he looked at the statements and MSMB Capital, it wasn't
7 factored at all because MSMB Capital did not invest in
8 Retrophin. So I wanted to straighten that out.

9 Second, if you look at the next
10 Government Exhibit, which was 705, this is the
11 MSMB Healthcare chart. And this chart is different and the
12 agent said and the Government said that even if you include
13 the Retrophin shares, even if you include the Retrophin
14 shares. Well, first of all, you have to stop right there.
15 What do you mean, even if? MSMB Healthcare invested in
16 Retrophin. It is an investment of the fund. How can you
17 have a chart on the -- of the fund without those shares? It
18 just takes some guts to do that and just ignore the obvious.
19 So when they say, even if it wasn't included, it was
20 included. And if you include it they say, well, it only
21 brings it up to half because the fund only invested \$2
22 million. The Government is again attempting to mislead you.

23 That's not how investments work. You bought a
24 house for \$500,000 it goes up in value over time because
25 you're in an area where developers want to buy real estate,

Summations - Brafman

5430

1 that 500,000-dollar house could go to 7, it could go to 8,
2 it could go to a million. When you invest \$2 million worth
3 of Retrophin stock into the fund, you know from what you saw
4 in evidence with the chart, Retrophin's stock kept going up.
5 And eventually the people who held it hit a home run. So
6 you can't just say, well, even if you count the 2 million,
7 it would only be half the money he's claiming.

8 Martin is evaluating the value of the Retrophin
9 stock and when you invest 2 million, you can't just end the
10 discussion and say, well, it only was 2 million, so if you
11 look at the chart the only -- it would only rise to half
12 anyway.

13 When are you looking at the chart? When did you
14 make that chart when Retrophin was at 2 or \$3 or when
15 Retrophin was at \$17. And it changes dramatically as
16 Mr. Neill conceded, as Sarah Hassan conceded, as Darren
17 Blanton conceded. Some of them still holding their
18 Retrophin stock because they see it going up and up and up.
19 And again, I remind you the only reason it keeps going up,
20 is because of the drugs that Martin produced and discovered
21 and made part of Retrophin, because as Aselage told you, and
22 I'll get to that in a minute, all Martin in terms of what
23 the product is that Retrophin has now that is of value, he
24 said to Thiola the drug that they have is responsible for
25 the largest percentage of income by Retrophin, and he

Summations - Brafman

5431

1 concedes that happened like all of the other drugs on
2 Martin's watch, on -- during Martin's tenure as CEO.

3 So when you look at that Government chart and you
4 see the little red line and it doesn't go all the way up to
5 the blue line, it's because they are not really factoring in
6 the true value of Retrophin. The anticipated value of
7 Retrophin when Martin is evaluating it.

8 There was much said about the settlement
9 agreements. And the suggestion is by the Government that
10 Martin improperly used Retrophin stock to pay back investors
11 by using settlement agreements. That's not a fair
12 statement. Because even if there were no settlement
13 agreements, and he gave these people Retrophin stock, they
14 would have their money and there was no settlement
15 agreement. The settlement agreement is an important
16 document from Retrophin's perspective because as Aselage
17 told you and as Sarah Hassan told you, you don't want a
18 lawsuit in an infant company. You don't want a lawsuit
19 while you're trying to raise money. So you make a business
20 decision, a business decision. You slip and fall in the
21 supermarket and you sue them for \$100,000 and the
22 supermarket says, you know what? This is a nuisance
23 lawsuit. We're going to give you \$25,000 because we want a
24 release. Because we don't want to supermarket to have this
25 stigma of having been sued by one of their customers.

1 Retrophin was in its formative stages. These
2 settlement agreements allowed Retrophin to go public without
3 litigation surrounding its CEO, its founder, and the
4 company.

5 So these people who got settlement agreements were
6 threatening litigation. Many of the people who got
7 settlement agreements who the Government didn't call got
8 Retrophin stock, but they didn't get settlement agreements,
9 because they weren't demanding. And then these were
10 business decisions that Retrophin had a right to make to
11 avoid litigation and Aselage told you sometimes the cost of
12 litigation is -- costs more than the payment that you're
13 involved with.

14 And Martin is paying these people, not because he
15 has to, but because he thinks it is the right thing to do.
16 And at the time he is paying them, he is doing this as a
17 business decision as the CEO and founder of Retrophin and
18 Aselage and Richardson understand this and their suggestion
19 that there were no settlement agreements that they were
20 aware of is preposterous, because let me ask this question
21 which just occurred to me in the middle of the night, quite
22 frankly. When Aselage fires Martin and tells Richardson
23 he's got to go because he is in a chore, he went to a rap
24 consent and he's tweeting and he's just not the image we
25 want to create. It was after the restatement by Retrophin

Summations - Brafman

5433

1 in which the settlement agreements and consulting agreements
2 became well, well -- became upfront and center in the face
3 of Retrophin's Board. They can no longer ignore the fact
4 that those existed. They want to tell you they didn't
5 authorize them or they don't know them when they were made,
6 that's one thing. But they did know about them before they
7 fired Martin. So why did Mr. Aselage not come in here and
8 say to you, We fired Martin because he gave unauthorized
9 settlement agreements? Why didn't Richardson tell you, We
10 discovered unauthorized settlement agreements and consulting
11 agreements, so we fired Martin. They both chimed in saying
12 Martin was fired because he was inappropriate. Because he
13 was immature. That's a -- that's a damning point to the
14 theory of the Government's case which suggests without
15 question that the Board knew about these consulting
16 agreements and settlement agreements before they restated
17 the filings because that was the purpose of restating the
18 filing. They told you they had to do it because these
19 settlement agreements and consulting agreements came to our
20 attention, they tell you. I submit they knew about them all
21 along. But if it came to their attention and the Board's
22 position is that they were unauthorized, why not fire him
23 then? Isn't that the quintessential moment when they, Hey
24 who told you do this? Instead you come into a federal
25 courtroom and you testify under oath that the reason I fired

1 him was because he went to a concert that I didn't approve
2 of.

3 And then the second thing is they tell you that
4 Martin tried to defraud Retrophin, that Martin's actions
5 were made in an attempt to defraud Retrophin.

6 So I want you to look around the courtroom and
7 tell me who is the largest Retrophin shareholder? Not
8 sitting next to the guy with the gray hair anymore because
9 I'm here. He's sitting there in a gray sport jacket and a
10 light blue shirt. I've identified Martin Shkreli as most
11 people have today. He's the largest shareholder of
12 Retrophin according to the evidence in this case.

13 Why would he do something that defrauds the
14 company that, A, you slaved over to make the company.

15 B, you made a company.

16 C, you took it public.

17 And D, when you took it public, you have the most
18 shares.

19 If he you defraud your own company it dilutes the
20 value of your shares and you know he's smart. So he's not
21 stupid enough to do that. Why would he do that? Why would
22 he defraud his own company? So the suggestion that Martin
23 was involved in an effort to defraud Retrophin is just not a
24 true argument that has merit, that you can rely on.

25 Now I just want to talk to you a little bit about

1 some of the investors. I'm not going to go back and repeat
2 what I said yesterday. But there is something about them
3 that should jump out at you. There's a group of investors
4 in this case, which make up most of the people called by the
5 Government to testify as investors, who the Government
6 proffers to you as people who would like to have known this,
7 and would like to have known this, and Martin told them this
8 and Martin told them that, suggesting that they were misled.
9 Five, five out of the small group they chose to call are
10 experts. Now when I say experts, the Court hasn't
11 classified them as experts as you might do in if a scientist
12 came in here to testify about a drug and we qualify them as
13 an expert and therefore they were permitted to give an
14 opinion.

15 But five out of the small group they called were
16 experts in investing in hedge funds and in
17 healthcare-related hedge funds. John Neill told you he has
18 invested in between 50 and 100 hedge funds. Listen to -- 50
19 and a hundred hedge funds. He signed a subscription
20 agreement in which he said, I read the private placement
21 memorandum and then he conceded under oath that he didn't
22 read it. We covered that yesterday.

23 But John Neill is someone who is 74 years old. He
24 said he's been doing this for over 40 years. He has
25 hundreds of millions of dollars, you can conclude, because

1 he has \$50 million just in his wife's name in this
2 partnership and he characterized his investment of \$500,000,
3 if you recall, as a small investment.

4 Now, none of us are in his league, I don't think.
5 I don't know anything about your personal finances. But if
6 you characterize a 500,000-dollar investment as a small
7 investment, that tells you something about the amount of
8 money the man has. And he told you very, very privately,
9 but publicly that he has invested in 50 to 100 hedge funds
10 and that he's done quite well for himself.

11 He's an expert in how you invest in hedge funds.
12 He's an expert in what you know about hedge funds and its
13 lack of liquidity and the discretion of the general partner.
14 He's an expert.

15 Schuyler Marshall is an expert. Schuyler Marshall
16 told you that he evaluates small companies for a living. He
17 was a lawyer for 25 years, now he's in-house counsel for a
18 private equity fund. And if you look at the subscription
19 agreement under explanation of what you do for a living he
20 writes in stock terms, I evaluate small companies or
21 companies for a living. He's an expert. He understands
22 what is involved in investing in a hedge fund. And I don't
23 have to repeat all of the testimony he gave you about how it
24 was what Darren Blanton said and it was Gloria Euclid said
25 and it was nothing about what Martin said that caused him to

1 invest.

2 How do you know that? Because after the dinner in
3 Texas he waited two months before investing and in those two
4 months he confirmed that he evaluated the information Martin
5 gave him in terms of stock tips, that he followed each of
6 those stock tips and he concluded from following them that
7 everything that Martin told him was right. He invested in
8 at least one of those companies, he told you, and made
9 money.

10 Darren Blanton told him he made a lot of money and
11 he withdrew his money and Schuyler Marshall said when Darren
12 Blanton told him that he was able to withdraw his money,
13 that's what pushed him into believing that he should take a
14 ride in this fund.

15 But even with all of that -- without all of that
16 he evaluates small companies for a living. If you have any
17 doubt, pull his subscription agreement and see how he
18 describes what he does for a living.

19 This isn't someone who owns a grocery store and
20 Martin talked him into investing and he's way out of his
21 league and he's way over his head and he doesn't understand
22 maybe the private placement memorandum, maybe he doesn't
23 lack the education necessary to understand it. Schuyler
24 Marshall is an expert.

25 David Geller spent his entire career trading

1 securities. He held two separate licenses as a trading --
2 as someone licensed by the SEC to trade over people's money.
3 He's an expert. He never read the private placement
4 memorandum. He relied on what Al Geller told him and what
5 Kevin Mulleady told him and he never read the private
6 placement memorandum.

7 And we discussed this yesterday that that's not
8 fair to not read it and then come in here and complain. And
9 for him to suggest I wanted liquidity. Well, if you had
10 bothered to read the private placement memorandum you would
11 understand that liquidity could be an issue. And if you're
12 an expert in hedge funds, we discussed this with many of the
13 people who testified, this is not putting your money into a
14 brokerage account where you call up the broker and say, Sell
15 my Google stock and send me a check and three days later you
16 get a check. This a hedge fund. In a hedge fund you're a
17 limited partner. You're investing there and you're under
18 the discretion of the managing partner, Martin Shkreli. And
19 if Martin Shkreli wanted to suspend withdrawals forever he
20 can do it, but he didn't. He delayed withdrawals and he
21 delayed withdrawals for a reason. You see the scrambling
22 that was going on in trying to arrange financing for
23 Retrophin. Yes, they said at one point Retrophin was
24 hanging by a thread. There is no dispute about it.

25 But where did it go after it was hanging by a

1 thread? It went up. Do you know why? Because he got the
2 investment of \$10 million in the pipe transaction. That's
3 what small companies do, they try and raise money. If they
4 raise money, it's terrific; if they don't raise money, they
5 go bust. But who is responsible for the money that they
6 raise?

7 Did anyone else participate in the effort to raise
8 money for Retrophin. Did Aselage do it? No. Did
9 Richardson do it? No. Only Martin Shkreli. And he did it
10 and it worked and they got paid.

11 So when they tell you, well, look at the slide,
12 Retrophin has very little money. Yes, but that's not
13 because Martin looted the treasury by going on a yacht, it's
14 because Martin is sleeping in his office and found a way to
15 convince the institutional investors in a pipeline to give
16 them \$10 million. And the e-mail traffic shows you that
17 when any got the financing they started to repay these
18 people, not to loot Retrophin, but because MSMB Healthcare
19 had invested in Retrophin and some of these people were
20 entitled to be repaid and now we have the money and now he
21 was going to repay them and he is still the largest
22 shareholder in Retrophin.

23 So he's giving away his money in many ways. Not
24 when you trace each share where it came from, where did it
25 go. But it -- his company if he's defrauding Retrophin he

1 loses. And David Geller is an expert. You cannot discount
2 that when you decide whether he was defrauded by what
3 somebody may have said.

4 Lee Yaffe. Lee Yaffe is the founder of
5 Leerink Swann. Leerink Swann is an investment house that
6 specializes in health care stocks. Think about that for a
7 minute. Retrophin is a health care stock. Lee Yaffe comes
8 to the table, he told you, with a whole lifetime of working
9 in this field.

10 Now, what does he do now? Now he's still in a
11 health care-related business. He runs abuse center clinics
12 where people are treated for substance abuse. A health
13 care-related industry. But you can't discount why you might
14 want Lee Yaffe to be someone -- one of your consultants. He
15 tells you under cross-examination that he had access to over
16 1,000 contacts in the health care industry. If you are
17 running Retrophin, a health care company, that's valuable.
18 Even if he doesn't do his cluster headache homework as he
19 obviously admits not doing. I want him as a consultant.
20 He's an important consultant. And what does he say in the
21 e-mail, I'm not going to go back to where he talks about
22 looking forwarding to working as a consultant. On the next
23 e-mail he says that we're going to loop in or hoop in the
24 Swanny. Who is Swanny? Swanny is the partner in Leerink
25 Swann that is a health care investment house that deals with

Summations - Brafman

5441

1 the health care industry. I'm your consultant. I'm going
2 to help you. It says in there, I'm going to help you. I'm
3 going to help you in two ways: One, if I ever do this
4 homework Marek Biestek gave you by looking at cluster
5 headaches and the Government in its summation said he
6 admitted not to be an expert in cluster headaches. If I
7 give a college student an assignment to investigate cluster
8 headaches, college student, not someone who has spent their
9 whole life in health care. I give a smart college student
10 an investment, do a paper on cluster headaches, tell me
11 everything there is to know about cluster headaches, who
12 makes them, how they're made, who treats them, how are they
13 treated, what is the science, what is the research. Every
14 college student with a computer could spend a couple of days
15 and come up with a decent paper that might help me as an
16 executive to understand the market, to understand who's
17 doing it, to understand how to promote my drug if I'm
18 working on a drug. And he says to you, he told the FBI that
19 Retrophin is working on two drugs deal with cluster
20 headaches.

21 Now he didn't say, I lied to them about that. How
22 would he know that Retrophin is working on two drugs to deal
23 with cluster headaches? Because he was told by Marek
24 Biestek do this research, it's going to be helpful. Now
25 there's no testimony in the record by Marek Biestek but I'm

1 allowed to ask you to draw reasonable inferences from his
2 testimony.

3 How would he know that Retrophin is working on two
4 drugs to develop cluster headache medicine for treatment?
5 How would he know that? But Lee Yaffe nevertheless is still
6 an expert. And he's an expert who invested with all of the
7 expertise that comes with a lifelong involvement in health
8 care stocks.

9 And what is his involvement, he is an investment
10 banker at Leerink Swann. That's an investment house, not a
11 bank. But they're the people who promote stocks they're the
12 people who research stock. He's an expert who doesn't come
13 here without any specific knowledge and Lindsay Rosenwald is
14 the premiere expert that they produced.

15 Lindsay Rosenwald has told you that first of all,
16 he is a doctor. He's a medical doctor that instead of
17 practicing medicine invests in biopharmaceuticals. He is
18 the founder of Chelsea Therapeutics, which Josiah Austin put
19 \$30 million into.

20 He is an investor by profession. He told you
21 that. And when he gets the PPM he doesn't even look at it,
22 he hands it off to his attorney. And he invested 100 grand.
23 And he said -- he said, you know, if I win, I win; if I
24 loss, I loss or words to that effect. He took a gamble. He
25 saw Martin and he said, I thought Martin was very, very

Summations - Brafman

5443

1 smart. And Martin, if I called him a genius that fits but
2 he's certainly out there on the side of the bell curve but
3 he saw in Martin something that he felt comfortable about
4 giving him a hundred thousand dollars, and his trust in
5 Martin paid off randomly -- paid off terrifically, paid off
6 well. Because he got 4 to \$600,000 back on a 100,000-dollar
7 investment. So they are experts.

8 And then you go to the witness who has more
9 involvement in many ways with many of the investors than
10 Martin Shkreli who some of them never spoke to before
11 investing. Kevin Mulleady is a stockbroker by profession.
12 He is a guy out there who is hustling investors because
13 that's how he makes a living. When a stockbroker gets a new
14 client, the stockbroker can end up making money if the
15 client invests because you get commission as a normal broker
16 relationship.

17 But forget about the brokerage issue for a minute.
18 He's a stockbroker who is responsible for Richard Coker
19 coming into the case. Coker told you, I spoke to Mulleady,
20 Mulleady is my broker that's who I spoke to, not Martin
21 Shkreli. He never met Martin Shkreli before he invested.
22 Kevin Mulleady is responsible for David Geller coming into
23 this case. Because David Geller and Al Geller, the witness
24 who you did not hear from, are both Mulleady clients and
25 Mulleady spoke about how good Martin is at his work. And as

Summations - Brafman

5444

1 a result both David Geller and Al Geller invested.

2 So you can't blame Martin for saying anything to
3 either of these two people which was fraudulent in nature or
4 misrepresentation which caused them to invest. And Ed
5 Spielberg, who you never met but who you heard about on
6 summation for first time I submit, and Spielberg was hocking
7 Martin for a return of his money because he put in I think
8 \$25,000 and he was upset when he didn't get a response. He
9 doesn't call this a witness to testify that he was
10 defrauded. But if he thinks he was, Kevin Mulleady is the
11 one who put Ed Spielberg into the mix.

12 And Michael Lavelle another person who you never
13 saw or heard testimony from was also put into the mix by
14 Kevin Mulleady.

15 Now, in the Court's instructions there will be a
16 reference to bias. The witness has a bias if a witness has
17 a motive or a witness has a reason to testify in a manner
18 adverse to the defendant or any other party, you have a
19 right to consider it. It doesn't mean you have to discredit
20 it or discount that testimony completely, but it is an
21 issue. And Aselage has hold you about his bias. Aselage
22 has told you that he has sued Martin for \$65 million on
23 behalf of Retrophin and Martin has countersued alleging,
24 among other things, wrongful termination. You terminated me
25 incorrectly or illegally without cause. Those lawsuits

Summations - Brafman

5445

1 Aselage told you are stayed pending the outcome of this
2 trial.

3 But there's something else that Aselage told you
4 that is pretty interesting, okay? Aselage told you that in
5 order to fire Martin under the terms of his employment
6 agreement, he needs a felony conviction. So let me read you
7 from Page 3432: Retrophin is suing Mr. Shkreli for 65
8 million.

9 Answer: That's correct.

10 Question: And that lawsuit is stayed pending the
11 outcome of this case?

12 Answer: That's correct.

13 Question: You understand that one of the claims
14 made against Retrophin was that he -- meaning Martin --
15 could only be terminated if he was convicted of a felony; is
16 that correct?

17 Yes.

18 If Martin is convicted of a felony, which is what
19 happens if you conclude that he is guilty, Retrophin wins.
20 Not only do they win \$65 million but they get the right to
21 legally terminate Martin Shkreli. I as CEO of Retrophin who
22 last year made \$7 million have a personal vested interest in
23 seeing to it that Martin is convicted.

24 Now he never said that, but that's the clear
25 inference that you can draw from the circumstances that

1 surround Aselage at the time he testifies. This trial is
2 about in part whether or not you find beyond a reasonable
3 doubt that Martin is guilty and then you convict him. And
4 if you do, it's not just Martin who has to deal with it.
5 Retrophin pops the champagne cork. They're really legally
6 rid of Martin and they can try and get \$65 million too.
7 This is a motive.

8 And then you have something else that you need to
9 focus on. Sometimes this stuff flies in and you don't have
10 enough time some days to focus on it or even if we have time
11 because the Court has given us all the time we need, we
12 aren't able to develop it because during the
13 cross-examination we're not permitted to argue with the
14 witness, we're permitted to question the witness. Now is
15 the time you can look at that testimony.

16 So from Aselage's testimony there's questions
17 about who made Retrophin a success.

18 Martin is the one who at the time was the -- was
19 responsible to Thiola being brought into Retrophin?

20 That's correct.

21 What about Chenodal; is that a product?

22 Chenodal is a product, yes, sir.

23 Was that founded during Martin Shkreli's tenure?

24 It was.

25 How about Vecto -- and he said, That came with

Summations - Brafman

5447

1 Chenodal.

2 So those three products Chenodal, Vecamyl, and
3 Thiola were -- when Martin was running the company?

4 Answer: That is correct.

5 What about PKAN?

6 PKAN is a disease. We have a product RE-024 which
7 is used to treat PKAN. PKAN is an acronym.

8 And then he explained the disease, and it's
9 medical terms and I won't even try to pronounce it. It's
10 the pantothenate kinase-associated neurodegeneration
11 disease. PKAN is a childhood disease. RE-024 is Retrophin.

12 Question: RE-024 was Brent there when Mr. Shkreli
13 was in charge of Retrophin, correct.

14 Yes. RE-024 correctly was developed when
15 Mr. Shkreli was CEO.

16 That's his answer.

17 RE-024 correctly was developed when Mr. Shkreli
18 was CEO?

19 Four major pharmaceuticals properties all
20 developed when Martin Shkreli was part of Retrophin.
21 Nothing in the record about what was developed since Martin
22 is out because then Martin started a competing company that
23 Mr. Shkreli -- that Mr. Aselage is aware of. Martin started
24 a company called Turig which Mr. Aselage is aware of.

25 And he tells you Thiola, listen to this:

1 Question: Today Thiola accounts for most of the
2 revenue that Retrophin makes in a year, isn't it true?

3 Answer: Thiola is our largest, single product.

4 Thiola is Retrophin's largest single product.

5 Why do I stress that? I stress that because of
6 the next series of questions. I stress that because he said
7 that if Turig is, in fact, developing a generic equivalent
8 to Thiola it would damage Retrophin substantially. And when
9 Martin was fired the colloquy was: I'm going to start a
10 company that competes with you.

11 And if Martin competes with Retrophin, Retrophin
12 could loose substantial part of its value and Martin has the
13 ability according to Aselage to do that because Martin
14 brought on all of these other drugs and at the end of the
15 day he has a very real motive to get Martin convicted. He
16 gets the lawsuit over with, Martin gets fired legally and he
17 has an opportunity to shut down the science that's going
18 down.

19 Listen to this testimony:

20 Question: Turig Pharmaceuticals is currently
21 developing a generic equivalent, if you know, to Thiola,
22 isn't that true?

23 I have no idea.

24 Question: You have no idea?

25 Answer: Correct.

1 Question: If a company has a money-making
2 medicine like Thiola and a competitor produces a generic
3 equivalent that could be made for much less, can that impact
4 on the revenue of Retrophin?

5 Answer: Sure.

6 Question: And it could cause substantial harm to
7 Retrophin?

8 Answer: Sure.

9 Do you understand, ladies and gentlemen, generic
10 equivalent if you go to the pharmacy and if you ask for the
11 brand name they charge you \$80. You get the generic
12 equivalent for \$20. We all understand it happens every day.
13 You're allowed to use your common sense.

14 So if Martin is developing a competitive drug to
15 the largest income producing drug that Aselage tells you is
16 the biggest money maker for Thiola, that's bad. Aselage and
17 it is bad for Retrophin. And it gives them an incentive, an
18 incentive just to swing his testimony a little bit. All he
19 has to say is I don't approve the settlement agreements and
20 the consulting agreements. And according to the theory of
21 the Government's case, Retrophin is thereby defrauded and
22 Martin should be convicted.

23 That's how simple it is. Because on balance
24 Aselage's testimony, even though it may have been
25 inadvertent helped Martin because it showed how petty he was

1 and how close minded he was and how narrow minded he was for
2 the reasons he said that caused him to fire Martin. So at
3 the end of the day, ladies and gentlemen, you cannot dismiss
4 the bias that is inherent in Aselage's mind-set. And the
5 Judge will tell you how to treat that if you find it. And
6 the Judge will tell you again and again in her instructions
7 that good faith by Mr. Shkreli, if you so find it, is a
8 complete defense to the charges. And the Judge will
9 instruct you how that is defined and what it means and
10 listen to the totality of that charge.

Summation - Brafman

5451

1 MR. BRAFMAN: (Cont'g.) Now, I want to just touch
2 on for just a minute the private placement memorandums that
3 you must be sick of and I'm sick of and I'm not going to go
4 through all of them, I'm going to just go through a couple of
5 points because a number of investors suggested to you that
6 what they wanted when they invested was liquidity. Now, they
7 all parroted that line because at the end of the day that's
8 what they complained about, I didn't have liquidity, I wanted
9 liquidity and because I wanted liquidity and because I thought
10 I was going to have liquidity, since I didn't get liquidity I
11 was defrauded. No, they weren't. That's not me saying that,
12 you look at the evidence which they ignored but which you
13 didn't and which they had no right to ignore and in a minute
14 if you read the private placement understanding -- private
15 placement memorandum, you would know without doubt that if
16 you're looking at liquidity, don't invest in this fund.

17 First of all, on the front page, and I'm just using
18 as an example the private placement memorandum dated June 9th,
19 2010 but they all have these similar paragraphs I submit, this
20 one: An investment in the partnership will involve
21 significant risks. There is no assurance the partnership will
22 achieve its investment objective or be profitable.

23 So, right off the bat you're ignoring the fact that
24 you're taking a risk, by jumping into this pool you could
25 drown, and if you're not a really good swimmer or you don't

Summation - Brafman

5452

1 have the ability to sustain yourself while treading water
2 until you get your money back, this is not for you. If you
3 want to put money in an investment where you could then turn
4 around and buy it back or get it back in 15 minutes, this is
5 not for you. This is a hedge fund and everyone who told you
6 what a hedge fund is told you that a hedge fund is not
7 something that offers liquidity because you're at the
8 discretion of the general partner which in this case is Martin
9 Shkreli.

10 Now, let's talk about express information that if
11 you were David Geller and you didn't brief it but you read it
12 or you were John Neill and you read it, the highlighted
13 portion says: The limited partnership interest offered hereby
14 are illiquid, they are illiquid, no public market for the
15 limited partnership interest exists and in all probability
16 none will develop. There are significant restrictions on the
17 transferability of the limited partnership interests.

18 So, you're told two things; first of all, your
19 limited partnership is illiquid, your limited partnership
20 means your money may be tied up, your limited partnership is
21 illiquid and there's no public market for them and there may
22 be no public market. Well, maybe the government will say,
23 yeah, well, that means my interest in the partnership can't be
24 sold, my interest, I'm a limited partner and unless I find
25 someone who wants to take my limited partnership and they meet

Summation - Brafman

5453

1 the criteria, that's a problem because I may not be able to
2 get my limited partnership back. And the government will say,
3 well, that doesn't say that the limited partnership is going
4 to invest in restricted securities or illiquid securities.
5 Yes, it does, it does, and if you read the private placement
6 memorandum, you have no right to complain about the lack of
7 liquidity because that's in there, that's what you're buying,
8 that's what you are investing in.

9 Let me show you the paragraph that says that.
10 Alternative investing generally: The partnership is designed
11 for investors seeking potential long-term growth from
12 alternative investments who do not require regular current
13 income and who can accept a high degree of risk in their
14 investments.

15 So, first let's focus on the word "long-term." It
16 doesn't say 20 minutes, it doesn't say you get it back anytime
17 you want to, it doesn't say you have a right to get it back
18 anytime you want to. And then there is a very, very important
19 section which none of the people who failed to read this saw
20 but that's not to be -- Martin is not to be faulted. Let me
21 take off the Post-It. It says: Investments with limited or
22 no liquidity. The partnership will take significant positions
23 in particular securities which are relatively large as
24 compared to their trading volume or overall market
25 capitalization. Such stocks often have less liquidity than

1 large capitalization issues.

2 You're being told that some of your investments are
3 going to be used to buy stocks that don't have liquidity or
4 buy investments that don't have liquidity. That's in the
5 contract you are making with me. You can't ignore that, not
6 read it and then say to me, whoa, you misled me, that's not
7 fair. Martin assumes that every investor read this. He has a
8 right to assume that. You know why, because you can't get
9 into the investment without filling out a subscription
10 agreement that says: I verify that I have read the private
11 placement memorandum, I understand it, I have no further
12 questions about it and I'm ready to do this.

13 I am the managing partner. Why do I have to doubt
14 you when you verify that you've read the private placement
15 memorandum and find out later when I'm on trial that the
16 investor who claims to have been misled never bothered to read
17 what they verified that they read. That's not fair.

18 I don't want to go back to the explanation I gave
19 you yesterday but when you sign a contract with someone to do
20 something and they do it and then you're not satisfied and
21 they say, well, look at what you agreed to and you read it and
22 you say, well, I wish I had read this when I signed and gave
23 you my money, that's not fair, that's not how business works.
24 If that's how business works, nothing would ever get done.

25 You hire someone to mow the lawn, they give you a

Summation - Brafman

5455

1 piece of paper to sign and it says: I don't have to mow all
2 of the lawn. And you look at it and you say, if I had known
3 this, I wouldn't have hired you.

4 Well, read the contract, these are expert investors,
5 they've seen these documents before, documents like this
6 before. Maybe if one of us got that and we're not used to
7 hedge funds, private placement memorandums and we don't know,
8 we would read it with a fine-tooth comb and call a friend or a
9 lawyer and ask questions. They didn't even bother to read it.

10 Then there's a section on the valuation of assets,
11 that for those who say, well, I thought he was investing only
12 in shorts and longs which I could look up on the stock market,
13 that's not true. Paragraph C in this exhibit on page 29 says:
14 Securities with a limited market. Securities or other
15 investments without an active trading market as hereinafter
16 defined shall be assigned fair value by the general partner.

17 And then they give you the factors he uses and then
18 it says: Such other factors as the general partner in its
19 sole discretion deems appropriate.

20 You have no right to complain if Martin Shkreli
21 valued Retrophin at \$20 million which turns out to be
22 100 percent accurate but it took a little while for it to
23 reach that valuation where you could actually realize the
24 gain. These people -- this memorandum is telling the people
25 that some of these investments are going to be hard to value

Summation - Brafman

5456

1 and the general partner has the right to value them. And then
2 they say to you, well, you know, you never told me about
3 Elea Capital and he never told people that Elea Capital was an
4 investment fund that didn't do well. I don't have to tell you
5 when you hire me, you know, I lost a case 20 years ago. You
6 want to ask me, ask me, I'll tell you the truth. Nobody asked
7 him about Elea Capital and it's in the private placement
8 memorandum: In addition to forming and operating MSMB,
9 Mr. Shkreli is the founder and portfolio manager of Elea
10 Capital Management. And then it says he went to Intrepid and
11 he was with Cramer Berkowitz. Well, everybody said to you,
12 when I saw Cramer Berkowitz, man, I was hooked, because Cramer
13 Berkowitz is Jim Cramer from CNBC, the man who runs around
14 that room like a lunatic, but he's brilliant and people follow
15 him and he has one of the highest viewing audiences in the
16 world on investment advice. Is he a strange man, perhaps, but
17 he's got a following and many, many, many, many times he's
18 right, no guarantees but many times he's right.

19 So, when they saw he worked for Cramer, if they read
20 this, they could be impressed but he didn't hide Elea Capital
21 and there is not one investor who said to you, I asked Martin
22 what happened at Elea and you lied to me. Not one investor
23 said that. All they had to do was ask but they didn't read
24 this, but he didn't hide Elea under a rock. And so what, a
25 prior investment fund 11 years ago doesn't do well, it doesn't

Summation - Brafman

5457

1 end your life as an investment adviser. That happens, we lose
2 in a business proposition, we don't pack up our bags and go
3 home; you get fired from a job, you get another job. Lee
4 Yaffe's father, not Lee Yaffe, his father invested in Elea
5 Capital 11 years ago and invested \$100,000 and Martin Shkreli
6 could have said, you know what, Elea Capital is old news, I
7 don't owe you any money, Lee, stop bothering me. He didn't,
8 he gave him back his father's investment and he gave him back
9 \$250,000 more because of the aggravation. He didn't have to
10 do that. Yes, Lee Yaffe was a pain in the neck and he chased
11 him and he chased him and Martin said, you know what, I don't
12 want to just have a lawsuit, I've started a new company, he's
13 threatening me, he's bothering me and for the aggravation I'm
14 not giving you 100, I'm giving you 250 and I want you to work
15 for it, I want you to be a consultant, I want you to do
16 something for the bonus that I'm giving you.

17 Then they said throughout this trial over and over
18 and over again Martin told people that he graduated from
19 Columbia. No, he didn't. Who told you that who's believable?
20 And if you see that when he puts down in writing his
21 background, this is Government Exhibit 122-64, Bates stamp
22 11963: Mr. Shkreli received his BBA from Baruch College,
23 which we all know is a portion of CCNY, not Columbia
24 University. So, whatever is in writing says CCNY, Baruch
25 College. He never told anybody that he graduated from

Summation - Brafman

5458

1 Columbia. Why would you do that? You think he needs to tell
2 an investor that he went to Columbia so that they would invest
3 with him. Who told you that that was a very, very significant
4 factor in my decision? Darren Blanton would care that he
5 graduated from Columbia? Darren Blanton told you he invested
6 in Martin because Martin made him a ton of money.

7 Let me focus for a minute on Count Seven. The
8 government alleges in Count Seven that Mr. Shkreli together
9 with others conspired to defraud Retrophin by causing it to
10 transfer Retrophin shares to MSMB Capital even though MSMB
11 Capital never invested in Retrophin.

12 Retrophin wasn't defrauded. Retrophin was not
13 defrauded under the theory of Count Seven. You know why,
14 because those shares came as follows: Please write this down
15 if you're taking notes or please listen carefully because this
16 is important, because the government is just trying, I submit,
17 to stroke you into believing that this was a conspiracy.

18 The Retrophin shares were as follows: Kevin
19 Mulleady, who didn't testify, transferred 10,000 shares to
20 Martin Shkreli. That's in the evidence, in the documents.
21 Marek Biestek transferred 4,167 shares to Martin Shkreli. Tom
22 Fernandez transferred 50,000 shares to Martin Shkreli. Martin
23 Shkreli took these 64,127 shares and then transferred 10,000
24 of his own shares to Retrophin -- from Retrophin to MSMB
25 Capital. These shares are not coming out of the treasury of

Summation - Brafman

5459

1 Retrophin. They're coming out of Mulleady, Biestek, Fernandez
2 and Shkreli and he transferred them to MSMB Capital. Why is
3 the founder of a company not permitted to do that. He is not
4 trying to conspire to steal from Retrophin. These shares were
5 given to him by these people and he gave part of his own
6 shares and he invested them into -- and he gave them to MSMB
7 Capital. He deposited them into MSMB Capital. He did not
8 take Retrophin shares to create this interest by MSMB Capital.
9 Retrophin was never in possession of these shares at the time
10 he did it because they had already gone out to these other
11 people. Retrophin was not defrauded when MSMB Capital
12 interest in Retrophin was created. These agreements were
13 executed by consenting adults. When these agreements were
14 made Retrophin was not yet even a public company. Please
15 remember that, when these transfers were made Retrophin was
16 not yet even a public company. It's my company, I am the
17 founder of this company, I have people, none of who testified,
18 Mulleady, Biestek, Fernandez, Martin, I gave them these shares
19 to incentivize them to work. Well, because they worked, and
20 when I wanted to put money into MSMB, I had a right to do it,
21 I wanted to do it, I asked them to give me shares.

22 They're not taken from Retrophin. There is no fraud
23 by Retrophin. There is no crime in that theory under Count
24 Seven and you cannot convict him of Count Seven because it's a
25 theory, that's what it is, it's a theory.

1 And when you think about whether the releases that
2 are signed by people when they get their settlement agreements
3 and they sign a release, because in return for the settlement
4 agreements they agree to release Retrophin and MSMB and MSMB
5 Healthcare and Martin Shkreli and he openly signs on behalf of
6 all of them, you've seen those documents, there's no attempt
7 to hide what's going on.

8 What happens soon after the releases are signed.
9 Five months after the last settlement agreement Retrophin is
10 listed on NASDAQ. You think Retrophin would have listed on
11 NASDAQ if there were eight, ten, five, four major lawsuits
12 filed by people who claim to have been defrauded by Martin
13 Shkreli. Everybody benefits by the settlement agreements,
14 especially Retrophin, because five months after the last
15 agreement is signed Retrophin becomes a public company and you
16 cannot ignore that fact. If the claim is that I defrauded
17 Retrophin, it's just not true from the evidence, I submit.

18 Yesterday in her summation on a number of occasions
19 Ms. Smith, and perhaps it was just a mistake, I'm not
20 suggesting that she tried to mislead you, over and over and
21 over again she told you that the employees of Retrophin are
22 affiliates under the law and as affiliates under the law, they
23 need to be treated as affiliates. That's not accurate. Her
24 Honor will tell you under Rule 144, I submit, affiliates don't
25 include employees. Affiliates include officers and directors

Summation - Brafman

5461

1 but they don't include garden variety employees. If I want to
2 give a garden variety employee a share or shares to
3 incentivize them to stay with the company because the company
4 now needs you more than ever, when the company becomes public
5 suddenly there's so much work to be done, and I give you these
6 shares, if you're an employee, that's not an illegal affiliate
7 where I am not allowed to do that. And you listen to the
8 Court's instructions and I promise you you will hear some
9 clarification.

10 Now, let's talk about Count Eight just for a minute.
11 Count Eight has two types of conduct that the government says
12 they are using to show that Martin controlled the shares and
13 to corroborate that theory they say there was an agreement by
14 the Fearnow recipients to allow Martin to control these
15 shares.

16 Well, here are the Fearnow recipients, ladies and
17 gentlemen (indicating.) So, let's first state the obvious,
18 you have seven people who are alleged to be part of this
19 conspiracy. The only person called by the government to
20 establish this theory is Timothy Pierotti and I think in the
21 cross-examination he was dealt with effectively and I think if
22 you read his cross-examination, you will see that he is not
23 believable (A), he stole \$1.5 million from Martin Shkreli
24 which prompted Martin Shkreli to write that letter to his wife
25 and even though it may be bad form to write a letter to

Summation - Brafman

5462

1 someone's wife, you could understand the betrayal. When he
2 was poor and he came to Martin before selling his wife's
3 jewelry Martin gave him \$5,000. He didn't have to give him
4 \$5,000. He could have said, I can't afford to give you money,
5 I'm building a company, I'm sleeping in the office. That
6 shows you the kind side of this person who everybody describes
7 differently. They don't say, by the way, he also has a sweet
8 spot for people in need. They don't tell you that Caroline
9 Stewart couldn't get a job, a divorcée with two children,
10 bouncing around, went to Germany to get a job, she told you,
11 came back, went on interview after interview after interview
12 and after three dinner dates with Martin Shkreli he gave her a
13 job because he felt sorry for her. That nobody focuses on.

14 So, when Pierotti steals, in Martin's mind, he's
15 angry, he writes emails, he tells him come back, you've got to
16 work, you can't just take the money and run, and that's what
17 he tells his wife, your husband wants the money but he doesn't
18 want to work. Imagine I give you a million and a half dollars
19 and then you walk out and you never come back to work. That
20 money was so you should work, so you should stay.

21 So, they say to you, well, this shows that Martin
22 was trying to control the shares. They're wrong, ladies and
23 gentlemen. The bar graphs that they showed you for a second,
24 there were hundreds of slides which came up on the screen,
25 one, two, three slides gone, one, two, three slides gone.

Summation - Brafman

5463

1 Nobody here, I submit, and I'm not being disrespectful because
2 I include myself in that group, you can't remember those
3 slides, in a minute they're here, in a minute they're gone.
4 You say what you want, the jury doesn't see it for more than a
5 second and what are you supposed to do, you can't ask for the
6 summation to be re-read. She gave you I think 350 exhibit
7 numbers in her summation. You can ask for those exhibits but
8 you can't ask for the summations to be read. And when you see
9 those slides quickly and the government lawyer says to you
10 that's what they mean, well, maybe you can conclude that's
11 what they mean but, you know what, on some of this stuff she
12 was wrong.

13 The bar graphs that they showed you are volume from
14 November '12 to February 2013, they use that period of time
15 because it reflects trading that is happening after the
16 reverse merger up through the time the pipe closes. But the
17 actual records show that during that time there were 3,243
18 trades, meaning 3,243 times there were buys and sells and
19 shorts, and of those trades, 132 involve Fearnow shape
20 recipients, 132 out of 3,243 people, and 81 of the 132 trades
21 are people selling, people selling.

22 If the theory is Martin wanted them to buy to pump
23 up the share, then somebody didn't get the memo. Pierotti is
24 selling his shares, Vainio is selling his shares. These
25 distributions were meant to incentivize these people, not as

Summation - Brafman

5464

1 part of a conspiracy to control them. It was during a period
2 when Retrophin was treading water. You are the CEO, you want
3 people to buy your stock. That's not market manipulation.
4 You want people to see that there is activity in the stock but
5 these people are selling, half of them are selling. That's
6 not the program the government describes.

7 And there are 3,100 people out there who have
8 nothing to do with Mr. Shkreli who are buying and selling
9 because the company is starting with traction, the company is
10 getting pipe financing. The company is getting financing
11 that's being advertised in press releases, all appropriate.
12 You get those -- those of you who are in the market or those
13 of you who listen to just the news where they give you the
14 reports every twenty -- at 10:56 and 9:56 every day, they talk
15 to you about earnings reports, they talk to you about things
16 companies are doing, company announcements. Yesterday
17 Facebook made an announcement, their earnings were great, the
18 stock rose \$5 a share, not an illegal announcement, part of
19 the ordinary course of advising people where the stock is up
20 to. So, there is no theory here, there is no theory.

21 The government introduced that part of the
22 recipients are Lindsay Rosenwald and Kocher of these shares.
23 Lindsay Rosenwald and Kocher are threatening to sue Retrophin.
24 Retrophin doesn't want a lawsuit when they're announcing
25 financing, when the stock is starting to gain traction so they

Summation - Brafman

5465

1 settle with them, it's a business decision, it's a business
2 decision, it's not a fraud. And the pipe investors, the
3 people who put up to \$10 million, you have a duty to them not
4 to watch the company tank because of frivolous lawsuits.

5 There is no crime in Count Seven or Eight.
6 Retrophin was not defrauded. Martin would not defraud
7 Retrophin when he is the largest shareholder in Retrophin,
8 (A), (B) this is the company he slaved to create. He has no
9 interest in defrauding the company he created. Why would he
10 do that to his own company.

11 And there is no backdating. No one has testified to
12 the backdating except Jackson Su and Massella didn't
13 understand it and Massella told you, when I saw this document
14 I thought Martin Shkreli signed it. Well, I'll put it up one
15 more time because this is very, very important, and if
16 Mr. Agnifilo had not cross-examined Jackson Su, you would go
17 away with the mistaken understanding that Martin Shkreli
18 signed it.

19 And the date is 11/29/12 and you read Jackson Su's
20 testimony, Jackson Su said to you: I put the date down. And
21 Mr. Agnifilo correctly said: Why did you put the date down?
22 Because it wasn't dated. He said: Well, who told you to put
23 it down? Nobody. So, why did you put the date down? Because
24 it wasn't dated so I put the date down. That's his testimony
25 and whatever the government says to you on rebuttal or

Summation - Brafman

5466

1 whatever the government tries to argue, you can't get away
2 from the fact that Jackson Su, who claimed not to be involved
3 in any of the fraud, put the date down not because Martin told
4 him this is important because I'm backdating an agreement or
5 I'm backdating something which I need to backdate, he put it
6 down because he's a busybody. He involves himself in stuff
7 that he has no business being involved in.

8 He has a whistle-blower lawsuit pending against
9 Retrophin. He goes to the SEC and he says, you guys should
10 look at Retrophin, there's fraud stuff going on there. And
11 what does he do, he goes back to work, sort of like secret
12 agent man, he's working there but he's already made his bed
13 with the SEC. So, he's working there while he claims there's
14 a fraud and what's he doing, he's helping the company that he
15 claims is working as a fraud. That's not the way a whistle-
16 blower is supposed to work. You want to complain about a
17 company that's involved in fraud, you don't go back to work
18 there and secretly help the executive officer who you claim is
19 doing the fraud. It's stupid and it's disingenuous and it's
20 wrong and Jackson Su not only goes back there, he steals
21 materials. He tells you he took Martin Shkreli's personal
22 bank accounts and has them in his house. What right does he
23 have to do that, and you know what his answer was: I didn't
24 see a sufficient bank balance in Martin's records to comport
25 with that of a chief executive officer of a company like

Summation - Brafman

5467

1 Retrophin.

2 What does that mean? He, among others, knows Martin
3 is sleeping in the office, you can't work there without seeing
4 Martin in the morning fast asleep when you get to work.

5 Caroline Stewart said she noticed Martin slept in the office.
6 Steve Richardson said he knew Martin was sleeping in the
7 office. Martin wasn't hiding in a closet, he was lying on the
8 floor, it is one room or one and a half rooms.

9 And Jackson Su tells you under oath -- sometimes,
10 you know, you're stunned when you hear something because not
11 only do you know from the cross-examination you're about to do
12 that it's wrong but it doesn't sound like it's an intelligent
13 observation, and Jackson Su tells you he's a smart guy,
14 remember him, Asian-American, a young man, couldn't remember
15 if he was arrested in Syracuse, sat there, told you: I looked
16 at Martin Shkreli's bank records and I did not believe that he
17 had enough money to be a successful hedge fund manager. You
18 know why, because he wasn't doing this to become rich and for
19 two years he wasn't rich and for two years he didn't have
20 money in his bank. You should applaud him for that, not
21 condemn him for that. So, Jackson Su said something's wrong,
22 man, Martin Shkreli has got nothing in his bank account and
23 he's the head of a hedge fund.

24 Now, I want to go back just one second to the
25 Pierotti letter. Pierotti is another wonderful man who is

Summation - Brafman

5468

1 working there, got the over-the-wall email, deleted it and
2 then went out and started to sell Retrophin stock. If he read
3 the over-the-wall email, he would know that he's not supposed
4 to do that. So, instead of reading it, he knew what it was
5 going to say, so he deleted it so then he could say, well, I
6 didn't read it so I'm okay. And he's selling Retrophin stock
7 and he's selling a lot of Retrophin stock and he's doing it to
8 make money and you know how we know that, because at some
9 point from the letter that the government put into evidence, I
10 won't put it on the board, I'll just read you this section,
11 he's writing to his wife, Martin is writing to Pierotti's wife
12 after Martin refuses to give back the money:

13 When Tim informed my partner Marek that he was
14 "going to sell his wife's jewelry to pay for their mortgage" I
15 immediately summoned Tim to our office and gave him a personal
16 check for \$5,000. Tim promptly deposited that that day. Tim
17 likes taking my money and doing nothing for it. I told him
18 that if he ever needed funds he could rely on me to provide
19 them for him provided that he worked hard of course. Tim
20 doesn't like that part.

21 He's a bad guy, Mr. Shkreli? I come to you and I
22 say I'm going to sell my wife's jewelry if I can't pay my
23 mortgage and I say to you, you know what, Tim, you know,
24 Jackson Su knows I don't have any money but I'm going to give
25 you \$5,000 anyway and I give you \$5,000.

Summation - Brafman

5469

1 And during the trial the government showed a
2 transfer from Mr. Shkreli, once every couple of months he took
3 some money, a transfer of \$10,000 and \$5,000 of that money
4 went to Tim Pierotti. He's a bad guy? He's operating with a
5 venal corrupt heart? Is he trying to bribe Tim Pierotti or is
6 he trying to help him?

7 So, there's a sense of betrayal that I think jumps
8 off of Pierotti's letter. It's not just I want to aggravate
9 his wife, I want her to know what he did to me, I'm upset, I'm
10 angry, and maybe Martin shouldn't have written the letter and
11 if he had conferred with counsel before he wrote the letter,
12 chances are he wouldn't have written the letter but think of
13 it yourself, someone who you helped, someone who you were good
14 to stabs you in the heart, leaves with your money and your
15 stock and never comes back to work, that's not nice. Maybe
16 it's not illegal but it's not nice.

17 So, the letter is not nice and leaving Martin is not
18 nice after you cry to him for money but at the end of the day
19 this is not about nice, this is about proof beyond a
20 reasonable doubt that you are guilty.

21 Amy Merrill from Standard Registrar, she gave you a
22 bunch of lists. Let me focus you on one list, one list.
23 Brent Saunders got 343,000 shares, Robert Bertolini got
24 130,000 shares, Tom Koestler got 109,000 shares, Ken Banta got
25 101,000 shares. That's in evidence, ladies and gentlemen.

Summation - Brafman

5470

1 Who are those people? The four people who make up the
2 universe that surround Fred Hassan his whole life, all of
3 these people are major players in Retrophin but Fred Hassan,
4 despite that email we saw yesterday, tells you, nah, I don't
5 remember, I never heard about Retrophin, my daughter made
6 \$1.8 million but I never heard about Retrophin. It's a lie,
7 ladies and gentlemen.

8 Let's talk about Evan Greebel. Evan Greebel is the
9 lawyer for Martin and Retrophin and MSMB and MSMB Capital from
10 the day one to day at the end. Mr. Marshall, the witness from
11 Texas, told you that he was a lawyer and he knows the firm
12 that Evan is a partner in and it's one of the most respected
13 firms and Evan is a respected lawyer and he says to you, that
14 gave me comfort that the agreement was okay, I took comfort in
15 the knowledge that Martin was represented by a real lawyer in
16 a real law firm. Why isn't that something that Martin could
17 take comfort in. When you listen to the Court's reliance on
18 counsel charge, you will conclude that as to Count Seven and
19 Eight, Martin has a valid reliance on counsel defense. It
20 doesn't end the discussion but you have to factor that into
21 the equation.

22 Remember, Marshall who told you this was himself a
23 substantial litigator for many, many years.

24 Let me show you how many other people who said that,
25 ladies and gentlemen. Marshall, of course, page 2513:

Summation - Brafman

5471

1 "And that also gave you some comfort because you
2 knew the firm, Katten, to be a very well respected law firm?"

3 "Answer: That's right."

4 Massella, Massella introduced Greebel, Massella is
5 the son-in-law of Citrin Cooperman, the accounting firm that
6 refers Martin to Evan Greebel and Evan Greebel starts working
7 as a result of the Massella introduction.

8 "And at one point Evan Greebel essentially put you
9 in touch with Martin Shkreli?"

10 "Well, he and the partner at Marcum."

11 Marcum, Marcum that did the evaluations, they
12 weren't called as witnesses by the government.

13 Massella: "And you knew that he and other lawyers
14 at Katten were working with Shkreli during the reverse merger
15 process?"

16 "Answer: Yes."

17 "And in regard to the preparation of the super 8K,
18 you knew Evan Greebel was involved in that, correct?"

19 Aselage: "Did you tell the government that when --
20 that while you knew that Greebel backed up Shkreli it meant a
21 lot to you because he was an independent counsel from an
22 outside firm that you knew at the time?"

23 "Answer: That is correct."

24 "Question: The outside firm Katten Muchin?"

25 "Answer: Correct."

Summation - Brafman

5472

1 "You knew at the time that was a fairly respected
2 law firm in New York City?"

3 "Answer: I didn't personally know them, I was told
4 they had a good reputation."

5 David Geller: "You testified that you came to learn
6 Mr. Greebel was involved on behalf of Retrophin in the
7 negotiations with you and the terms are finalized in your
8 agreement?"

9 "Answer: Correct."

10 "You recognized him as a lawyer who was working for
11 Retrophin?"

12 "Answer: Retrophin, MSMB, yes."

13 "Question: And I think it would be fair to say that
14 you told the government that you were comforted by the fact
15 that Evan Greebel was from a big firm?

16 "Answer: Yes."

17 "Question: And that helped calm you to believe that
18 you would ultimately be repaid, correct?"

19 "Answer: I didn't know if I would be ultimately
20 repaid but it helped calm me."

21 Why can that fact calm the investors into believing
22 that these agreements were legal when many of them had their
23 own lawyers working on these agreements as well and yet, if
24 Martin Shkreli has Evan Greebel as a lawyer, even if he fights
25 with him on occasion, the government said, oh, Evan Greebel is

Summation - Brafman

5473

1 a bad guy, Martin Shkreli has no right to rely on him. This
2 was during the period when everybody was relying on Evan's
3 skill. And Sara Hassan had her own lawyer, when she got the
4 PPM she had a guy named Levy who reviewed the PPM with her;
5 when she got her agreement, she had a Mr. Kornreich from a law
6 firm Proskauer, who she says was a prominent law firm,
7 reviewed the agreement with her. Richard Kocher had a lawyer
8 who reviewed the agreement with him.

9 Richardson: "Now, you talked a lot on your direct
10 about Evan Greebel."

11 "Answer: Yes."

12 "Evan Greebel is a partner at Katten?"

13 "Yes, which was our external counsel."

14 "Question: You said he's external counsel but he
15 was present for the board meetings?"

16 "Yes."

17 Further down: "And he also was someone that was a
18 great amount of email traffic that would go on with Retrophin?"

19 "Answer: Yes, he was copied on virtually
20 everything."

21 Evan Greebel was copied on virtually everything,
22 according to Richardson.

23 "And was he involved in the capitalization tables?"

24 "Answer: Yes."

25 "Was he involved in the information that was given

Summation - Brafman

5474

1 to board members in preparation for the meetings?"

2 "Answer: Yes."

3 "Did Martin refer legal questions to Evan, in your
4 experience?"

5 "I certainly saw a few referrals, yes."

6 "Either through email or in conversations with
7 Martin, would Martin say to you: I need to run this past
8 Evan?"

9 "I think on one or two specific instances he
10 probably did."

11 "Well, certainly again in terms of my own -- my
12 own -- Richardson -- topping up off my own stock, that was one
13 area that he said I had to get back to Evan on."

14 "Question: Because he wanted to be appropriate,
15 correct?"

16 "Answer: Yes."

17 Investor after investor and even Richardson, when I
18 started this case, it seems like a long time ago, but one of
19 the things I said to you was the statement that maybe doesn't
20 cut it in a criminal case, you need proof beyond a reasonable
21 doubt, so let me tell you what the maybe-s we have.

22 Maybe Martin could have been more responsive to the
23 needy investors who griped about not getting their calls or
24 emails answered more promptly.

25 Maybe because of the way his mind operates at warped

1 speed he was doing too many things at the same time and some
2 of the investors were losing patience.

3 Maybe Martin had a right to believe that everything
4 Greebel did was legal and proper because, like the investors,
5 he saw him as a top lawyer from a top firm.

6 Maybe Martin had a right to rely on lawyers
7 representing the investors as Sara Hassan, for example, and
8 Lindsay Rosenwald and Darren Blanton, they all had lawyers
9 negotiating these agreements that the government now says are
10 frauds. Well, if they say Evan is not real so that's why he
11 negotiated them, what about the lawyers on the other side, why
12 were they advising their clients that this was okay. So,
13 maybe, maybe, maybe all of those lawyers are just corrupt or
14 maybe they're not and maybe by vetting these agreements they
15 were implying and saying and suggesting that they were
16 perfectly legal.

17 Maybe Martin did not need board approval for
18 consulting agreements or maybe he believed he had board
19 approval because Marc Panoff, the company CFO, who did not
20 testify, sent them to Richardson and Aselage before board
21 meetings and those agreements are referenced in SEC filings
22 signed by them, so maybe Martin had a right to assume that
23 there was nothing wrong with these agreements.

24 Maybe Mulleady and Brent Saunders told investors the
25 truth or exaggerated to them or lied to them but neither of

Summation - Brafman

5476

1 them has been called as a witness, neither of them has been
2 called as a witness and it was they who encouraged the
3 investors to invest. Why? Because they were making a fortune
4 on Martin's stock tips and that's in the record.

5 Maybe Kevin Mulleady and Brent Saunders got so many
6 shares of Retrophin stock because they were instrumental in
7 Retrophin getting so much investor money.

8 Maybe Martin honestly believed that the assets under
9 management was \$35 million because he included and had a good
10 faith basis to include the \$30 million that he put into
11 Chelsea Pharmaceuticals for Josiah Austin. And just remember
12 that's not a figment of anyone's imagination because when I
13 cross-examined Lee Yaffe, Lee Yaffe told you he knew Austin,
14 he knows Austin was investing with Leerink Swann and Lee Yaffe
15 told you that he believed that Martin was running, that's the
16 words he used, was running Josiah Austin's money.

17 If Martin had a good faith basis to believe that he
18 was running Josiah Austin's money, then Martin is not lying
19 when he says, "I have assets under management." What
20 definition of assets under management have you been given in
21 this case? You will not be given any. It's a word, it's a
22 term of art, but if I say to you I am running your money and
23 therefore I am including it in my assets under management,
24 maybe I have a good faith basis to believe that.

25 Maybe the reason all the investors and Aselage and

Summation - Brafman

5477

1 Richardson commented on the defendant as being somewhat
2 unstable or strange or Rain Man or depressed or suffering from
3 anxiety is because they saw Martin's mind work differently and
4 I submit that you may consider their comments when you focus
5 on the question of intent or good faith.

6 Maybe Martin had the concept of Retrophin in his
7 mind before he discussed it with others or do you think he got
8 up one morning and just formed a pharmaceutical company. You
9 saw how many people have to be involved in just making a bag
10 of potato chips, think about starting a pharmaceutical company
11 to treat diseases that no one else is treating. You don't
12 wake up one morning and say I'm going to do this. It takes
13 planning in your mind, it takes effort, it takes 24/7 for two
14 years.

15 Maybe the government's bank charts are worthless
16 because all they show are bank balances and they completely
17 ignore the value of Retrophin stock that Martin puts into the
18 equation. They cannot ignore that. It's the whole case,
19 ladies and gentlemen. Why do the values go up, because
20 Retrophin is going up, otherwise the values would drop or they
21 would disappear completely. When Martin tells you you have
22 \$139,000 in value in your account, he is factoring into the
23 equation your pro rata share of Retrophin that he then gives
24 you. Why do people get shares like 35,714, why are those
25 strange numbers, because in Martin's mind that's the fair

Summation - Brafman

5478

1 amount when you factor in the pro rata value of Retrophin.
2 You can't just ignore that. He didn't make these numbers up
3 and today the numbers are all good. Even a genius who's a
4 visionary, it's hard to imagine that you could predict that
5 two years later everything I said would be 100 percent
6 accurate and all of the people would not only get their money
7 back but would get their money back with an amazing profit.
8 Some of these investors said to you, this is the greatest
9 investment I ever made, I have never had this kind of return.
10 David Geller told you that. John Neill told you that in words
11 or substance. And Darren Blanton, he turned a million into
12 five million and he's still sitting on hundreds of thousands
13 of shares of Retrophin.

14 Maybe every statement the government claims is a lie
15 or is false is in Martin's mind true and when said by him, he
16 had a good faith basis to believe because, according to
17 Aselage, Aselage said to you, I really think when Martin says
18 something he believes it. If Martin believes it when he says
19 it, then on the defense of good faith you must acquit him.

20 You know, something happened in this courtroom and
21 I'm going to be finished in ten minutes and I'm going to ask
22 the Court for a break but I need to finish before we break so
23 please bear with me, you know what happened in this courtroom
24 at times wasn't fair, you know if someone walked into this --
25 this is a beautiful courtroom, if you look around, it's really

Summation - Brafman

5479

1 stunning in terms of its design, marble and wood and polished
2 woods and screens and electronic equipment, it really is state
3 of the art and very handsomely made. It's nice, it's
4 impressive, it should be that way for the United States court.
5 But imagine someone coming in here and throwing a pizza
6 against the back of the marble splashboard, the pizza would
7 fall off but there would be a terrible mess, the toppings
8 would stick there, the cheese and the sauce, and it would
9 leave a terrible stain and then when anyone came into the
10 courtroom, the first thing they would say is not what a nice
11 courtroom, they would say what is that crap on the wall, it
12 looks terrible and it would change the whole impression of
13 what this courtroom is and how it looks like.

14 They did that to Martin Shkreli, every day you got a
15 limiting instruction from the Judge, you can't regard this,
16 you can't regard that, this is stricken, that is stricken,
17 every day we had a limiting instruction properly given to you
18 by Judge Matsumoto when evidence was put into the record that
19 had no business in the record and was prejudicial to Martin.
20 I'm not going to go through reading them, it probably wouldn't
21 be appropriate, but you got a limiting instruction, thank you,
22 Judge Matsumoto, every day to caution you that there are
23 charges in this case and stuff that isn't charged is not
24 something you can use to convict Martin Shkreli. Throw the
25 pizza toppings at Martin. Even if it's withdrawn, even if

Summation - Brafman

5480

1 it's removed, some of the stuff sticks and then maybe you look
2 at Martin in a different way, maybe the presumption of
3 innocence suddenly gets darkened and stained and maybe for a
4 minute you stop thinking of him as presumed to be innocent and
5 instead you say incorrectly, in violation of the rules and
6 your oath that Martin is not presumed innocent, look at all
7 the stuff that they're throwing at him. So, thank God you
8 have an impartial judge who tells you hit the erase button,
9 who tells you that part is stricken, who tells you again and
10 again and again, you've written them down or you've listened
11 to me, you know I'm being accurate. That's not right.

12 So, Martin Shkreli didn't testify and Her Honor will
13 instruct you that a defendant never has the obligation to
14 testify and that it is something that you cannot use against
15 him and you cannot even draw any inference from it and you may
16 not even discuss that fact in the jury room because that's the
17 way it is in every criminal case, the government always has
18 the burden of proof and a defendant doesn't have to call any
19 witnesses and a defendant doesn't have to offer a defense
20 because if they fail to prove him guilty beyond a reasonable
21 doubt, you must find him not guilty and you cannot use the
22 fact and you know what, that rule is in every single case but
23 in particular in this case what a wonderful rule, thank God
24 for that rule, because if all of the people are right about
25 Martin Shkreli, if all of the people who commented on his

Summation - Brafman

5481

1 mindset or his ability or his depression or his anxiety or his
2 mental stability are right, then this rule is needed to
3 protect someone like Martin Shkreli. He doesn't have to
4 testify, he doesn't have to prove that he is innocent. Nobody
5 normal, completely normal has to testify and certainly if
6 people say you're Rain Man or you're unstable or you're
7 depressed or you're taking medication, God help us if you have
8 to prove your innocence rather than they have to prove you
9 being guilty.

10 Look at the lists of the documents, all of the money
11 that's in this case and look at it and you will find that
12 little, if any money goes to Martin Shkreli during the period
13 in question and the judge will tell you that the fact that
14 someone did not profit from a fraudulent scheme is not
15 dispositive but it's a factor you can consider.

16 (Continued on next page.)

24
25

1 MR. BRAFMAN (Cont'g): Why is he doing this? Most
2 people commit fraud to become rich or steal money or live a
3 good lifestyle, that's the way it normally is. Ladies and
4 gentlemen, there is nothing normal about how Martin Shkreli
5 did this, confined to a room. The Government -- the Judge
6 will tell you, the Government will tell you -- the Judge will
7 soon give you instructions and the Judge will tell you that
8 you cannot allow anything the media said or printed or wrote
9 or filmed, you're not allowed to use that in anyway. You
10 promised us when you were chosen you would not use anything
11 out of the courtroom. We trusted you. Hundreds were excused
12 because they said, I can't be fair. You said you could be
13 fair. Every one of you swore to that. I'm calling you on
14 that. My client trusted you. I trusted you. We all trusted
15 you, both sides and the Judge. You are the exclusive judges
16 of the facts.

17 The Government can't tell what facts you must
18 use. I can't tell you what facts you must use. I can only
19 suggest to you what you should do with certain facts. Not
20 even the Judge can tell you what specific facts you should
21 credit or not credit.

22 Proof beyond a reasonable doubt is proof that a
23 reasonable person would not hesitate to rely on in an
24 important decision in your life, that's what the judge will
25 tell you in substance. And her definition controls, so I'm

1 shortening. I'm shortening it, but I'm not distorting it.
2 Reasonable doubt is a doubt in which a reasonable person can
3 say this would cause me to hesitate an important decision in
4 my life.

5 Would you rely on Mr. Yaffe's testimony in an
6 important decision in your life? Or would you say, you know
7 what, he admitted lying so many times I can't believe him, I
8 can't go to bed thinking he is telling the truth. He has a
9 reason now to hurt Shkreli, so he's not prosecuted for all the
10 things he said.

11 David Geller said, I didn't read anything, I briefed
12 them. I listened to Al, who made a fortune. Can you rely on
13 that testimony beyond a reasonable doubt to convict him?

14 The Court will tell you that the presumption of
15 innocence alone, unless overcome, is sufficient to acquit
16 Mr. Shkreli. And the Judge will tell that you the burden of
17 proof never shifts to the defendant, who doesn't have to call
18 any witnesses. And that if the Government fails to prove
19 every element of a charge beyond a reasonable doubt you must
20 find Mr. Shkreli not guilty. And when you get to reasonable
21 doubt, the Judge will tell you it's a doubt that a reasonable
22 person, after weighing all of the evidence, is a doubt that
23 would cause you to hesitate. Proof beyond a reasonable doubt,
24 means that you would not hesitate to act on that proof. This
25 case has so many reasonable doubts you must hesitate. You

1 must hesitate.

2 Because the defendant is presumed innocent the
3 defendant has a defense of good faith, which they must
4 disprove beyond a reasonable doubt. And they cannot do that.
5 They have not done it, and they can't do it with any further
6 argument that you may hear.

7 And if there is bias, if a witness has a bias, you
8 may consider that, you may consider that.

9 There is a special instruction with respect to
10 Mr. Yaffe. He has a non-prosecution agreement because he's
11 aligned himself in that regard with the Government. The Judge
12 will tell you the testimony of a witness who has been promised
13 that he will not be prosecuted should be examined by you with
14 greater care than the testimony of an ordinary witness. You
15 should scrutinize it closely to determine whether or not it is
16 colored in a way as to place guilt upon the defendant in order
17 to further the witness's own interests. You have to
18 scrutinize Mr. Yaffe's testimony more than you would anybody
19 else's in this case. If you scrutinize it normally, you have
20 to kick it to the curb if you read all the testimony. But the
21 Judge will tell you, you have to scrutinize it more carefully.
22 And if you scrutinize it more carefully, ladies and gentlemen,
23 you can't accept it.

24 The Judge will tell that you when someone acts
25 willfully, it's unlawful with an intent to do something the

1 law forbids, that is to say with a bad purpose, to disobey or
2 disregard the law. What bad purpose? What bad purpose have
3 they demonstrated with respect to Martin Shkreli? Did he look
4 to profit? No. Did he look to become a big shot? No. He
5 wanted to find a cure, and he did it. That's not a bad
6 purpose; that's a good purpose.

7 You must next determine, the Judge will tell you, or
8 we'll tell you, that the fact that someone misstated something
9 that was material, there is a substantial likelihood that a
10 reasonable investor would find the misrepresentation important
11 in making the investment decision. Not every lie is material
12 even if it's a lie. It has to determine whether they are
13 going to be interested in doing the investment or not.

14 They didn't read the private placement, what Kevin
15 Mulleady told them, or what Alan Geller told them, or what
16 somebody else told them does doesn't matter. If you had find
17 the defendant profited from the alleged scheme you may
18 consider that in relation to intent. There is no profit. So
19 when you consider that on the question of intent, we win on
20 that argument.

21 The Judge will tell you that you must use common
22 sense in deciding whether a defendant possessed or lacked
23 intent to defraud, do not limit yourself to what the defendant
24 said. You also look at what he did and what others did in
25 relation to the defendant and in general everything that

1 occurred. Well, what the defendant did is build a company
2 that now is finding drugs and cures, and his work is good. It
3 wasn't with a bad intent, ladies and gentlemen.

4 The Judge will tell you that on wire fraud, the loss
5 of right to control your assets only constitute deprivation of
6 money or property if the scheme could cause or did cause
7 tangible economic harm to the victim. So the Government might
8 say, well, you know Sarah Hassan had to wait a year before she
9 could spend her \$20 million trust fund. She got her money
10 then waited two years before selling the stock. Blanton still
11 has the stock. McNeil still has the stock. Other witnesses
12 waited months after they got their money hoping it would rise
13 so they would make more money. They weren't caused economic
14 harm.

15 The Judge will charge you on good faith. The
16 standard on good faith is the Government must disprove, the
17 Government must disprove the defendant's good faith beyond a
18 reasonable doubt. I don't have to prove he acted in good
19 faith. I can say it. We can argue it. But they have to
20 disprove that he acted in good faith.

21 With respect to wire fraud the Judge will tell you
22 that an intent to defraud for the purposes of wire fraud means
23 to act knowingly with specific intent to deceive for the
24 purpose of causing financial loss or property loss to another.
25 To be guilty of wire fraud you have to do it with intent to

1 cause specific loss, financial loss. Who lost anything?
2 Nobody. If they say to you, well, I lost the right to use my
3 money in the way I wanted to use if for a couple of months
4 while Martin was ignoring my e-mails. I ask you to consider
5 that he ignored the e-mails because he was building Retrophin.
6 I ask you to consider what these people had, what these people
7 invested, and what these people did after they got their money
8 back.

9 I'm done. I'm exhausted. I'm tired. But I'm
10 pleased.

11 I'm pleased because I take by looking at you I hope
12 all of you or at least some you understood that what I was
13 saying is not just Ben Brafman waxing eloquently or
14 ineloquently. It's Ben Brafman commenting on the evidence.
15 Asking a group of citizens, like you, to convict Martin
16 Shkreli of a felony, they must bring you clear and consistent,
17 and defensible, credible evidence. They cannot throw stuff
18 against the wall and hope some of it sticks so that you use
19 that and the vulnerability of this particular defendant, I
20 submit, and use it to convict him. It's really that simple.

21 They have not earned, the Government has not earned
22 to the right to ask you to make him a felon. They have not
23 earned that right in a public courtroom where the warts and
24 flaws of witnesses were exposed, not on direct examination but
25 on cross-examination, and now a reasonable doubt is

1 circulating in the atmosphere like a bunch of drones that
2 require a finding of not guilty.

3 Both sides obviously want to win. But when a
4 defendant, I submit, who has been accused but has not been
5 proven to be guilty is acquitted everybody wins. Because that
6 is a just verdict. That's the right verdict if they fail to
7 prove beyond a reasonable doubt. So when you're foreperson
8 announces the verdict that I hope is not guilty, don't slink
9 away from that verdict, be proud of that verdict. Be proud to
10 say, I gave Martin Shkreli a fair trial even though he was
11 Martin Shkreli. And I am proud to announce that verdict
12 because it's the right verdict under the facts and under the
13 evidence and under the law. Proud of the fact that despite
14 the controversy you stood tall and responded to the oaths you
15 gave us when we started.

16 I just want to tell you something which you may find
17 a little bit upsetting but I'm asking to you consider it in
18 the manner in which it's intended, not to as an upfront but
19 get you to be thinking.

20 Every one of us knows an oncologist or two. An
21 oncologist sometimes has to give very, very bad news.
22 Sometimes they have to tell you, you've got cancer. And
23 that's a terrible thing to tell anybody. But you know what,
24 before an oncologist makes that announcement and tells you, as
25 a practical matter, your life may be over or is certainly

1 going to be different, they have a biopsy; they have a blood
2 work; they have an MRI; they have a CAT scan; they are able to
3 touch you and feel whether there is a lump or whether there is
4 a discoloration of the skin; they can give you every test that
5 there is. And when all of tests come in and all the blood
6 work comes in they can say, I'm sorry to tell you you have
7 cancer. And today, thank God, because of medical research
8 many cancers are curable maybe not always a death sentence.

9 When you deliver a verdict of guilty, God forbid,
10 that's forever. That's A. Regardless of the other
11 consequences, you're a felon forever.

12 You don't have blood work and tests. There is no
13 forensic evidence. There is no DNA. There is no
14 fingerprints. There is nothing in this case except the
15 testimony and the exhibits. So when you decide whether
16 someone is guilty and they have been established guilty beyond
17 a reasonable doubt, all you really have is what we use when we
18 pick a jury, common sense, honesty, a fair evaluation of the
19 evidence, respect for the laws that have been in place for the
20 last hundreds of years, not just for Martin Shkreli but for
21 everybody.

22 I told you in my opening statement that when the
23 long, strong arm of the Government reaches out and tries, as a
24 practical matter, to change someone's life or end someone's
25 life, they have to be right. They have to come to you beyond

1 a reasonable doubt. They have to convince you with evidence
2 beyond a reasonable doubt. And I don't think, most
3 respectfully, that if you listen to all of the testimony that
4 they have done that.

5 You know the Judge is going to give you the rules of
6 law that you have to apply. And the Judge is the law. The
7 Judge tells you what the law is and you're required to apply
8 the law, whether you agree with it or not. And I do hope a
9 apply the law. I think if you apply the law you'll see the
10 sections of law that I quoted in substance I did accurately,
11 and the Judge will include those instructions in her
12 instructions.

13 But on certain things you are the law, you're the
14 judges of the facts. Nobody can tell you who to believe.
15 Nobody can tell you what weight to give evidence. Nobody can
16 tell you how long you should deliberate. Nobody can tell you
17 how you should conduct your deliberations, except to say be
18 fair and listen to the opinions of each other. No one can say
19 how long you should deliberate, and whether you deliberate for
20 three hours or three days or a week, however long it takes to
21 reach a verdict. Nobody can come in there and say you have to
22 hurry, do this or do that. What goes on in that jury room is
23 yours; in that respect, today you are the law. I ask you to
24 respect that part of the law.

25 And when I sit down Ms. Kasulis after the break has

1 an opportunity to give a rebuttal summation. I hate that
2 rule. All of us want the last word. Every one of us, when we
3 argue with a friend or spouse or child or significant other,
4 you want to have the last word. It kills you if the
5 conversation ends and they put a piece of tape over your mouth
6 and you got to walk away even though you have great things to
7 say, but that's the rule.

8 So what I need to do is two things, one, I need to
9 prepare you. I don't know what she's going to say. She can't
10 unwind the testimony, on that I have no concerns. She's not
11 going to show you another several hundred exhibits like
12 flashcards so you see them for a second and you have no idea
13 what you're looking at. Maybe she'll tell you, Mr. Brafman is
14 a good lawyer. He tried to distract you from the facts and
15 the fact are that Martin Shkreli is overwhelming guilty. If
16 she says that, thank you. If you're on trial and it's this
17 important and you're Martin Shkreli, you should have a lawyer
18 who knows how to defend you. So I'm not ashamed, if that's
19 what she says or if that's what you conclude. Or even if she
20 says I'm a bad lawyer, but I didn't try to distract you. I
21 may have used to bag of potato chips to make a point, but it
22 was a point worth making. If you make a pharmaceutical
23 company with effort and time and brilliance, you don't turn
24 around one day and say here is a bag of potato chips not
25 knowing how the chips or the bag got here. There is no

1 distractions. And every once in a while if I used a metaphor,
2 if I made you smile, if on occasion we couldn't smile I would
3 drop dead from the tension in this courtroom if we couldn't
4 lighten the atmosphere every once in a while. But not to
5 suggest that what we're doing is not of serious. This is a
6 serious as it gets, ladies and gentlemen.

7 So whatever she says, whatever she says, here is
8 what I want you to do, first of all listen and respectfully.
9 I'm sure she will like, Ms. Smith, give you a very eloquent,
10 well-prepared rebuttal. But she doesn't have the last word.
11 You do. In this argument you have the last word.

12 I hope that the last words are not guilty. Thank
13 you very much.

14 THE COURT: Thank you, Mr. Brafman. We're going to
15 give the jurors a break at this time. Please, it's not yet
16 the time to discuss. Keep your thoughts and feelings to
17 yourself. Keep your mind open. You'll hear rebuttal and
18 we'll resume in about ten minutes. Thank you.

19 (Jury exits the courtroom.)

20 THE COURT: All right. So during this break,
21 counsel, why don't we try to figure out the addition to the
22 instructions that the Government had requested. I'm thinking
23 that perhaps on page -- it's the instruction regarding verdict
24 and deliberations, there is some language in that instruction.

25 MR. BRAFMAN: May I step out for a minute while they

Proceedings

5493

1 are talking?

2 THE COURT: Of course.

3 (Brief recess.)

4 THE COURT: Have we worked it out?

5 MR. SRINIVASAN: The Government version is on the
6 top and the defense on the bottom, page 83.

7 THE COURT: We agree that page 83 would be an
8 appropriate spot. Let's see what you both want.

9 Well, you know, I think this instruction was
10 proposed to correct, or not correct but to address, a
11 statement that appears to contradict my instruction. The
12 question is whether you want a more specific instruction
13 directed to what was said during closing or whether it should
14 be more general and not referential to the comment. So I'll
15 hear from Mr. Agnifilo why the Government's proposal, or
16 Mr. Brafman, why it is not appropriate. I'll share this with
17 my clerk.

18 MR. AGNIFILO: I don't think the Government's
19 proposal is in anyway inappropriate. Think it's a matter,
20 it's a stylistic matter. And I don't know that it helps
21 necessarily, even I think what we're trying to accomplish is
22 to highlight, to put in society. I think it is possibly a
23 more effective instruction just to say any consideration
24 because that really is the state of the law. I know the
25 Government wants the added portion to say that they want to

1 make sure there is no impact on possible society in the
2 future. Honestly, I don't feel terribly strongly either way.
3 I think our instruction is cleaner, and basically is a
4 truthful statement of the law and solves the problem that the
5 Government has without going back into the subject matter.

6 So that's why we propose it the way we did. I don't
7 think the Government's proposal is inappropriate in anyway. I
8 just think ours is better, is more effective.

9 MR. SRINIVASAN: Your Honor, our position is that
10 your Honor's instructions do contain that the general and
11 broader proposition. But given the specific comments that
12 were made that Ms. Smith highlighted earlier today, that
13 having a more specific clarifying instruction I think would be
14 appropriate in this case to address the issues that we have
15 raised, that's why we put in the bit about society, addressing
16 various comments about visionary and throwing the person on
17 the heap. I think it addresses the issues that arose and
18 gives the jury some additional guidance.

19 THE COURT: There seems to be a bit of suggestion
20 that as a visionary of the generation, and how the generation
21 would suffer consequences if Mr. Shkreli were no longer able
22 to apply his extreme intelligence to developing orphan drugs
23 that could help society in general.

24 What if we added the sentence, "You cannot allow
25 consideration of the punishment that may be imposed upon a

Proceedings

5495

1 defendant or the consequences on society if he is convicted to
2 influence."

3 MR. AGNIFILO: That's fine.

4 MR. BRAFMAN: When did I say "society"?

5 MR. AGNIFILO: Our concern is that it's
6 incorporating a concept, it's interpreting what I think the
7 Government thought that Mr. Brafman was saying, but he didn't
8 actually say it.

9 THE COURT: Somebody must have the transcript that
10 we can search.

11 MS. SMITH: He said, "Make somebody a felon for the
12 rest of his life is a very, very tough decision. And when
13 you're dealing with anyone you have to be right. But when
14 you're dealing with maybe one of the most of the extraordinary
15 minds of this generation you need to be right before you snuff
16 that out." That's one.

17 And then second, "It requires you to understand how
18 special his mind is, and how careful you need to be before
19 tossing it in a heap."

20 THE COURT: Then I would agree with the defense that
21 we can say --

22 MR. BRAFMAN: Thank you.

23 THE COURT: -- "May be imposed upon defendant if he
24 is convicted" -- let me see. Is this acceptable, "Under your
25 oath as jurors you may not consider any consequences including

Proceedings

5496

1 the punishment that may be imposed upon a defendant if he is
2 convicted."

3 MR. AGNIFILO: That's fine with us.

4 MS. SMITH: That's fine.

5 THE COURT: What we're going to do then is to insert
6 this additional language at page 83. We will relabel the jury
7 instructions as Court Exhibit 5 and the verdict sheet is 5A.
8 And we'll give you an opportunity to see it. Hopefully we can
9 then charge the jury.

10 MR. AGNIFILO: Sounds good.

11 MR. SRINIVASAN: Thank you, Judge.

12 THE COURT: Why don't you take a quick look at the
13 language.

14 MR. BRAFMAN: That's fine by the defense, your
15 Honor.

16 THE COURT: All right. Thank you.
17 Is the Government all right with it?

18 MR. SRINIVASAN: Yes, your Honor.

19 THE COURT: We'll make that change. Are you ready
20 to proceed, Ms. Kasulis?

21 MS. KASULIS: I am.

22 (Jury enters the courtroom.)

23 THE COURT: All our jurors are present. Please have
24 a seat.

25 Ms. Kasulis, you may proceed with rebuttal

Rebuttal Summations - Kasulis

5497

1 summation.

2 BY MS. KASULIS: Thank you, your Honor.

3 Good morning, everybody. Now Mr. Brafman kept
4 asking during his summation why are we here, why are we here?
5 The answer is simple, you know the answer. The defendant
6 defrauded his investors. Lying to people to get them to
7 invest with you is fraud.

8 The Judge will instruct you on the law and you will
9 hear that when you lie to people knowingly and intentionally
10 to get their money, it's a crime. And that is exactly what
11 Martin Shkreli did, he knowingly lied over and over again to
12 his investors to get their money and then to keep their money
13 I also want to be crystal clear on one point, it doesn't
14 matter if you paid people back years later after you've stolen
15 their money and you've lost all their money, those people are
16 still victims of fraud.

17 This part of the law was completely lost on
18 Mr. Brafman during his summation. He ignored it. He led you
19 astray.

20 After Martin Shkreli stole from MSMB Capital and
21 MSMB Healthcare investors, he then stole from Retrophin and
22 its investors to pay back those defrauded MSMB investors.
23 Think about it, ladies and gentlemen, if you rob a bank and
24 then you rob another bank to pay back the first bank, you
25 still robbed that first bank. The evidence is clear. Martin

Rebuttal Summations - Kasulis

5498

1 Shkreli committed fraud eight times over. That is what we
2 have proven beyond a reasonable doubt.

3 Now in her instructions to you, the Judge will tell
4 you that what the attorneys say is not evidence and there is a
5 good reason for that. Mr. Brafman gave an impassioned
6 summation for his client. He did that. But if you felt like
7 what you heard Mr. Brafman say about what happened in this
8 courtroom over the last month wasn't quite what you recalled
9 those witnesses saying, wasn't quite what you recalled about
10 the demeanor of the witnesses on that witness stand, wasn't
11 quite what you recall the documents saying to you, you are not
12 alone. Mr. Brafman's arguments are just that, arguments.
13 They are not evidence.

14 I submit to you that the evidence in this case is
15 devastating for the defendant. Mr. Brafman had to make up
16 evidence or skew the evidence. Because when you don't have
17 the law and you don't have the facts on your side, you resort
18 to distractions. Mr. Brafman actually hit that nail right on
19 the head at the end of his summation, distractions. Do not be
20 fooled.

21 There is an avalanche of evidence in this case. And
22 I don't use that term lightly, an avalanche that buries the
23 defendant. Now faced with this evidence Mr. Brafman has
24 talked about a lot of different things, bags of chips,
25 *Rainman*, rap concerts, touching soft skin, horrible diseases.

Rebuttal Summations - Kasulis

5499

1 But what was Mr. Brafman doing is he was trying to cloud your
2 judgment by appealing to your emotions, maybe your deepest
3 fears, to get you to ignore the evidence, the cold hard facts
4 in this case.

5 He harped on who did not testify instead of truly
6 dealing fairly with the witnesses who did. The Judge will
7 also instruct you that while the defendant does not have a
8 burden to prove his innocence, he does not, let me be clear,
9 he doesn't have to put on evidence. He does not have to call
10 a single witness. But both the Government and the defense
11 have the same right to subpoena witnesses to testify on their
12 behalf.

13 Bottom line, ladies and gentlemen, disregard all of
14 those distractions. Focus on what matters, the evidence and
15 the law. Don't let the noise drown that out. Focus on what
16 really matters here.

17 Now Mr. Brafman spent a lot of time talking about
18 the mythological Martin Shkreli. Let's talk about who is
19 Martin Shkreli. What does the evidence show you? It has
20 shown you that Martin Shkreli is calculating. It's not about
21 just the sheer volume of lies, it's the kind of lies that he
22 tells about things that really matter to people, to investors,
23 that would matter to a reasonable person making a decision
24 about how to invest their money. He knew exactly what he was
25 doing and we have proven his intent to deceive beyond any

Rebuttal Summations - Kasulis

5500

1 doubt.

2 Mr. Brafman want you to believe that Mr. Shkreli is
3 perhaps the smartest man on the planet. So smart that the
4 rules and the law just don't apply to him. He's so smart that
5 people practically faint in his presence, they throw their
6 money at him, it comes flying out of their pockets. He's so
7 smart and so confident that he built this company in two years
8 while lying on the floor of his office in a sleeping bag that
9 entire time.

10 But let's consider the evidence, ladies and
11 gentlemen. Of course Mr. Shkreli is a smart man, no one is
12 saying he's not smart. He knew exactly what he was doing. He
13 intended to deceive. He intended to defraud these investors
14 by lying to them. How do you know that? Because for each
15 investor, for each mark, each intended victim, he changed his
16 lies. He changed his lies, that's how you know he doesn't
17 believe what he was saying. Because he lied to each one of
18 those people in the way that he thought would make them give
19 him their money.

20 Let's talk about Sarah Hassan. He posed as a mentor
21 to her in the hedge fund world. Sarah Hassan who actually
22 graduated from college early. He told her about his stellar
23 track record, his Assets Under Management. He lied to her to
24 take her money, to steal from her.

25 Let's talk about Steve Richardson. We've heard a

Rebuttal Summations - Kasulis

5501

1 lot about Steve Richardson over the last month. Martin
2 Shkreli told him, I, too, have family struggles. I, too, had
3 to drop out of college because we couldn't afford it. He told
4 Mr. Richardson about his stellar track record, how he was a
5 prodigy. He lied to Mr. Richardson to steal his money. And
6 let me be clear, Mr. Richardson worked really hard for his
7 money, that was very evident from his testimony. He started
8 on the line at American Express. He worked his way up to
9 become the senior vice president of HR at American Express.
10 He worked years to get his money. But according to
11 Mr. Brafman, just because Steve Richardson worked hard and he
12 did well for himself and he made his money, that he can't be
13 defrauded. It's all rich people BS. It's totally fine that
14 Mr. Shkreli stole from him because he's rich. There is no
15 rich person exception to the law. That's insulting. Use your
16 common sense.

17 The Judge will instruct you on the law. What
18 Mr. Brafman said is not the law. It doesn't matter if you're
19 rich or poor. It doesn't matter if you're sophisticated or
20 not sophisticated. The law treats us all equal. It protects
21 us.

22 Darren Blanton and the other Texas investors were
23 impressed by Martin Shkreli's knowledge of the health care
24 industry. How he graduated from Columbia early on, very
25 impressive to them. Mr. Blanton talked up all his performance

Rebuttal Summations - Kasulis

5502

1 results, how he thought his investment was doing with Martin
2 Shkreli. All lies. Don't forget, Martin Shkreli had barely
3 any money in the MSMB Capital bank accounts when he went down
4 to Texas to pitch those investors. All of these lies, all of
5 them, they go to bad faith. Martin Shkreli knew exactly what
6 he was doing when he lied to those people to take their money.

7 Mr. Brafman wants you to believe that Martin truly
8 believes his lies because he's so special. Mr. Brafman
9 mentioned what Steve Aselage testified to on cross-examination
10 about Martin filling in the blanks while meeting with the
11 investment bank on Retrophin on the Valeant deal. Let me be
12 clear, Steve Aselage had nothing to do with MSMB Capital or
13 MSMB Healthcare. He didn't even meet Martin Shkreli until
14 August 2012. He never spoke to these investors. He met
15 Martin Shkreli long after Martin Shkreli blew up MSMB Capital,
16 after Martin Shkreli started defrauding people like David
17 Geller.

18 Martin Shkreli told all of these people that he had
19 a successful track record, had high Assets Under Management,
20 that they had an auditor, they could get their money out. Why
21 was he lying about these facts, because they matter. They are
22 important. Assets Under Management are important, it's what
23 makes a fund viable. It's what allows a fund to sustain a
24 loss. It shows there are other investors in the fund. Having
25 an auditor is important. If this case illustrates anything,

Rebuttal Summations - Kasulis

5503

1 ladies and gentlemen, it is the importance of having a
2 third-party, independent auditor to check those books.

Summation - Kasulis

5504

1 BY KASULIS:

2 And having a successful track record as a hedge
3 fund manager, of course that's important. Who wouldn't want
4 to know that when they're making a decision about investing
5 their money? These are all factors that are important to a
6 reasonable investor, and you can't ignore them. They matter
7 to these investors and they matter to a reasonable person.
8 And that is the standard and that is the law. And if these
9 people invested in Martin, it was a fairytale, Martin, a
10 fraud, and he knew it.

11 The evidence has shown you who real the Martin
12 Shkreli is. He has been unmasked in the last month in this
13 courtroom. He was not acting in good faith. He lied to
14 these people to deceive them, to manipulate them. He didn't
15 care about them. He just wanted their money.

16 Why didn't Martin Shkreli just tell them that he
17 had blown up Elea Capital? That maybe, in fact, he was
18 special. Maybe he had sort of a shoddy track record, that he
19 didn't have access to management. So why didn't he just tell
20 them that? Because they never would have invested with him.
21 That's why.

22 Mr. Brafman asked why Martin didn't just tell the
23 MSMB Capital investors that he had blown up the fund on that
24 Orex trade in February of 2011? He couldn't be sued,
25 according to the PPM if he had just told them that. Why

Summation - Kasulis

5505

1 didn't he tell them that? Because he couldn't, because then
2 he would be a failure. They would know who is he. People
3 wouldn't invest with him anymore, and he desperately needed
4 people to keep investing with him. He didn't have control of
5 Josiah Austin's money. You heard Josiah Austin testify. You
6 read the defendant's statement. That's just a lie.

7 And then after he blew up that fund, he just kept
8 telling people, Oh, your money's doing great statement after
9 statement after statement just to buy time to figure out what
10 he was going to do. And I want you to look closely at the
11 PPM. We talked so much about that and Mr. Brafman talked so
12 much about it in his summation. Show me where in those PPM's
13 the manager's allowed to lie? Look at every single one.
14 Nowhere in PPM's are you allowed to lie to your investors.
15 Ladies and gentlemen, the evidence is clear that Martin
16 Shkreli doesn't think the rules apply to him and that the law
17 doesn't apply to him. But unfortunately for him, it does.

18 Now, Mr. Brafman also spent a lot of time during
19 his summation talking about how MSMB Capital and MSMB
20 Healthcare investors weren't defrauded because they got all
21 this money back. That is just another distraction. Use your
22 common sense. You will hear from the judge that success is
23 not an element of the frauds charged, and that means that
24 even if the defendant hadn't been successful in getting the
25 investors' money when he was lying to them, he could still be

Summation - Kasulis

5506

1 guilty of fraud if all of the other elements to the crime are
2 met.

3 Now, the judge will instruct you that a belief that
4 ultimately everything would work out so that no one would
5 lose any money or that ultimately everyone would make money,
6 does not excuse fraud. And I will say it again: It does not
7 excuse fraud under the law. And that makes sense. Think
8 about it. The defendant wants you to believe that he can lie
9 to investors' faces, get them to trust him, to give him their
10 money to use it any way that he wants, to lose it all, to
11 spend money on his lofty ideas in his head for a company, and
12 that if they get paid back years later after hounding him for
13 their money, somehow he didn't steal from them. It's not a
14 crime. It makes no sense. It's not how the law works. And
15 to boot, you certainly can't steal from a public company and
16 pay back the investors that you stole from. You can't rob
17 Peter to pay Paul. It doesn't work that way.

18 And just because the defendant got lucky and
19 Retrophin became a success years later through the hard work
20 of many people, not just Martin Shkreli, that he's somehow
21 not guilty of fraud. Again, that is simply not the law.
22 Listen to the judge's instructions.

23 Ladies and gentlemen, the evidence is devastating
24 for the defendant on Counts 1 through 6. Just devastating.
25 He defrauded these investors with reckless abandon. He is

Summation - Kasulis

5507

1 done. He is done on those counts. You could convict on
2 Sarah Hassan alone. You could convict on the defendant's own
3 words, the bank records, the document that you saw alone.
4 You don't even need the testimony of the investors. That is
5 how strong the evidence is in this case.

6 Now I also want to speak to you about another myth,
7 the myth of Retrophin. We asked about who Martin Shkreli is.
8 Well, let's talk about Retrophin. What is Retrophin? If you
9 talk to the defendant, Retrophin is \$20 million. Is it
10 \$40 million. Is it \$80 million. All a complete and total
11 fiction, a figment of the defendant's imagination. And he
12 knew that. He's a very smart man. You don't value a company
13 at \$80 million and then draft a liquidation press release at
14 the end of December in 2012 announcing his demise for the
15 company. You don't do that. You don't say your company is
16 worth \$80 million when you have \$11,000, \$11,000 in the bank
17 account at the end of December of 2012.

18 Mr. Brafman talked about a plot of land and a
19 mansion on that land and it's got impatents, it's a mansion.
20 What Martin Shkreli wants you to believe is if you buy a plot
21 lot of land for \$10,000, and then you stand back, the street,
22 you look at the plot of land and you think, you know what,
23 I'm going to build a house on this plot of land and it's
24 going to be an 80 million-dollar house. But you don't even
25 take one step to put a brick down, you do nothing. That you

Summation - Kasulis

5508

1 can then sell that plot of land for \$80 million. That's what
2 the defendant wants you to believe. It's absurd. It's
3 ridiculous. If that's how the defendant was justifying those
4 amazing returns for MSMB Healthcare investors, there is no
5 excuse for his behavior. None. He is smart, he knew he was
6 lying to those people.

7 Retrophin, ladies and gentlemen, was nothing more
8 than Martin Shkreli's personal piggy bank. It was his way of
9 getting out from under his fraud.

10 Martin Shkreli and others, including Evan Greebel
11 schemed to steal money from Retrophin, Retrophin, the company
12 we've heard so much about. The way that Martin Shkreli was
13 to give back, use all his genius for the good of society, to
14 cure these terrible crippling diseases. Martin Shkreli did
15 not cure PKAN. There is no evidence in the record for that.
16 These drugs that we've heard about, Martin Shkreli didn't
17 create those drugs. Retrophin bought those drugs.

18 What did Martin Shkreli do with Retrophin? He
19 stole millions of dollars from Retrophin's shareholders and
20 their investors.

21 And ladies and gentlemen, remember, Retrophin did
22 not have millions of dollars lying around for the defendant
23 to steal.

24 You heard from Steve Aselage, the current CEO of
25 Retrophin, what did he tell you? What could have been done

Summation - Kasulis

5509

1 with that money? It could have gone to developing drug that
2 is really could have helped people. When people invested in
3 that 10 million-dollar pipe in February of 2013 did they
4 think two of the \$10 million was going to go to pay back the
5 people that he defrauded when he had nothing to do with
6 Retrophin? Absolutely not.

7 You heard testimony and saw documents that the
8 defrauded MSMB investors were threatening to sue the
9 defendant. To go to the SEC to get the money that
10 Mr. Shkreli told them was owed to them in cash and in shares.

11 Martin Shkreli told them in September of 2012 that
12 he had doubled their investment. He told them that they were
13 owed far more than MSMB Healthcare ever invested into
14 Retrophin and MSMB Capital never invested in Retrophin. And
15 this new theory we heard that they got vested shares in 2012.
16 Where were those shares in 2011 when he was sending out all
17 those performance reports after he blew up the fund? They
18 were nowhere. It's a distraction.

19 The defendant -- the defendant promised those
20 people that money. Not Retrophin. These investors didn't
21 have any valid claim against Retrophin. Retrophin didn't do
22 anything wrong. It wasn't Retrophin's responsibility to
23 protect Martin Shkreli from dealing with the consequences of
24 his crime. That's not Retrophin's business decision. The
25 company's not responsible for that.

Summation - Kasulis

5510

1 Now, Mr. Brafman said a lot in his summation about
2 Martin Shkreli is MSMB, MSMB is Retrophin, it's all the same
3 thing. They're all interchangeable. But again, that is not
4 the way the law works. Retrophin is a public company. It
5 has investors. It has shareholders. Martin Shkreli is not
6 the only shareholder of Retrophin. That is the truth, the
7 cold-hard facts that he cannot get away from.

8 You will hear from the Judge that Mr. Shkreli had
9 the duty to the company to act in Retrophin's best interest.
10 Not his own. And he had that duty all along.

11 And how do you know that Mr. Shkreli knew that he
12 had that duty? We all know that document,
13 Government's Exhibit 255 when Mr. Greebel reminded
14 Mr. Shkreli about that duty, I think we all remember what he
15 said. F-that. F-that. Because it's all about Martin
16 Shkreli. It really just sums it all up, doesn't it?

17 And I want to talk briefly about these settlement
18 and consultant agreements. The evidence is crystal clear
19 that Martin Shkreli and Evan Greebel stole from Retrophin
20 through those agreements. Again Mr. Brafman distracted you.
21 He was not careful with the evidence. He was not true to the
22 evidence. How do you know that these agreements were not on
23 the up and up? Think about it. They weren't true, because
24 Martin Shkreli and Evan Greebel weren't forthcoming with the
25 Board of Retrophin. They hid these agreements. They hid

Summation - Kasulis

5511

1 these payments.

2 Remember. Martin Shkreli didn't take any money out
3 of his own pocket through those agreements, zero. Zilch,
4 nothing. He had millions of his own Retrophin shares, but he
5 didn't use those. He used Retrophin's shares. He used the
6 Fearnow shares to pay these people back. He pilfered the
7 company, a company that had been on the brink of collapse.

8 The Board members could not have been more clear in
9 their testimony. They never approved those settlement
10 agreements. I'll say it again: They never approved those
11 settlement agreements.

12 And by the time the auditors had discovered those
13 agreements, the vast majority of the cash and the shares were
14 gone, ladies and gentlemen. Gone. Stolen, taken.

15 And you don't need to just rely on the Board
16 members' testimony to know that there were no approval to
17 those agreements. Because again, these are Martin Shkreli's
18 own words. Government's Exhibit 322. What does Martin
19 Shkreli say in that e-mail?

20 No Board approval for the settlement agreement.
21 None.

22 Now, once Marcum discovered those agreements did
23 Martin Shkreli and Evan Greebel sit down with the Board,
24 explain to the Board what these agreements were about? Did
25 Martin Shkreli say, Hey, look guys got myself in a jam. I

Summation - Kasulis

5512

1 defrauded all these people, I might get sued. Can we talk
2 about it, please? Of course the didn't do that. He wasn't
3 honest with them. He didn't tell them the truth. They
4 didn't approve anything.

5 They trusted Martin. He was the CEO of the
6 company, they trusted Evan Greebel. He was counsel for the
7 company. And Martin Shkreli told them, signed agreements
8 that he was going to pay the company back. If these
9 settlement agreements were totally on the up and up, totally
10 Retrophin's responsibility, why did Martin Shkreli have to
11 pay the company back? It doesn't make any sense.

12 And you know how else these agreements were a
13 fraud? Because if they weren't a fraud, why didn't they just
14 keep using settlement agreements?

15 No. Martin Shkreli and Evan Greebel's schemed,
16 they had to change course because they had been discovered
17 and that's how the consulting agreements came about.
18 Retrophin had no business paying those MSMB investors, no
19 business.

20 Martin was responsible for those payments, not the
21 company.

22 Darren Blanton was no consultant. The evidence is
23 clear about that. And Lee Yaffe, Mr. Brafman is still
24 maintaining somehow that Lee Yaffe is a cluster headache
25 specialist, that he somehow was going to be worth \$200,000 on

Summation - Kasulis

5513

1 cluster headache consultation.

2 You heard him testify. You saw him. What he told
3 you was corroborated by the evidence, that he conspired with
4 Martin and Marek to steal money from Retrophin through a sham
5 consulting agreement, to get the money back the defendant
6 owed Mr. Yaffe's father for years.

7 The evidence is overwhelming, ladies and gentlemen,
8 on Count 7.

9 Martin Shkreli was never bullied. He wasn't outed
10 unfairly from the company. Martin Shkreli wasn't terminated,
11 he resigned. That's the evidence, not what Mr. Brafman told
12 you. The Board removed him as CEO and wanted to keep him on
13 the Board. Martin Shkreli resigned. This whole narrative
14 about the lawsuit needing a felony to terminate Martin
15 Shkreli. It's a distraction. Not what the evidence shows.
16 There is no doubt that Martin Shkreli and Evan Greebel
17 intended to deceive Retrophin's shareholders and investors.
18 Stole money and shares from the company. There's no doubt
19 about it. And again, with respect to this count, Martin
20 Shkreli thought that he is somehow above the law. But we all
21 know that the law applies to Martin Shkreli. He may not like
22 it, but it applies to him.

23 And I want to just spend two minutes on Count 8
24 because I submit to you, ladies and gentlemen, the evidence
25 on Count 8 is devastating.

Summation - Kasulis

5514

1 Martin Shkreli controlled 80 percent of the
2 free-trading shares of Retrophin. And he did it to control
3 the price, to control the trading volume. He conspired, he
4 agreed with others to do it. And that is the crime. The
5 conspiracy, the agreement to do it for that purpose. You
6 don't have to show all this trading back and forth. I submit
7 you that on the chart show that these individuals were, in
8 fact, trading, were, in fact, trying to affect the volume of
9 Retrophin stock, the trading of that stock. But the crime is
10 the conspiracy, the agreement to do that with others for that
11 purpose.

12 And Martin Shkreli was obsessed with the stock
13 price, obsessed with it.

14 Mr. Brafman, again, misled you. He talked about
15 the definition of an affiliate. You will hear from the Judge
16 that what Mr. Brafman told you is not the law.

17 Martin Shkreli didn't want the market to tank
18 Retrophin stock. He didn't want to let the public actually
19 value this company. He wanted to value the company. He
20 wanted to control the company. He wanted to control those
21 shares to make sure that stock price stayed up that when he
22 distributed out those shares people might think they have
23 some value in those restricted share pieces of paper they can
24 do nothing with for a year.

25 That's illegal. It's a crime. I also want to just

Summation - Kasulis

5515

1 talk very briefly about Mr. Brafman's arguments regarding
2 Mr. Shkreli relying on Evan Greebel for advice. Mr. Brafman
3 argued that that is why Mr. Shkreli is not guilty on Count 7
4 and 8.

5 Again, ladies and gentlemen, the evidence could not
6 be more clear, Martin Shkreli wasn't relying on Evan Greebel.
7 Evan Greebel wasn't leading him around by the nose. You saw
8 the e-mail. You saw the way Martin treated Evan Greebel.
9 You embarrass me. You're lazy and stupid. More business for
10 another firm. Good job, Even. God bless America.

11 Martin was the dominate person in that relationship
12 and that relationship was a criminal conspiracy. There is no
13 doubt about it. They worked together to defraud the company,
14 to defraud the shareholders and the investors of Retrophin.

15 You heard testimony from the Board members that
16 Evan Greebel did not put Retrophin back into the firm. He
17 was looking out for Martin. He was helping Martin be
18 creative about how they were going to steal the company's
19 money so that Evan could keep getting paid. So that the MSMB
20 investors would go away. They wouldn't sue. They wouldn't
21 go to the SEC. They wouldn't expose Martin for the fraud
22 that he is.

23 The defendant was not lead astray by a trusted
24 legal advisor. There is no support in the evidence for that.
25 None whatsoever. They were co-conspirators. They schemed

Summation - Kasulis

5516

1 together and the evidence supports no other conclusion.

2 I urge you to go through the evidence, go through
3 the documents, request the testimony if you need it.

4 Ladies and gentlemen, we have nothing to hide. We
5 have the last word because we have the burden, and I submit
6 to you that we have met that burden in phase. Use your
7 common sense. Don't be distracted.

8 It's time, it's time for Martin Shkreli to be held
9 accountable for his choices, for his choices to lie, to
10 deceive, and to steal, to take people's money without a
11 second thought, without even a pause. To steal from the
12 Retrophin investors and their shareholders.

13 There is law, there are rules and they apply to all
14 of us and they apply to Martin Shkreli. He's no different
15 than anyone else. He is not special. The law doesn't see
16 him any differently than it sees you and it sees me and it
17 sees anyone else in this courtroom. The last four weeks have
18 exposed Martin Shkreli for who he really is. A con man who
19 stole millions of dollars. And now it's up to you, it's up
20 to you. It's time to tell the defendant that it's over.
21 It's done, no more. This isn't about winning. It's about
22 the truth. We are confident that you will return the only
23 verdict that is supported by the evidence in the case. And
24 that is a verdict of guilty on all charges.

25 Thank you.

Summation - Kasulis

5517

1 THE COURT: Members of the jury, the time has come
2 for me to give you instructions. My instructions will be
3 lengthy and I will ask you to please pay close attention.
4 It may take some time to get through all of the
5 instructions, so I do have two options for you. We can
6 provide that you have your lunch break now if lunch is
7 ready. I'm advised that the lunches will not be ready until
8 1:00, so let's start with the instructions and if you're
9 feeling that a break would be welcome and I think I'll feel
10 that way, too, because I will be talking for a very long
11 time, we will -- a break -- we will break for lunch and I
12 will continue the instructions at that time.

13 I do want to thank you on behalf of the Court and
14 all of the parties in this case for your close attention,
15 for your honoring your oath to pay attention to the evidence
16 in the case. And to keep an open mind as the case
17 progresses.

18 So let me start. We will be discussing your
19 general duties as jurors. We will also talk about the
20 charges that are at issue in each of the eight counts in the
21 indictment, and I will also give you general instructions
22 about your conduct as jurors during deliberations. You are
23 about to enter your final duty which is to decide the
24 factual issues at dispute in this case. Please do pay close
25 attention to me and I will go as slowly and be as clear as I

Summation - Kasulis

5518

1 possibly can. I told you at the very start of the trial
2 that your principal assumption during the trial would be to
3 listen carefully and observe each witness who testified. It
4 is an obvious to me and to the attorneys that you have all
5 faithfully discharged this duty, and I do thank you again
6 for your attention in that and your service. I realize that
7 your time in this courtroom has been at some sacrifice to
8 your personal lives and to your work lives.

9 Now that you have heard all of the evidence in the
10 case and the arguments of each side, it will be my duty to
11 instruct you on the applicable law. As I said, my
12 instructions will be in three parts. First I will give you
13 some general rules about your role and the way in which you
14 are to review the evidence in this case.

15 Second, I will instruct you as to the particular
16 crimes charged in this case and the elements that
17 the Government must prove with respect to each. Again,
18 beyond a reasonable doubt.

19 And third, I will give you some general rules
20 regarding your deliberations. Please do not single out any
21 one instruction that I give you as alone stating the law,
22 rather you should consider these instructions as a whole
23 when you retire to the jury room to deliberate on your
24 verdict.

25 First the general rules and the role of the Court.

Summation - Kasulis

5519

1 You have now heard the evidence in the case as well as the
2 final arguments for the Government and the defendant, Martin
3 Shkreli. My duty is to instruct you on the law and it is
4 your duty to accept these instructions of law and apply them
5 to the facts as you find them; that is, as you determine
6 them.

7 Just as it has been my duty to preside over the
8 trial and decide what testimony and evidence is relevant
9 under the law for your consideration. On these legal
10 matters you must take the law as I give it to you even if
11 any attorney or witness to you has stated a legal principal
12 different from any that I will give to you.

13 It is my instructions that you must follow. You
14 should not, any of you, be concerned about the wisdom of any
15 rule that I state. Regardless of any opinion that you may
16 have as to what the law is or may be, or ought to be, it
17 is -- it would violate your sworn duty to base a verdict
18 upon any other view of the law other than that which I give
19 you. Now, your role as jurors, as members of this jury, you
20 are the sole and exclusive judges of the facts. Your rule
21 is to pass upon the weight of the evidence, determine the
22 credibility of the witnesses, resolve such conflicts as
23 there may be in the testimony, and draw whatever reasonable
24 inferences you decide to draw from the facts as you
25 determine them.

Summation - Kasulis

5520

1 In determining the facts you may rely upon your
2 own recollection of the evidence. What the lawyers have
3 said in their opening statements, in their closing
4 arguments, in their objections or in their questions is not
5 evidence. In this connection you should bear in mind that a
6 question put to a witness is never evidence. It is only the
7 answer that is evidence.

8 Nor is anything that I may have said during the
9 trial or may say during these instructions with respect to a
10 fact matter to be taken as a substitute for you own
11 independent recollection.

12 What I say is not evidence.

13 The evidence before you consists of answers given
14 by witnesses, the testimony they gave as you recall it, and
15 the exhibits and stipulations that were received in
16 evidence.

17 The evidence does not include questions, again,
18 only the answers are evidence. But you may not consider any
19 answer that I directed you to disregard or that I directed
20 to be stricken from the record. Do not consider those
21 answers. Throughout the trial I have reminded you not to
22 conduct any outside research into this case. I've also
23 instructed you to consciously avoid any media about this
24 case or about Mr. Shkreli. Likewise, during deliberations
25 you may only consider the evidence admitted at this trial

Summation - Kasulis

5521

1 and may not utilize any other information obtained outside
2 the courtroom, including but not limited to research on the
3 Internet, opinions or statements of others outside the
4 courtroom, or any other sources.

5 You must completely disregard any report that you
6 may have read in the press, seen on television or heard on
7 the radio.

8 Indeed it would be unfair to consider such report,
9 since they are not evidence. And the parties have had no
10 opportunity to contradict their accuracy or otherwise
11 explain them away.

12 In short, it would be a violation of your oath as
13 jurors to allow yourself to be influenced in any manner by
14 such media.

15 Because you are the sole and exclusive judges of
16 the facts and do not need to indicate any opinion as to the
17 facts or what your verdict should be. The rulings that I
18 have made during the trial are not any indication of my
19 views of what your decision should be as to whether or not
20 the guilt of Mr. Shkreli has been proved beyond a reasonable
21 doubt. I also ask you to draw no inference from the fact
22 that upon occasion I have asked questions of certain
23 witnesses.

24 These questions were only intended for
25 clarification or to expedite matters and certainly were not

Summation - Kasulis

5522

1 intended to suggest any opinion on my part as to the verdict
2 you should render or whether any of the witnesses may have
3 been more credible than any other witness.

4 You are expressly to understand that the Court has
5 no opinion as to the verdict you should render in this case.

6 As to the facts, ladies and gentlemen, you are the
7 exclusive judges. You are to consider the evidence with
8 impartiality. Your verdict must be based solely upon the
9 evidence developed during the trial or the lack of evidence
10 before you. In reaching your decision as to whether the
11 Government has sustained its burden of proof, it would be
12 improper for you to consider any personal feelings you may
13 have about the defendant's race, religion, national origin
14 sex or age.

15 It would be equally improper for you to allow any
16 feelings you might have about the nature of the crime
17 charged to interfere with your decision-making process. All
18 persons are entitled to the presumption of innocence and the
19 Government has the burden of proof, as I will discuss in a
20 moment.

21 The fact that this prosecution is brought in the
22 name of the United States of America entitles the Government
23 to no greater consideration than that afforded to any other
24 party to a litigation. By the same token, it was entitled
25 to no less consideration. All parties, whether the

Summation - Kasulis

5523

1 Government or individuals, are equal before the law. If
2 have a reasonable doubt as to the defendant's guilty, you
3 should not hesitate for any reason to find a verdict of
4 acquittal.

5 But on the other hand if you should find that the
6 Government has met its burden of proof of a defendant's
7 guilt beyond a reasonable doubt, you should not hesitate
8 because of sympathy or any other reason to render a verdict
9 of guilty.

10 Proof beyond a reasonable doubt must therefore be
11 proof of a convincing character that a reasonable person
12 would not hesitate to rely upon in making an important
13 decision.

14 Under your oath as jurors you are not to be swayed
15 by sympathy. You are to be guided solely by the evidence in
16 this case, and the crucial question that you must asked
17 yourselves as you sift through the evidence is, has
18 the Government proven the guilt of the defendant beyond a
19 reasonable doubt? It is for you alone to decide whether the
20 Government has proven that Mr. Shkreli is guilty of the
21 crimes charged solely on the basis of the evidence and
22 subject to the law as I charge you.

23 If you follow your oath and try the issues without
24 fear or prejudice or bias or sympathy, you will arrive at a
25 true and just verdict.

1 I would like to talk about the conduct of counsel
2 that you may have observed during the trial. It is the duty
3 of the attorneys on each side of the case to object when the
4 other side offers testimony or renders evidence which the
5 attorneys may believe is not properly admissible.

6 Counsel also have a right and a duty to ask the
7 Court to make rulings of law and to request conferences at
8 the sidebar out of the hearing of the jury. All of those
9 questions of law must be decided by me, the Court. You
10 should not show any prejudice against an attorney or his or
11 her client because the attorney objected to the
12 admissibility of evidence or asked for a conference out of
13 the hearing of the jury, or asked me to rule on an issue of
14 law.

15 During the course of the trial I may have
16 admonished an attorney. You should draw no inference
17 against the attorney or the client. It is the duty of the
18 attorney to offer evidence and press objections on behalf of
19 their clients. It is my function to cut off counsel from an
20 improper line of argument or questioning or to strike
21 answers that I think when necessary. But you should draw no
22 inference from that. In fact, in this case, I would like to
23 express my deep gratitude to each of the attorneys in this
24 case for their conscientious effort on behalf of their
25 clients and for the hard work that they did so well.

Summation - Kasulis

5525

1 A word about the presumption of innocence and the
2 burden of proof. The defendant, Martin Shkreli, is before
3 you today because he has been charged in a superseding
4 indictment with violations of federal law. The superseding
5 indictment is merely a statement of the charges and is not
6 itself evidence. Mr. Shkreli has pleaded not guilty to the
7 superseding indictment. He is therefore presumed to be
8 innocent of the charges against him and that presumption
9 alone unless overcome is sufficient to acquit him.

10 To convict Mr. Shkreli, the burden is on
11 the Government to prove each and every element of the
12 charged offenses beyond a reasonable doubt. The burden
13 never shifts to a defendant for the simple reason that the
14 law presumes the defendant to be innocent. A defendant is
15 never required to prove that he is innocent and never
16 imposes upon a defendant in a criminal case the burden or
17 duty of calling any witness or producing any evidence.
18 Every defendant starts with the a clean slate and is
19 presumed innocent of each of the charges until such time, if
20 ever, that you as a jury are satisfied the Government has
21 proven the defendant guilty of a charge beyond a reasonable
22 doubt. If the Government fails to prove every element of a
23 charge beyond a reasonable doubt, you must find Mr. Shkreli
24 not guilty as to that charge.

25 What is reasonable doubt? It is a doubt based

Summation - Kasulis

5526

1 upon reason. It is a doubt that a reasonable person has
2 after carefully weighing all of the evidence. It is a doubt
3 that would cause a reasonable person to hesitate to act in a
4 matter of importance in his or her personal life. Proof
5 beyond a reasonable doubt must therefore be proof of a
6 convincing character that a reasonable person would not
7 hesitate to rely upon in making an important decision. A
8 reasonable doubt is not a caprice or the whim. It is not a
9 speculation or a suspicion. It is not an excuse to avoid
10 the performance of an unpleasant duty.

11 The law does not require that the Government prove
12 guilt beyond all possible doubt. Prove beyond a reasonable
13 doubt is sufficient to convict. If after fair and impartial
14 consideration of all of the evidence, or lack of evidence,
15 concerning a particular charge against Mr. Shkreli you have
16 a reasonable doubt, you must find Mr. Shkreli not guilty of
17 that charge.

18 On the other hand if after fair and impartial
19 consideration of all of the evidence you are satisfied of
20 Mr. Shkreli's guilt beyond a reasonable doubt, you should
21 find Mr. Shkreli guilty of that charge.

22 I will now instruct you about the different forms
23 of evidence and how you should consider it. The evidence in
24 the case comes in several forms. First, sworn testimony of
25 witnesses both under direct and cross-examination is

1 evidence.

2 Second, exhibits that have been received by the
3 Court in evidence.

4 Third, certain exhibits admitted in evidence in
5 the form of charts, summaries, or demonstratives. You
6 should consider these charts and summaries as you would
7 other evidence.

8 And, fourth, stipulations of facts which all the
9 attorneys have agreed. A stipulation means simply that the
10 Government and the defendant have accepted the truth of a
11 particular composition or fact. Here the attorneys for the
12 United States and the attorneys for Mr. Shkreli have entered
13 into stipulations concerning certain facts and documents
14 that are relevant to this case. You should accept these
15 stipulations as evidence and regard those facts as true to
16 be given whatever weight you choose. If evidence was
17 received for a limited the purpose you must consider that
18 evidence only for that limited purpose.

19 (Continued on next page.)
20
21
22
23
24
25

1 THE COURT: A word about what is not evidence.

2 Certain things are not evidence and are to be
3 disregarded by you in deciding this case and determining the
4 facts.

5 First, the superseding indictment is not evidence
6 and is not entitled to weight in your evaluation of the facts.

7 Second, arguments or statements by the attorneys are
8 not evidence. That includes the opening statements and the
9 closing arguments.

10 A lawyer's questions of A witness in and of
11 themselves are not evidence. Only the answer constitutes the
12 evidence.

13 Objections to the questions or to offered exhibits
14 are not evidence. Attorneys have A duty to object when they
15 believe evidence should not be received. You should not be
16 influenced by the objections or by my rulings on them. If the
17 objection was sustained, ignore the question. If the
18 objection was overruled, treat the answer to that question
19 like any other.

20 Fifth, any testimony stricken by the court is not
21 evidence.

22 Sixth, any evidence identified but not admitted into
23 evidence by the court are not evidence. However, testimony
24 regarding such exhibits can be considered.

25 Seventh, anything that you may have seen or heard

1 outside the courtroom is not evidence.

2 Eighth, notes that you may have been taking during
3 the course of the trial are not evidence.

4 Your verdict must be based exclusively upon the
5 evidence or the lack of evidence in this case.

6 Now, A word about direct and circumstantial
7 evidence, both of which you may consider. I told you that the
8 evidence has A very sworn -- such as the sworn testimony of
9 witnesses, exhibits, charts, summaries, and stipulations.
10 There are in addition different types of evidence, direct and
11 circumstantial.

12 Direct evidence is evidence that proves A fact
13 directly. For example, when A witness testifies as to what he
14 or she saw, heard, or observed, that's called direct evidence.
15 On the other hand, circumstantial evidence is evidence that
16 tends to prove A disputed fact by proof of other facts.

17 To give A simple example, suppose that when you came
18 into the courthouse today, the sun was shining and it was A
19 nice day. But the courtroom blinds, as you can see, were
20 drawn and you cannot look outside. Later as you were sitting
21 here, someone walked in with A dripping wet umbrella, and soon
22 after somebody else walked into the courtroom with A dripping
23 wet raincoat. In case you cannot look outside of the
24 courtroom and cannot see whether or not it is raining, you
25 have no direct evidence that it is raining. But on the

1 combination of the facts about the dripping wet umbrella and
2 raincoat, it would be reasonable for you to infer that it had
3 begun to rain, and that is all there is to circumstantial
4 evidence.

5 Using your reason and experience, you would infer
6 from the established facts the existence or the nonexistence
7 of some other fact, whether A given inference should be drawn
8 is entirely A matter for you the jury to decide. Please note,
9 however, that drawing an inference is not A matter of
10 speculation or guess, it is A matter of logical inference.

11 The law makes no distinction between direct and
12 circumstantial evidence. Circumstantial evidence is of no
13 less value than direct evidence, and you may consider either
14 or both. You may give them such weight as you conclude is
15 warranted.

16 Now, let's talk about inferences. The attorneys
17 have asked you to infer, on the basis of your reason,
18 experience, and common sense, from one or more established
19 facts, the existence of some other fact. An inference is not
20 A suspicion or A guess, it is A reasoned logical decision to
21 conclude that A disputed fact exists on the basis of another
22 fact that you know exists.

23 There Are times when different inferences may be
24 drawn from the facts, whether proved by direct or
25 circumstantial evidence. The government may ask to you draw

Proceedings

5531

1 one set of inferences, while the defense may ask you to draw
2 another. It is for you and you alone to decide what
3 inferences you will draw.

4 The process of drawing inferences from fact in
5 evidence is not A matter of guess work or speculation. An
6 inference is the deduction or conclusion that you the jury are
7 permitted to draw but are not required to draw from the facts
8 that have been established by either direct or circumstantial
9 evidence. In drawing inferences, you should exercise your
10 common sense.

11 So while you are considering the evidence presented
12 to you, you are permitted, but are not required, to draw from
13 the facts that you find to be proven such reasonable
14 inferences as would be justified in light of your experience.
15 Here again, let me remind you that whether based on direct or
16 circumstantial evidence, or on the logical reasonable
17 inferences drawn from such evidence you must be satisfied of
18 the guilt of Mr. Shkreli beyond A reasonable doubt before you
19 may convict him.

20 I'd also like to talk about admissions of the
21 defendant. There has been evidence that Mr. Shkreli made
22 certain statements to this Securities and Exchange Commission,
23 also referred to as the SEC, in which the government claims he
24 admitted certain facts charged in the superseding indictment.
25 I will instruct you that are you to give those statements such

1 weight as you feel they deserve in light of all the evidence.

2 Now, during court the concept is the defendant's
3 right not to testify. Mr. Shkreli did not testify in this
4 case. Under our United States Constitution, the defendant has
5 no obligation to testify or to present any evidence, because
6 it is the government's burden to prove the defendant guilty
7 beyond a reasonable doubt. That burden remains with the
8 government throughout the entire trial and never shifts to the
9 defendant. A defendant is never required to prove that he's
10 innocent because his innocence is presumed.

11 Therefore, you must not attach any significance to
12 the fact that Mr. Shkreli did not testify in this case. You
13 must not draw any adverse inference against him because he did
14 not take the witness stand, and you may not consider or even
15 discuss the fact that he did not testify during your
16 deliberations in the jury room.

17 Next A word about credibility of the witnesses. You
18 the jury are the sole judges of the credibility or the
19 believability of the witnesses and the weight the testimony
20 deserves. You should carefully scrutinize all of the
21 testimony given, the circumstances under which each witness
22 testified, and any other matter in evidence that may help you
23 to decide the truth and the importance of each witness'
24 testimony. Your decisions in this respect may depend on how
25 each witness impressed you, was the witness candid and

Proceedings

5533

1 forthright, or did the witness seem to be hiding something,
2 being evasive or suspect in some way? How did the witness'
3 testimony on direct examination compare with the witness'
4 testimony on cross-examination? Was the witness consistent in
5 the testimony given, or were there contradictions? Did the
6 witness appear to know what he or she was talking about, and
7 did the witness strike you as someone who is trying to report
8 that knowledge accurately? These are examples of the kinds of
9 common sense questions you should ask yourselves in deciding
10 whether A witness is or is not truthful.

11 You should also consider whether A witness had an
12 opportunity to observe the facts he or she testified about.
13 Also, you should consider the witness' recollection of the
14 facts and what they stand up in light of the other evidence in
15 the case.

16 How much you chose to believe A witness may also be
17 influenced by the witness' bias. Did the witness have A
18 relationship with the government or with Mr. Shkreli that
19 would affect how he or she testified? Does the witness have
20 some incentive, loyalty, or motive that might cause him or her
21 to shade the truth? Does the witness have some bias,
22 prejudice, or hostility that would cause the witness to give
23 you something other than A completely accurate account to the
24 facts that he or she testified to?

25 Evidence by a witness is biased, prejudiced, or

1 hostile toward Mr. Shkreli requires you to view that witness'
2 testimony with caution, to weigh it with care, and to subject
3 it to close and searches scrutiny. You should also take into
4 account any evidence that the witness who testified may
5 benefit in some way from the outcome of the case. Such an
6 interest in the outcome creates A motive to testify falsely
7 and may sway the witness to testify in A way that advances his
8 or her own interest. Therefore, if you find that any witness
9 whose testimony you are considering may have an interest in
10 the outcome of this trial, then you should bear that factor in
11 mind when evaluating the credibility of his or her testimony
12 and inspect it with the great care.

13 This is not to suggest that every witness who has an
14 interest in the outcome of the case will testify falsely. It
15 is for you to decide to what extent, if any, or if at all, the
16 witness' interest has affected or colored his or her
17 testimony.

18 You also heard evidence of discrepancies in the
19 testimony of certain witnesses, and counsel have argued that
20 such discrepancies are A reason for you to reject the
21 testimony of those witnesses. Evidence of discrepancy may be
22 A basis to disbelieve A witness' testimony. On the other
23 hand, discrepancies in A witness' testimony or between his or
24 her testimony and that of others do not necessarily mean that
25 the witness' entire testimony should be discredited. People

Proceedings

5535

1 sometimes forget things, and even A truthful witness may be
2 nervous and contradict himself or herself. It is also A fact
3 that two people observing or witnessing the same event may see
4 or hear it differently. Whether the discrepancy pertains to A
5 fact of importance or only A trivial detail should also be
6 considered in weighing the significance.

7 A wilful falsehood always is A matter of importance
8 and should be considered seriously. If any witness was shown
9 to have willfully lied about any material matter, you have the
10 right to conclude that the witness also lied about other
11 matters. You may also -- you may disregard all the witness'
12 testimony or you may accept whatever part of it you think
13 deserves to be believed. It is not -- it is for you to
14 decide, based on your total impression of A witness, how much
15 to weigh his or her testimony. You should, as always, use
16 common sense and your own good judgment.

17 You do not have to accept the testimony of any
18 witness who has not been contradicted or impeached, if you
19 find that the witness is not credible. You also have to
20 decide which witnesses to believe and which facts are true.
21 To do this you must look at all the evidence, drawing upon
22 your own common sense and personal experience. As you know,
23 the government called all the witnesses in this case, and
24 there were many witnesses who testified. Mr. Shkreli has
25 chosen not to call any witnesses and you should keep in mind

Proceedings

5536

1 that the burden of proof is always on the government, and that
2 the defendant is not required to call any witnesses or to
3 offer any evidence, because he is presumed to be innocent.

4 A word about government employees or law enforcement
5 witnesses. In this case, you heard testimony from A witness
6 who works for the FBI, a law enforcement agency. The
7 testimony of this witness should be evaluated in the same
8 manner as the testimony of any other witness. The fact that A
9 witness may be employed by the government does not mean that
10 you may accord his or her testimony any more or less weight
11 than that of any other witness. At the same time, it is
12 common for defense counsel to try to question the credibility
13 of A witness employed by the government, including A witness
14 who works for law enforcement, on the ground that his or her
15 testimony may be colored by A personal or professional
16 interest in the outcome of the case. It is for you to decide,
17 after weighing all of the evidence in light of the
18 instructions I have given you about factors relevant to
19 determining the credibility of any witness, whether you accept
20 the testimony of A government employee witness and what
21 weight, if any, it deserves.

22 You may have also heard evidence that A witness made
23 A statement on an earlier occasion which counsel argues is
24 inconsistent with a witness' trial testimony. Evidence of
25 what is arguably A prior inconsistent statement was placed

Proceedings

5537

1 before you for the limited purpose of helping you decide
2 whether to believe the trial testimony of the witness who
3 contradicted himself or herself. If you find that the witness
4 has made an earlier statement that conflicts with his her or
5 her trial testimony, you may consider that fact in deciding
6 how much of his or her trial testimony, if any, to believe.

7 In making this determination you may consider
8 whether the witness purposely made a false statement or
9 whether it was an innocent mistake; whether the inconsistency
10 concerns an important fact or whether it had to do with A
11 small detail; whether the witness had an explanation for the
12 inconsistency and whether that explanation appealed to your
13 common sense.

14 It is exclusively your duty, based on all the
15 evidence and your own good judgment, to determine whether the
16 prior statement was inconsistent, and if so, how much weight,
17 if any, to give to the inconsistent statement in determining
18 whether to believe all or part or none of the witness' trial
19 testimony.

20 And during the course of the trial, you heard
21 testimony that the attorneys for the parties may have
22 interviewed witnesses when preparing for and during the trial.
23 Attorneys have an obligation to prepare their case as
24 thoroughly as possible, and in the discharge of that
25 responsibility, they may properly interview witnesses in

Proceedings

5538

1 preparing for A trial and from time to time as may be required
2 during the course of the trial.

3 Next, an instruction on the duty that there's no
4 duty to call witnesses or produce evidence or use particular
5 investigative techniques.

6 Although the government bears the burden the proof,
7 and although a reasonable doubt can arise from lack of
8 evidence, you are instructed that there is no legal
9 requirement that the government use any specific investigative
10 technique or pursue every investigative lead to prove its
11 case. Therefore, although you are to carefully consider the
12 evidence produced by the government, you are not to speculate
13 as to why they used the techniques they did or why they did
14 not use other techniques.

15 In this regard, I also charge you that all persons
16 who may have been present at any time or place mentioned in
17 the case or who may appear to have some knowledge of the
18 issues in this case need not be called as witnesses. Both the
19 government and the defense have the same right to subpoena
20 witnesses to testify on their behalf. There is no duty on
21 either side, however, to call A witness whose testimony would
22 be merely cumulative of testimony already in evidence, or who
23 would merely provide additional testimony to facts already in
24 evidence, nor does the law require that all things mentioned
25 during the course of the trial be produced as exhibits. I

1 remind you, however, that because the law presumes the
2 defendant to be innocent, the burden of proving the
3 defendant's guilt beyond a reasonable doubt is on the
4 government throughout the trial, the defendant never has the
5 burden of proving his innocence or producing any evidence or
6 calling any witnesses at all.

7 You have heard testimony of A witness who has been
8 promised by the government that in exchange for testifying
9 truthfully, completely, and fully, he will not be prosecuted
10 for any crimes that he may have admitted, either here in court
11 or in interviews with the prosecutors. This promise was not A
12 formal order of immunity by the court, but was instead
13 arranged directly between A witness and the government. The
14 government is permitted to make these kinds of promises and is
15 entitled to call as witnesses people to whom these promises
16 were given.

17 You are instructed that you may convict the
18 defendant on the basis of such A witness' testimony alone, if
19 you find that this testimony proves the defendant guilty
20 beyond a reasonable doubt. However, the testimony of A
21 witness who has been promised that he will not be prosecuted
22 should be examined by you with greater care than the testimony
23 of an ordinary witness. You should scrutinize it closely to
24 determine whether or not it is colored in such A way as to
25 place guilt upon the defendant in order to further the

Proceedings

5540

1 witness' own interest. For such A witness confronted with the
2 realization that he can win his own freedom from prosecution
3 by helping to convict another have the motive to falsify his
4 testimony. Such testimony should be received by you with
5 suspicion and you may give it such weight, if any, as you
6 believe it deserves.

7 Now, you have heard evidence about the involvement
8 of certain other people in the crimes charged in the
9 superseding indictment. You may not draw any inference,
10 favorable or unfavorable, towards the government or
11 Mr. Shkreli from the fact that certain persons are not on
12 trial before you or that certain persons were not named as
13 defendants in the superseding indictment or that certain
14 persons remain as coconspirators but not included.

15 MR. BRAFMAN: Objection.

16 THE COURT: I'm sorry, I did misread that. Let me
17 start over.

18 You may not draw any inference, favorable or
19 unfavorable, towards the government or Mr. Shkreli from the
20 fact that certain persons are not on trial before you or that
21 certain persons were not named as defendants in the
22 superseding indictment or that certain persons were not named
23 as coconspirators but not indicted. It is not your concern
24 that these other individuals are not on trial before you, nor
25 should be speculate as to whether or not they were indicted.

Proceedings

5541

1 You should neither speculate as to the reason --

2 THE JURY: Judge, we need A break.

3 THE COURT: All right.

4 Oh, perfect. I'm going to start with this
5 instruction, just to refresh you. At this time I will give
6 you lunch break, and lunch is waiting for you in the jury
7 room.

8 Do not discuss the case yet. Thank you very much.

9 We're going to ask you to return in one hour, so
10 1:30, 1:35.

11 (Jury exits the courtroom.)

12 THE COURT: Just for the record, I just want to
13 state that we have marked as Court Exhibit Number 5 and 5A,
14 the instructions, which incorporate the agreed-upon language
15 regarding both the affiliate that we talked about last
16 evening, and also the instruction about the conflicts of the
17 conviction, and I would like to state here on the record
18 whether Court Exhibit 5 and 5A are acceptable to the
19 government and the defendant?

20 MS. KASULIS: Yes, Your Honor, it's acceptable to
21 the government.

22 MR. BRAFMAN: Yes, Your Honor.

23 MR. AGNIFILO: I have A.

24 THE COURT: 5A is the verdict sheet.

25 MR. AGNIFILO: Yes, it's fine, yes, we're good.

Proceedings

5542

1 THE COURT: Thank you. Have good lunch.

2 MS. KASULIS: Thank you, Your Honor.

3 (Government Exhibit Number 5, was received in
4 evidence.)

5 (Government Exhibit Number 5A, was received in
6 evidence.)

Proceedings

5543

1 A F T E R N O O N S E S S I O N

2 (Time noted: 1:45 p.m.)

3 (In open court; Jury present.)

4 (Jury enters the courtroom.)

5 THE COURT: All the jurors are present. Please have
6 a seat.

7 I think I did not finish fully instructing you
8 regarding the instruction that you consider only the defendant
9 before you, so I am going to start over and just complete the
10 instruction.

11 You have heard evidence about the involvement of
12 certain other people in the crimes charged in the superseding
13 indictment. You may not draw any inference, favorable or
14 unfavorable, for government or Mr. Shkreli from the fact that
15 certain persons are not on trial before you, or that certain
16 persons were not named as defendants in the superseding
17 indictment, or that certain persons in not named as
18 coconspirators but not indicted. It is not your concern that
19 these other individuals are not on trial before you, nor
20 should speculate as to whether or not they were indicted. You
21 should neither speculate as to the reason these other people
22 were not on trial before you, nor allow their absence as
23 parties to influence you in any way the deliberations that you
24 will be undertaking. Nor should you draw any inference from
25 the fact that any other person is not present at this trial or

Proceedings

5544

1 may not be indicted. Your concern is solely the defendant on
2 trial before you, Mr. Shkreli.

3 Your verdict should be based only on the evidence or
4 lack of evidence as to this defendant in accordance with my
5 instructions and without regard to whether the guilt of other
6 people have or have not been proven.

7 You may notice, as I read the charges, that the
8 superseding indictment charges that the offenses at issue took
9 place in or about and between certain dates. The proof need
10 not establish with any certainty the exact date of the alleged
11 offenses. The law only requires a substantial similarity
12 between the dates alleged in the superseding indictment and
13 the date established by the evidence.

14 I will now turn to the charges, the second part of
15 my instructions.

16 In this part I will instruct you as to the specific
17 elements of the crimes charged that the government must prove
18 beyond a reasonable doubt to warrant a finding of guilt in
19 this case.

20 I will first summarize the charges alleged in the
21 superseding indictment and ask you to consider only the
22 charges in the indictment and also to consider each count
23 separately.

24 As I mentioned previously, the superseding
25 indictment is merely a statement of the charges and is not

1 evidence. Mr. Shkreli is not charged with committing any
2 crime, other than the offenses contained in the superseding
3 indictment. You have heard evidence of other acts allegedly
4 committed by Mr. Shkreli. When such evidence was introduced,
5 I instruct you that Mr. Shkreli was not charged with such acts
6 in the superseding indictment, so please note that.

7 The superseding indictment contains a total of eight
8 counts. Each count charges Mr. Shkreli with a different
9 crime. The charges in Counts One through Three are related to
10 an entity known as MSMB Capital.

11 In Count One, Mr. Shkreli is charged with conspiracy
12 to commit securities fraud. In Count Two, he is charged with
13 conspiracy to commit wire fraud. And in Count Three, he is
14 charged with a substantive count of securities fraud in
15 relation to MSMB Capital.

16 The charges in Counts Four through Six are related
17 to an entity know as MSMB Healthcare. In Count Four,
18 Mr. Shkreli is charged with conspiracy to commit securities
19 fraud. In Count Five he is charged with conspiracy to commit
20 wire fraud. And in Count Six, he is charged with a
21 substantive count of securities fraud in relation to MSMB
22 Healthcare.

23 In Count Seven, Mr. Shkreli is charged with
24 conspiracy to commit wire fraud. And in Count Eight, he is
25 charged with conspiracy to commit securities fraud both in

Proceedings

5546

1 relation to an entity known as Retrophin.

2 You must consider each count of the superseding
3 indictment separately, and you must return a separate verdict
4 on the defendant for each count in which he is charged.
5 Whether you find Mr. Shkreli guilty or not guilty as to one
6 offense should not affect your verdict as to any other offense
7 charged.

8 During these instructions you will hear me the terms
9 "knowingly," "willfully," and "intentionally." Therefore, I
10 will define those terms for you.

11 Knowingly. To act knowingly means to act
12 intentionally and voluntarily and not because of ignorance,
13 mistake, accident, negligence, or carelessness. Whether
14 Mr. Shkreli acted knowingly may be proven by his conduct and
15 by all of the facts and circumstances surrounding the case.

16 Willfully. Certain allegations in the superseding
17 indictment require that the government prove beyond a
18 reasonable doubt that Mr. Shkreli acted willfully. Willfully
19 means to act with knowledge that one's conduct is unlawful,
20 and with an intent to do something that the law forbids; that
21 is to say, with a bad purpose either to disobey or disregard
22 the law. A defendant's conduct is not willful if it was due
23 to negligence, inadvertence, or mistake.

24 Intentionally. A person acts intentionally when he
25 acts deliberately and purposefully. That is the defendant's

1 act must have been the product of his conscious objective
2 decision, rather than a product of mistake or accident.

3 Whether a person acted knowingly, willfully, or
4 intentionally is a question of fact for you to determine like
5 any other fact question. Direct proof of knowledge and
6 fraudulent intent is almost never available. It would be a
7 rare case where it could be shown that a person wrote or
8 stated that as of a given time in the past he committed an act
9 with fraudulent intent. Such direct proof is not required.
10 The ultimate facts of knowledge and criminal intent, though
11 subjective, may be established by circumstantial evidence
12 based upon a person's outward manifestations, his words, his
13 conduct, his acts, and all surrounding circumstances disclosed
14 by the evidence and the rational or logical inferences that
15 may be drawn therefrom. In either case, the essential element
16 of the crime charged must be established beyond a reasonable
17 doubt.

18 So let's first talk about Counts Three and Six which
19 charge securities fraud. The defendant, Martin Shkreli, is
20 formally charged in the superseding indictment, and I will
21 begin with the substantive securities fraud charges.

22 Counts Three and Six of the superseding indictment
23 charge Mr. Shkreli with securities fraud.

24 Count Three of the superseding indictment charges
25 Mr. Shkreli with securities fraud in relation to MSMB Capital

1 as follows:

2 In or about and between September 2009 and
3 September 2014, both dates being approximate and inclusive,
4 within the Eastern District of New York and elsewhere, the
5 defendant, Martin Shkreli, together with others, did knowingly
6 and willfully use and employee one or more manipulative and
7 deceptive devices and contrivances contrary to Rule 10b-5 of
8 the Rules and Regulations of the United States Securities and
9 Exchange Commission, Title 17, Code of Federal Regulations
10 Section 240.10b-5 by: A, employing one or more devices,
11 schemes, or artifices to defraud; B, making one or more untrue
12 statements of material fact and omitting to state one or more
13 material facts necessary in order to make the statements made,
14 in light of the circumstances in which they were made, not
15 misleading; and C, engaging in one or more acts, practices,
16 and courses of business which would and did operate as a fraud
17 and deceit upon one or more investors or potential investors
18 in MSMB Capital in connection the purchase and sale of
19 investments in MSMB Capital, directly and indirectly, by use
20 of means and instrumentalities of interstate commerce and the
21 mails.

22 Count Six of the superseding indictment charges
23 Mr. Shkreli with committing securities fraud in relation to
24 MSMB Healthcare as follows:

25 In or about and between September 2011 and

1 September 2014, both dates being approximate and inclusive,
2 within the Eastern District of New York and elsewhere, the
3 defendant, Martin Shkreli, together with others, did knowingly
4 and willfully use and employ one or more manipulative and
5 deceptive devices and contrivances contrary to Rule 10b-5 of
6 the rules and regulations of the United States Securities and
7 Exchange Commission, Title 17, Code of Federal Regulations,
8 Section 240.10b-5 by: A, employing one or more devices,
9 scheme, and artifices to defraud; B, making one or more untrue
10 statements of material facts and omitting to state one or more
11 material facts necessary in order to make the statement made
12 in light of the circumstances in which they were made, not
13 misleading; and C, engaging in one or more acts, practices,
14 and courses of business which would and did operate as a fraud
15 and deceit upon one or more investors or potential investors
16 in MSMB Healthcare in connection with the purchase and sale of
17 investments in MSMB Healthcare, directly and indirectly, by
18 use of means and instrumentalities of interstate commerce and
19 the mails.

20 I'm going to now discuss the statute and rules that
21 govern these counts. The relevant statute is Section 10(b) of
22 the Securities Exchange Act of 1934. That law provides in
23 relevant part that:

24 "It shall be unlawful for any person, directly or
25 indirectly, by use of any means or instrumentality of

1 interstate commerce, or of the mails, or any facility of any
2 nation securities exchange; B, to use or employ, in connection
3 with the purchase or sale of any security registered on a
4 national security exchange, or any security not so registered,
5 any manipulative or deceptive device or contrivance in
6 contravention of such rules and regulations as the Securities
7 and Exchange Commission, or SEC, may prescribe as necessary or
8 appropriate in a public interest or for the protection of
9 investors.

10 Based on its authority under that statute, the SEC
11 enacted Rule 10(b)-5 which provides: It shall be unlawful or
12 any person, directly or indirectly, by use of any means or
13 instrumentality of interstate commerce, or of the mails, or of
14 any facility or any national securities exchange: A, to
15 employ any device, scheme, or artifice to defraud; B, to
16 make any untrue statement of a material fact, or to omit to
17 state a material fact necessary in order to make the
18 statements made in the light of the circumstances under which
19 they were made, not misleading; or C, to engage in any act,
20 practice, or course of business which operates or would
21 operate as a fraud or deceit upon any person in connection
22 with the purchase or sale of any security.

23 Let me know try to define these elements for you.
24 In order to meets its burden of proof as to Counts Three and
25 Six, the government must establish beyond a reasonable doubt

1 the following elements of the crime of securities fraud.

2 The first element: Fraudulent act.

3 The first element that the government must prove
4 beyond a reasonable doubt is that in connection with the
5 purchase or sale of a security, MSMB Capital for Count Three,
6 and MSMB Healthcare for Count Six, Mr. Shkreli did one or more
7 of the following:

8 One, employ a device, scheme, or artifices to
9 defraud or; two, made an untrue statement of a material fact,
10 or omitted to state a material fact necessary in order to make
11 the statements made in the light of the circumstances under
12 which they were made, not misleading; or three, engage in an
13 act, practice, or course of business that operated or would
14 operate as a fraud or deceit upon a purchaser or seller of any
15 security.

16 To prove this element, it is not necessary for the
17 government to establish all three types of unlawful conduct in
18 connection with the sale or purchase of investment in MSMB
19 Capital for Count Three, or MSMB Healthcare for Count Six.
20 Any one will be sufficient for a conviction if you so find,
21 but you must all be unanimous as to which type of unlawful
22 conduct you find to have been proven beyond a reasonable
23 doubt.

24 Let me now explain some of the terms that are used
25 in the law: Device, scheme, or artifice to defraud.

1 A device, scheme, or artifice to defraud is a plan
2 for the accomplishment of a fraud. Fraud is a general term
3 which embraces all efforts and means that individuals devise
4 to take advantage of others. The law that the defendant is
5 the alleged to have violated prohibits all kinds of
6 manipulative and deceptive acts. The fraudulent or deceitful
7 conduct alleged need not relate to the investment value of the
8 securities involved in this case.

9 False statement and omissions. A statement,
10 representation, claim, or document is false if it is untrue
11 when made and was then known to be untrue by the person making
12 it or causing it to be made. A representation or statement is
13 fraudulent if it was made with the intention to deceive.
14 False or fraudulent statements under the statute may include
15 the concealment of material facts in a manner that makes what
16 is said or represented deliberately misleading.

17 The deception need not be based upon spoken or
18 written words alone. The arrangement of the words, or the
19 circumstances under which they are used, may convey the false
20 and deceptive appearance. If there is deception, the manner
21 in which it is accomplished, does not matter.

22 Next, the words "in connection with." You need not
23 find that Mr. Shkreli actually participated in any securities
24 transaction if he was engaged in fraudulent conduct that was
25 "in connection with" a purchase or sale of securities. The

1 "in connection with" aspect of this element is satisfied if
2 you find that there was some nexus or relation between the
3 allegedly fraudulent conduct and the sale or purchase of
4 securities. Fraudulent conduct may be in connection with the
5 purchase or sale of securities if you find that the alleged
6 fraudulent conduct touched upon a security transaction.

7 It is no defense to an overall scheme to defraud
8 that the defendant may not have been involved in the scheme
9 from its inception or beginning, or may have played only a
10 minor role with no contact with the investors and purchasers
11 of the securities in question. Nor is it necessary for you to
12 find that the defendant was the actual seller or offerer of
13 the securities. It is sufficient if the defendant
14 participated in the scheme of fraudulent conduct that involved
15 the purchase or sale of securities. By the same token, the
16 government need not prove that the defendant personally made
17 the misrepresentation or that he omitted the material fact.
18 It is sufficient if the government establishes that the
19 defendant caused the statement to be made or the fact to be
20 omitted. With regard to the alleged misrepresentation and
21 omissions, you must determine whether the statement was true
22 or false when it was made, and in the case of the alleged
23 omission, whether the omission was misleading.

24 What is a material fact. If you find that the
25 government has established beyond a reasonable doubt that the

1 a statement was false or omitted in connection with a purchase
2 or sale of any securities, you must next determine whether the
3 fact misstated or omitted was material under the
4 circumstances. A misrepresentation is material under 10(b) of
5 the Securities Exchange Act, and under Rule 10b-5 where
6 there's a substantial likelihood that a reasonable investor
7 would find a misrepresentation important in making an
8 investment decision. If you find that there was a material
9 misrepresentation or omission of a material fact, it does not
10 matter whether the intended victims were gullible buyers or
11 sophisticated investors, because the securities laws protect
12 the gullible and unsophisticated as well as the experienced
13 investor.

14 Nor does it matter whether the alleged unlawful
15 conduct was successful or not, or that the defendant profited
16 or received any benefits as a result of the alleged scheme.
17 Success is not an element of the crime charged. However, if
18 you find that the defendant did profit from the alleged
19 scheme, you may consider that in relation to the element of
20 intent, which I will discuss in a moment.

21 If you find that the government has not proven this
22 element beyond a reasonable doubt, you must find Mr. Shkreli
23 not guilty. On the other hand, if you do find that the
24 government has proven that a fraudulent act was committed by
25 Mr. Shkreli beyond a reasonable doubt, then you must consider

1 the second element. You need not find that the government has
2 proven each of the alleged fraudulent acts, but I remind you
3 that you must reach a unanimous decision as to at least one
4 fraudulent act.

5 The second element is knowledge intent and
6 wilfulness. The second element that the government must
7 establish as to Count Three for MSMB Capital, and Count Six
8 for MSMB Healthcare, is that Mr. Shkreli acted knowingly,
9 willfully, and with intent to defraud.

10 As I explained before, a person acts knowingly if he
11 acts purposefully and voluntarily and not because of
12 ignorance, mistake, accident, negligence, or carelessness.

13 Willfully means to act knowingly and purposely with
14 an intent to do something the law forbids; that is to say,
15 with bad purpose either to disobey or disregard the law.
16 Intent to defraud in the context of the securities laws means
17 to act knowingly and with intent to deceive.

18 The question of whether a person acted knowingly,
19 willfully, and with intent to defraud is a question of fact
20 for you to determine like any other fact question. This
21 question involves one's state of mind.

22 Direct proof of knowledge and fraudulent intent is
23 almost never available. It would be a rare case where it
24 could be shown that a person wrote or stated that, as of a
25 given time in the past, he committed an act with fraudulent

1 intent. Such direct proof is not required.

2 The ultimate facts of knowledge and criminal intent
3 is subjective and may be established by circumstantial
4 evidence based upon a person's outward manifestations, his
5 words, his conducts, his acts, and all the surrounding
6 circumstances disclosed by the evidence and the rational or
7 logical inference that may be drawn therefrom.

8 I already have instructed you as to what
9 circumstantial evidence is and the inferences that may be
10 drawn from it. Those instructions will also apply here. What
11 is referred to as drawing inferences from circumstantial
12 evidence is no different from what people normally mean when
13 they say "use your common sense." Using your common sense
14 means that you're deciding whether Mr. Shkreli possessed or
15 lacked an intent to defraud, you do not limit yourself to what
16 Mr. Shkreli said, but rather you also look at what he did and
17 what others did he in relation to Mr. Shkreli and, in general,
18 everything that occurred.

19 Circumstantial evidence, if believed, is of no less
20 value than direct evidence. In either case, the essential
21 elements of the crime charged must be established by the
22 government beyond a reasonable doubt.

23 Under the antifraud statutes, even false
24 representations or omissions of material facts do not amount
25 to a fraud unless done with fraudulent intent. However

1 misleading or deceptive a plan may be, it is not fraudulent if
2 it was devised or carried out in good faith. An honest belief
3 in the truth of the representations made by a defendant is a
4 complete defense, however inaccurate the statements may turn
5 out to be.

6 In considering whether or not a defendant acted in
7 good faith, you are instructed that a belief by the defendant,
8 if such belief existed, that ultimately everything would work
9 out so that no investors would lose any money does not require
10 a finding by you that the defendant acted in good faith. No
11 amount of honest belief on the part of the defendant did the
12 scheme ultimately will make a profit for the investors will
13 excuse fraudulent actions or false representations by him.

14 As a practical matter, then, to prove the charge
15 against a defendant, the government must establish beyond a
16 reasonable doubt that the defendant knew that his conduct as a
17 participant in the scheme was calculated to deceive and,
18 nonetheless, he associated himself with the alleged fraudulent
19 scheme.

20 If you find that Mr. Shkreli did not knowingly and
21 with the intent to deceive -- I'm sorry. If you find that
22 Mr. Shkreli did not act knowingly and with the intent to
23 deceive, then you must find the defendant not guilty. On the
24 other hand, if you find that the government has established
25 beyond a reasonable doubt not only the first element but also

1 this second element; that is, that Mr. Shkreli acted knowingly
2 and with the intent to deceive, then you must consider the
3 third element. I remind you that you must reach a unanimous
4 decision in connection with each element.

5 The third element is instrumentality of interstate
6 commerce. The third and final element that the government
7 must prove beyond a reasonable doubt as to Count Three for
8 MSMB Capital, and Count Six for MSMB Healthcare, is that
9 Mr. Shkreli knowingly used, or caused to be used, the mails or
10 means or instrumentalities of transportation or communication
11 in interstate commerce in furtherance of the scheme to
12 defraud. This would include the use of a telephone, a bank
13 wire transfer, or an email sent over the internet that
14 traveled across state lines.

15 It is not necessary that a defendant be directly or
16 personally involved in any mailing, wire, or use of an
17 instrumentality of interstate commerce. If the defendant was
18 an active participant in the scheme and took steps or engaged
19 in conduct which he knew or reasonably could foresee would
20 naturally and probably result in the use of interstate means
21 of communication, then you must find that he caused the mails
22 or an instrumentality of interstate commerce to be used.

23 When one does an act with the knowledge that the use
24 of interstate means of communication will follow in the
25 ordinary course of business, or where such use reasonably can

1 be foreseen, even though not actually intended, then he causes
2 sum means to be used.

3 It is not necessary that the items sent through the
4 interstate means of communication contain a fraudulent
5 material or anything criminal or objectionable. The
6 interstate means of communication may be entirely innocent.

7 The use of interstate communications need not be
8 central to the execution of the scheme, and may even be
9 incidental to it. All that is required is that the use of the
10 interstate communications bear some relation to the object of
11 the scheme or fraudulent conduct. In fact, the actual offer
12 or sale need not be accomplished by the use of interstate
13 communications, so long as the defendant is still engaged in
14 the actions that are part of the fraudulent scheme when the
15 interstate communications are used.

16 Now, the government next has to prove securities
17 fraud banking. I have explained the elements the government
18 must prove beyond a reasonable doubt as to the securities
19 fraud charge in Counts Three and Six. The government must
20 also prove venue. And unlike the elements I just explained to
21 you, that the government must prove beyond a reasonable doubt,
22 the government must prove venue by what's called a
23 preponderance of the evidence. To establish a fact by the
24 preponderance of the evidence means to prove that the fact was
25 more likely true than not. A preponderance of the evidence

1 means the greater weight of the evidence, as if you're using a
2 scale. Both direct and circumstantial evidence may be
3 considered. It refers to the quality and persuasiveness of
4 the evidence, not merely to the quantity of the evidence.

5 To establish venue for securities fraud, as charged
6 in Counts Three and Six, the government must prove that it is
7 more likely than not that: One, the defendant intentionally
8 and knowingly caused an act or transaction constituting a
9 securities fraud to occur, at least in part, in the Eastern
10 District of New York, which consist of the county of Kings,
11 also known as Brooklyn; Queens, Richmond County, also known as
12 Staten Island; or Nassau, or Suffolk counties; or two, that it
13 was foreseeable that such an act or transaction would occur in
14 the Eastern District of New York, and that it did. The
15 government need not prove that the defendant personally was
16 present in the Eastern District of New York. It is sufficient
17 to satisfy the venue requirement that the defendant
18 intentionally and knowingly caused an act or transaction
19 constituting a securities fraud to occur, at least in part,
20 within the Eastern District of New York.

21 The government must also prove that the act or
22 transaction must be part of the actual crime of securities
23 fraud and not merely a step taken in preparation for the
24 commission of the crime.

25 Therefore, if you find that it is more likely than

1 not that an act or transaction in furtherance of the
2 securities fraud took place in the Eastern District of New
3 York, the government has satisfied its burden of proof as to
4 venue as to Count Three.

5 Again, I caution you that the preponderance of the
6 evidence standard applies only to venue. The government must
7 prove each of the elements of securities fraud in Counts Three
8 and Six beyond a reasonable doubt.

9 In sum, if you find the government has failed to
10 prove any one of the elements for either Count Three for MSMB
11 Capital, or Count Six for MSMB Healthcare, beyond a reasonable
12 doubt, then you must find Mr. Shkreli not guilty of securities
13 fraud for that count. To find Mr. Shkreli guilty of
14 securities fraud as charged in Count Three or Count Six, you
15 must find that the government has proven beyond a reasonable
16 doubt each element of the securities fraud charged in Counts
17 Three for MSMB Capital, or Count 6 for MSMB Healthcare, and
18 also that the government has established venue for that count
19 by a preponderance of the evidence.

20 We will next talk about Counts One and Four, which
21 is conspiracy to commit securities fraud.

22 Count One of the superseding indictment charges
23 Mr. Shkreli with conspiracy to commit securities fraud with
24 respect to MSMB Capital, and Count Four charges him with
25 conspiracy to commit securities fraud with respect to MSMB

Proceedings

5562

1 Healthcare. Count One of the superseding indictment charges
2 Mr. Shkreli with conspiracy to commit securities fraud in
3 connection with MSMB Capital as follows:

4 In or about and between September 2009 and
5 September 2014, both dates being approximate and inclusive,
6 within the Eastern District of New York and elsewhere, the
7 defendant, Martin Shkreli, together with others, did knowingly
8 and willfully conspire to use and employ manipulative and
9 deceptive devices and contrivances, contrary to Rule 10b-5 of
10 the Rules and Regulations of the United States Securities and
11 Exchange Commission, Title 17, Code of Federal Regulations,
12 Section 240.10b-5 by: A, employing devices, schemes, or
13 artifices to defraud; B, making untrue statements of material
14 facts and omitting to state material facts necessary in order
15 to make the statements made, in light of the circumstances
16 under which they were made, not misleading.

1 THE COURT: And (c) engaging in the acts, practices
2 and courses of business which would and did operate as a
3 fraud and deceit upon investors and potential investors in
4 MSMB Capital in connection with a purchase and sale of
5 investments in MSMB Capital, directly and indirectly, by use
6 of means and instrumentalities of interstate commerce and the
7 mails contrary to Title 15, United States Code, sections
8 78j(b) and 78ff.

9 In furtherance of the conspiracy to commit
10 securities fraud and to effect its objects within the Eastern
11 District of New York and elsewhere, the defendant, Martin
12 Shkreli, together with others committed and caused to be
13 committed among others, the following overt acts:

14 A. On or about October 24, 2009, Marek Biestek sent
15 an e-mail to Steve Richardson copying Shkreli and enclosing
16 the "MSMB Capital investor kit," which included a presentation
17 and a private placement memorandum.

18 C. On or about June 9, 2010, Shkreli sent an e-mail
19 to Darren Blanton, attaching MSMB Capital documents and
20 stated, in part: "The fund is a 1/20 fee structure with no
21 lock-ups. We have a daily results e-mail some people like to
22 see. Hedge fund performance should be easy enough to
23 report/calculate estimates on a daily basis, and it is. I'd
24 love to have you as an investor it looks like we see eye to
25 eye on a number of topics."

Proceedings

5564

1 D. On or about October 6, 2010, Shkreli sent an
2 e-mail to the Capital Limited Partners, including Steven
3 Richardson, and attached a letter entitled "MSMB Capital
4 Management Limited Partnership Letter for Q3 2010." In the
5 letter Mr. Shkreli stated, in part, that the "partnership
6 performed well, returning 9 percent in Q3 2010," and that
7 brought the "gross year to date return to 44 percent."

8 E. On or about December 3rd, 2010, Mr. Shkreli sent
9 an e-mail to Darren Blanton and stated in part that MSMB
10 Capital's current assets under management were \$35 million.
11 Its auditor was Rothstein Kass and administrator was NAV
12 Consulting.

13 F. On or about January 3rd, 2011, Shkreli sent an
14 e-mail to the Capital Limited Partners, including Steven
15 Richardson, and stated that MSMB Capital had "returned
16 +30.44 percent in 2010" and "+30.97 percent since inception on
17 November 1st, 2009."

18 G. On or about February 2, 2011, Shkreli sent an
19 e-mail to Marek Biestek and an employee and attached a
20 spreadsheet detailing MSMB Capital's OREX trading.

21 H. On or about February 9, 2011, Shkreli sent an
22 e-mail to the Capital Limited Partners, including Darren
23 Blanton and Steven Richardson, and stated that MSMB Capital
24 had, quote, "returned a +3.80 percent gross of fees year to
25 date and +35.95 percent since inception on November 1, 2009."

1 I. On or about November 17, 2011, Darren Blanton
2 sent a letter to Shkreli provided written notice of a request
3 for a full withdrawal of his investment in MSMB Capital based
4 on the fund's net assets valued as of November 30, 2011.

5 J. On or about January 25, 2012, Shkreli sent an
6 e-mail to Darren Blanton copying others and stating, in part
7 quote, "You invested \$1,250,000 for the 12/31/2010 period.
8 The value of this period is now approximately \$1,318,872 net
9 of fees. We acknowledge your redemption and this will be your
10 last statement."

11 K. On or about September 10, 2012, Shkreli sent an
12 e-mail to the Capital Limited Partners, including Steven
13 Richardson, and stated, in part, quote, "I have decided to
14 wind down our hedge fund partnerships with a goal of
15 completing the liquidation of the funds by November our
16 December 1st, 2012. Original MSMB investors (2009) have just
17 about doubled their money net of fees. Investors have will
18 have their limited partnership interests redeemed by the fund
19 for cash. Alternatively investors may ask for a redemption of
20 Retrophin shares or a combination of Retrophin shares and
21 cash."

22 Count Four of the Superseding Indictment charges
23 Mr. Shkreli with conspiracy to commit securities fraud in
24 relation to MSMB Healthcare as follows:

25 In or about are and between February 2011 and

1 September 2014, both dates being approximate and inclusive,
2 within the Eastern District of New York and elsewhere, the
3 defendant Martin Shkreli, together with others, did knowingly
4 and willfully conspire to use and employee manipulative and
5 deceptive devices and contrivances contrary to Rule 10-b-5 of
6 the Rules and Regulations of United States Securities and
7 Exchange Commission, Title 17, Code of Federal Regulations,
8 Section 240.10b-5, by: (A) employing devices, schemes and
9 artifices to defraud; (b) making untrue statements of material
10 fact and omitting to state material facts necessary in order
11 to make the statements made in light of the circumstances
12 under which they were made not misleading; (c) engaging in
13 acts, practices and courses of business which would and did
14 operate as a fraud and deceit upon investors and potential
15 investors in MSMB Healthcare in connection with a purchase and
16 sale of investments in MSMB Healthcare directly and indirectly
17 by use of means and instrumentalities of interstate commerce
18 and the mails, contrary to Title 15, United States Code,
19 Sections 78j(b) and 78ff.

20 In furtherance of the conspiracy and to effect its
21 objects, within the Eastern District of New York and
22 elsewhere, the defendant Martin Shkreli, together with others,
23 committed and caused to be committed among others, the
24 following overt acts:

25 A. On or about December 16, 2011, Shkreli sent an

Proceedings

5567

1 e-mail to Kevin Mulleady and stated that MSMB Healthcare had
2 45 million in assets under management. And 80 million in
3 assets under management if the full value of Retrophin was
4 taken into account.

5 B. On or about April 18, 2011, Shkreli sent an
6 e-mail to Kevin Mulleady and stated that MSMB Healthcare had
7 55 million in assets under management.

8 C. On or about April 19, 2012, in response to an
9 inquiry by a potential sophisticated investor about how MSMB
10 Healthcare could pay employee salaries with a modest asset
11 base of 55 million. Mr. Shkreli stated, quote, "Lots of ways,
12 many of us have zero salaries or low salaries. We have some
13 expenses the fund pays for and yet other deferments that are
14 creative. We will tell more when we meet."

15 D. On or about September 10, 2012, Shkreli sent an
16 e-mail to the Healthcare Limited Partners, including Alan
17 Geller and stated, in part, "I have decided to wind down our
18 hedge fund partnerships with a goal of completing the
19 liquidation of the funds by November or December 1st, 2012.
20 Original MSMB investors (2009) have just about doubled their
21 money net of fees. Investors will have their limited
22 partnership interests redeemed by the fund for cash.
23 Alternatively, investors may ask for a redemption of Retrophin
24 shares or a combination of Retrophin shares and cash."

25 I have already explained to you the crime of

1 securities fraud. To find that Mr. Shkreli is guilty of Count
2 One you must find that Mr. Shkreli conspired to commit
3 securities fraud as to MSMB Capital. To find Mr. Shkreli
4 guilty of Count Four you must find that Mr. Shkreli conspired
5 to commit securities fraud as to MSMB Healthcare.

6 For Counts One and Four, the Government need not
7 prove that Mr. Shkreli actually committed securities fraud,
8 the unlawful acts charged as the objects of the conspiracy in
9 Counts One and Four. However, you must find beyond a
10 reasonable doubt that Mr. Shkreli conspired with one or more
11 individuals to commit securities fraud.

12 Conspiracy, I will now instruct you on conspiracy.

13 The relevant portion of the conspiracy statute,
14 Title 18, United States Code, section 371, provides in
15 relevant part that it shall be unlawful for "two or more
16 persons to conspire either to commit any offense against the
17 United States, or to defraud the United States, or any agency
18 thereof in any manner, or for any purpose, and one or more of
19 such persons do any act to effect the object of the
20 conspiracy."

21 A conspiracy is a kind of criminal partnership, at
22 the heart of which is an agreement or understanding by two or
23 more persons to violate other laws. A conspiracy to commit a
24 crime is an entirely separate and different offense from the
25 underlying crime that the conspirators intended to commit.

Proceedings

5569

1 Thus, if a conspiracy exists, it is still punishable as a
2 crime, even if it should fail to achieve its purpose. A
3 defendant may be found guilty of conspiracy, even if he was
4 incapable of committing the substantive crime. Consequently,
5 for a defendant to be guilty of conspiracy there is no need
6 for the Government to prove that he or any other conspirator
7 actually succeeded in their criminal goals or that they could
8 have succeeded.

9 How are you? Do you want to take a stretch? Need a
10 break? A break, okay. I'll continue this instruction when we
11 return.

12 (Jury exits the courtroom.)

13 (Whereupon, a recess was taken at 2:30 p.m.)

14 THE COURT: Let's take a few minutes.

15 * * *

16 (Jury enters the courtroom.)

17 THE COURT: All jurors are present. Please have a
18 seat. Thank you members of the jury for your ongoing
19 attention. I know this is a lot.

20 I was in the middle of advising you about conspiracy
21 to commit securities fraud, so I will pick up where I left
22 off.

23 To prove the crime of conspiracy to commit
24 securities fraud, the Government must prove four elements
25 beyond a reasonable doubt.

1 First, that two or more persons entered into an
2 agreement to commit securities fraud, as I have defined the
3 crime of securities fraud on page 32.

4 Second, the defendant knowingly and intentionally
5 became a member of the conspiracy.

6 Third, that one of the members of the conspiracy
7 committed at least one of the overt acts charged in the
8 Superseding Indictment.

9 And Four, that at least one overt act was in
10 furtherance of some object or purpose of the conspiracy as
11 charged in the Superseding Indictment.

12 The first element existence of the agreement. The
13 first element that the Government must prove beyond a
14 reasonable doubt for Counts One and Four is that two or more
15 persons entered into the charged agreement to commit
16 securities fraud. One person cannot commit a conspiracy
17 alone, rather the proof must convince you that at least two
18 persons joined together in a common criminal scheme. The
19 Government need not prove that members of the conspiracy met
20 together or entered into any express or formal agreement. You
21 need not find that the alleged conspirators stated in words or
22 writing what the scheme was, its objects or purpose, or the
23 means by which the scheme was to be accomplished. It is
24 sufficient to show that the conspirators tacitly came to a
25 mutual understanding to accomplish an unlawful act by means of

1 a joint plan or common design.

2 You may, of course, find that the existence of an
3 agreement between two or more persons to violate the law has
4 been established by direct proof. But since, by its very
5 nature a conspiracy is characterized by secrecy, direct proof
6 may not be available. Therefore, you may infer the existence
7 of a conspiracy from the circumstances of this case, and the
8 conduct of the parties involved. In a very real sense, then,
9 in the context of conspiracy cases, actions often do speak
10 louder than words. In determining whether an agreement
11 existed here, you may consider the actions and statements of
12 all those you find to be participants in the conspiracy as
13 proof that a common design existed to act together for the
14 accomplishment of the unlawful purpose stated in the
15 Superseding Indictment.

16 The second element that must be proven beyond a
17 reasonable doubt is membership in the conspiracy. The
18 Government must prove beyond a reasonable doubt for Counts One
19 and Four that the defendant knowingly intentionally became a
20 member of the charged conspiracy. I've explained to you what
21 it means to act knowingly and intentionally. A person acts
22 knowingly an intentionally, if he acts voluntarily,
23 deliberately and purposely and not because of ignorance,
24 mistake, accident, negligence or careless innocence. In other
25 words, did the defendant participate in the conspiracy with

1 knowledge of its unlawful purpose and with a specific
2 intention of furthering its business or objective? Knowledge
3 and intent may be inferred from a secretive or irregular
4 manner in which activities are carried out. Whether a
5 defendant acted knowingly may be proven by the defendant's
6 conduct and by all of the facts and circumstances surrounding
7 the case.

8 In order for a defendant to be deemed a member of
9 the conspiracy he need not have taken a stake in the venture
10 or its outcome. While proof of a financial or other interest
11 in the outcome of a scheme is not essential, if you find that
12 the defendant did have such an interest, it is a factor that
13 you may properly consider in determining whether or not the
14 defendant was a member of the conspiracy charged in the
15 Superseding Indictment.

16 A defendant's participation in the conspiracy must
17 be established by independent evidence of his own acts and
18 statements as well as those of the other alleged
19 co-conspirators and the reasonable inferences that may be
20 drawn from them.

21 A defendant's knowledge may be inferred from the
22 facts proved and that connection, I instruct you that, to
23 become a member of the conspiracy a defendant need not have
24 been apprised of all of the activities of all members of the
25 conspiracy. Moreover, a defendant need not have been fully

1 informed as to all of the details or the scope of the
2 conspiracy in order to justify an inference of knowledge on
3 his part. In addition, a defendant need not have joined in
4 all of the conspiracy's unlawful objectives.

5 In considering whether a defendant participated in a
6 conspiracy, be advised that a conspirator's liability is not
7 measured by the extent or duration of his participation, as he
8 need not have been a member of the conspiracy for the entire
9 time of its existence. In addition, each member of the
10 conspiracy may perform separate and distinct acts and may
11 perform them at different times. Some conspirators play major
12 roles, while others play minor parts in the scheme. An equal
13 role is not what the law requires. Even a single act may be
14 sufficient to draw a defendant within the ambit of this
15 conspiracy. The key inquiry is simply whether a defendant
16 joined the conspiracy charged with an awareness of at least
17 some of the basic aims and purposes of the unlawful agreements
18 and with the intent to help it succeed.

19 I caution you that mere knowledge or acquiescence
20 without participation, in an unlawful plan is not sufficient.
21 Moreover, the fact that the acts of a defendant, without
22 knowledge, merely happened to further the purposes or
23 objectives of the conspiracy, does not make the defendant a
24 member. More is required under the law. What is required is
25 that a defendant must have participated with knowledge of at

1 least some of the purposes or objectives of the conspiracy,
2 and with the intention of aiding in the accomplishment of
3 these unlawful ends. In sum, a defendant with an
4 understanding of the unlawful character of the conspiracy must
5 have intentionally engaged, advised or assisted in it for the
6 purpose of furthering the illegal undertaking.

7 The third element that the Government must prove
8 beyond a reasonable doubt is that one of the members of the
9 conspiracy knowingly committed at least one of the overt acts
10 charged in the Superseding Indictment as I have read them
11 before.

12 In order for the Government to satisfy this element
13 it is not required that all of the overt acts alleged in the
14 Superseding Indictment be proven, or that the overt act was
15 committed at precisely the time alleged in the Superseding
16 Indictment. It is sufficient if you are convinced beyond a
17 reasonable doubt that the overt act occurred at or about the
18 time place stated. Similarly, you need not find that the
19 defendant himself committed the overt act. It is sufficient
20 for the Government to show that one of the conspirators
21 knowingly committed an overt act in furtherance of the
22 conspiracy, since in the eyes of the law such an act becomes
23 the act of all of the members of the conspiracy.

24 The fourth element: In furtherance of some
25 objective of the conspiracy. If you find that overt act or

1 acts were committed, the Government must prove beyond a
2 reasonable doubt that the overt act or acts were done
3 specifically to further some objective of the conspiracy. In
4 order for the Government to satisfy this element it must prove
5 beyond a reasonable doubt that at least one overt act was
6 knowingly and willfully done by at least one conspirator, in
7 furtherance of some object or purpose of the conspiracy as
8 charged in the Superseding Indictment. In this regard you
9 should bear in mind the overt act standing alone may be an
10 innocent lawful act. Frequently however, an apparently
11 innocent act sheds its harmless character if it is a step in
12 carrying out, promoting, aiding or assisting the
13 conspiratorial believe scheme. Therefore, you are instructed
14 that the overt act does not have to be an act which, in and of
15 itself, is criminal or constitutes an objective of the
16 conspiracy.

17 In sum, in order to prove that Mr. Shkreli is guilty
18 of Counts One and Four, the Government must prove beyond a
19 reasonable doubt: 1) that Mr. Shkreli entered into an
20 agreement with one or more individuals to commit securities
21 fraud. 2) that Mr. Shkreli knowingly and intentionally joined
22 the conspiracy. 3) that at least one of the overt acts
23 charged in the Superseding Indictment was committed by at
24 least one member of the conspiracy. And 4) that the overt act
25 was committed specifically to further some objective of the

1 conspiracy.

2 If you find that the Government has not proven any
3 one of these elements then you must find Mr. Shkreli not
4 guilty of Counts One and Four.

5 We're going to talk about venue. I have explained
6 to you the elements the Government must prove beyond a
7 reasonable doubt as to Counts One and Four. The Government
8 must also prove venue. As I've previously explained to you,
9 the Government must prove venue only by a preponderance of the
10 evidence. I remind you that to establish a fact by a
11 preponderance of the evidence, means to prove that the fact is
12 more likely true than not.

13 I've already explained venue for the securities
14 fraud counts, charged in Counts Three and Six. To establish
15 venue for conspiracy to commit securities fraud as charged in
16 Counts One, Four and Eight, conspiracy to commit wire fraud as
17 charged in Counts Two, Five, Seven the Government must prove
18 that it is more likely than not that an overt act in
19 furtherance of the conspiracy was committed in the Eastern
20 District of New York, which consists of the counties of King,
21 also known as Brooklyn, Queens, Richmond, also known as Staten
22 Island, Nassau and Suffolk. The overt act does not have to be
23 an overt act that is charged in the Superseding Indictment in
24 furtherance of the conspiracy. In this regard the Government
25 need not prove that the crime charged was committed in the

1 Eastern District of New York. Or that Mr. Shkreli, or any
2 alleged co-conspirator, was even physically present here. It
3 is sufficient to satisfy the venue requirement if an overt act
4 in furtherance of the conspiracy occurred within the Eastern
5 District of New York. This includes acts not just by
6 Mr. Shkreli or his co-conspirators, but also acts that the
7 conspirators caused others to take that materially furthers
8 the ends of the conspiracy.

9 Therefore, if you find that it is more likely than
10 not that an overt act in furtherance of the conspiracy took
11 place in the Eastern District of New York, the Government has
12 satisfied its burden of prove as to venue as to Counts One,
13 Two, Four, Five, Seven and Eight. Again, I caution you that
14 the preponderance of the evidence standard applies only to
15 venue. The Government must prove each of the elements of all
16 the counts of the crimes charged beyond a reasonable doubt.

17 In sum, if you find that the Government has failed
18 to prove any one of the elements for either Count One for MSMB
19 Capital, or Count Four for MSMB Healthcare, beyond a
20 reasonable doubt then you must find Mr. Shkreli not guilty of
21 securities fraud conspiracy for that count.

22 To find Mr. Shkreli guilty of conspiring to commit
23 securities fraud as charged in Count One or Count Four, you
24 must find that the Government has proven beyond a reasonable
25 doubt each element of the conspiracy to commit securities

1 fraud in Count One for MSMB Capital or Count Four for MSMB
2 Healthcare. And that the Government has also established
3 venue for that count by a preponderance of the evidence.

4 We will next talk about Counts Two and Five, which
5 charge conspiracy to commit wire fraud.

6 Count Two of the Superseding Indictment charges
7 Mr. Shkreli with conspiracy to commit wire fraud as to MSMB
8 Capital, and Count Five charges Mr. Shkreli with conspiracy to
9 commit wire fraud as to MSMB Healthcare.

10 Count Two of the Superseding Indictment charges
11 Mr. Shkreli with conspiracy to commit wire fraud in connection
12 with MSMB Capital as follows.

13 In or about and between September 2009 and
14 September 2014, both dates being approximate and inclusive
15 within the Eastern District of New York and elsewhere, the
16 defendant, Martin Shkreli, together with others, did knowingly
17 and intentionally conspire to device a scheme and artifice to
18 defraud investors and potential investors of MSMB Capital, to
19 obtain money and property from them by means of materially
20 false and fraudulent pretenses, representations and promises,
21 and for the purpose of executing such scheme and artifice to
22 transmit and cause to be transmitted by means of wire
23 communication in interstate and foreign commerce writings,
24 signs, signals, pictures and sounds contrary to Title 18,
25 United States Code, Section 1343.

1 Count Five of the Superseding Indictment charges
2 Mr. Shkreli with conspiracy to commit wire fraud in connection
3 with MSMB Healthcare as follows:

4 In or about and between February 2011 and
5 September 2014, with both dates being approximate and
6 inclusive, within the Eastern District of New York and
7 elsewhere, the defendant, Martin Shkreli, together with
8 others, did knowingly and intentionally conspire to devise a
9 scheme and artifice to defraud investors and potential
10 investors of MSMB Healthcare and to obtain money and property
11 from them by means of materially false and fraudulent
12 pretenses representations and promises.

1 THE COURT: And for the purpose of executing such
2 scheme and artifice to transmit and cause to be transmitted
3 by means of wire communication in interstate and foreign
4 commerce, writing, sign, signal, pictures and sound contrary
5 to Title 18, United States Code Section 1343.

6 I have already explained to you what a conspiracy
7 is. That is, what it means to conspire to commit an
8 offense, and again, the wire fraud conspiracy. As a
9 reminder, the Government need not prove that Mr. Shkreli
10 actually committed the unlawful act charged as the object of
11 the conspiracy in Counts 2 and 5, that is, wire fraud.
12 Rather the Government must prove each one of the following
13 two elements, beyond a reasonable doubt. First, that two or
14 more persons entered into an agreement to commit wire fraud,
15 and, second, that Mr. Shkreli knowingly and intentionally
16 became a member of the conspiracy.

17 The overt acts on which I instructed you with
18 respect to Counts 1 and 4 which charge conspiracy to commit
19 securities fraud do not apply to Counts 2 and 5 which
20 charges conspiracy to commit wire fraud.

21 Let's talk about wire fraud, the definition, and
22 the fifth element. I will now define wire fraud, which is
23 alleged to be the object of the conspiracy charged in
24 Count 2 involving MSMB Capital and Count 5 involving
25 MSMB Healthcare. The relevant statute regarding wire fraud

1 in Section 1343 of Title 18 of the United States Code which
2 provides that whoever, having devised or intending to devise
3 any scheme or artifice to defraud or for obtaining money or
4 property by means of false or fraudulent pretenses,
5 representation or promises transmits or causes to be
6 transmitted by means of wire, radio or television
7 communication in interstate or foreign commerce any writing,
8 sign, signal, pictures or sounds for the purpose of
9 executing such scheme or artifice shall be guilty of the
10 crime.

11 The elements of wire fraud are: First, that there
12 was a scheme or artifice to defraud or obtain money or
13 property by false and fraudulent pretenses, representations
14 or promises as alleged in the superseding indictment.

15 Second, that the defendant knowingly and willfully
16 participated in this scheme or artifice to defraud with
17 knowledge of its fraudulent nature and with specific intent
18 to defraud.

19 And, third, that in the execution of this scheme
20 the defendant used or caused the use of interstate wires.

21 The first element, that is, the existence of the
22 scheme or artifice to defraud investors and potential
23 investors and MSMB Capital as to Count 2 and MSMB Healthcare
24 as to Count 5, and to obtain money or property from them by
25 means of false and fraudulent pretenses, representations or

1 promises.

2 A scheme or artifice is simply a plan for the
3 accomplishment of an objective. Fraud is a general term
4 which embarrasses all the various means that an individual
5 can devise and what that are used by an individual to gain
6 an advantage other another by false representation,
7 suggestion, suppression or omission of the truth or
8 deliberate disregard for the truth.

9 A scheme or artifice to defraud for the purpose of
10 the wire fraud statute is any plan, device or course of
11 action designed to obtain money or property by means of
12 false representation: That the scheme to defraud is a plan
13 to deprive another of money or property by trick, deceit,
14 deception or swindle or overreaching. The scheme to fraud
15 giving rise to the wire fraud conspiracy charged in Counts 2
16 and 5 are alleged to have been carried out by making false
17 representations. The statement, representation, claim or
18 document is false if it is untrue when made and was known at
19 the time to be untrue by the person making it or causing it
20 to be made. A representation or a statement is fraudulent
21 if it was falsely made with the intention to deceive.

22 Deceitful statements of half truths or the concealment or
23 omission of material fact and the expression of an opinion
24 not honestly entertained may compensate false or fraudulent
25 representations under the statute.

1 The fraudulent representation must relate to a
2 material fact or matter. The material fact in the context
3 of wire fraud is one that reasonably would be expected to be
4 of concern to a reasonable and prudent person in relying on
5 the representation or statements in making a decision.

6 The deception need not be premised upon spoken or
7 written words alone. The arrangement of words or the
8 circumstances in which they are used may convey a false and
9 deceptive appearance. If there is an intentional deception,
10 the manner in which it is accomplished does not matter.

11 In addition to proving a statement was false or
12 fraudulent and related to a material fact, in order to
13 establish a scheme to defraud, the Government must prove
14 that the alleged scheme contemplated depriving another of
15 money or property. It is not necessary that the Government
16 prove that the defendant actually realized any gain from the
17 scheme or that the intended victim actually suffered any
18 loss.

19 The second element is participation in the scheme
20 with intent. The second element of wire fraud is that the
21 defendant participated in the scheme to defraud knowingly,
22 willfully and with the specific intent to defraud. I've
23 already instructed you on the meaning of knowingly and
24 willfully. I'll refer you to those instructions as they
25 apply here also.

1 For the purpose of the wire fraud statute, a
2 intent to defraud means to act knowingly and with specific
3 intent to deceive for the purpose of causing some financial
4 or property loss to another.

5 I will remind you, however, that the question of
6 whether a person acted knowingly, willfully and with intent
7 to defraud is a question of fact for you to determine, like
8 any other fact question.

9 This question involves the defendant's state of
10 mind. As I said before, direct proof of knowledge and
11 fraudulent intent is not necessary.

12 The ultimate fact of knowledge and criminal intent
13 though subjective, may be established by circumstantial
14 evidence based upon a person's outward manifestation, his or
15 her words, his or her conduct, his or her acts and all the
16 surrounding circumstances disclosed by the evidence and the
17 rational or logical inferences that may be drawn from them.
18 Circumstantial evidence is believed is of no less value than
19 direct evidence.

20 Under the wire fraud scheme even if false
21 representations or statements or omissions of material fact
22 do not amount to a fraud -- under the wire fraud statute
23 even false representations or statements or omissions of
24 material facts do not amount to a fraud unless done with
25 fraudulent intent.

1 However misleading or deceptive a plan may be, it
2 is not fraudulent if it was devised or carried out in good
3 faith. An honest belief in the truth of the representations
4 made by a defendant is a complete defense however inaccurate
5 the statement may turn out to be.

6 A defendant, however, has no burden to establish a
7 defense of good faith. There is another consideration to
8 bear in mind in deciding whether or not the defendant acted
9 in good faith. You are instructed that if the defendant
10 conspired to commit wire fraud then the belief by the
11 defendant, if such a belief existed, that ultimately
12 everything would work out so that no one would lose any
13 money does not require you to find that the defendant acted
14 in good faith. No amount of honest belief on the part of
15 the defendant that the scheme would, for example, ultimately
16 make a profit for investors will excuse fraudulent actions
17 or false representations caused by him to obtain money or
18 property. I reiterate, however, that an intent to defraud
19 for purposes of the wire fraud statute means to act
20 knowingly and with specific intent to deceive for the
21 purpose of causing financial loss or property loss to
22 another. As a practical matter you may mind intent to
23 defraud if the defendant knew that his conduct as a
24 participant in the scheme was calculated to deceive and
25 nonetheless he associated himself with the alleged

1 fraudulent scheme for the purpose of causing loss to
2 another.

3 The third element is use of a wire. The third and
4 final element of wire fraud is the use of an interstate or
5 international wire communication in furtherance of the
6 scheme to defraud. The wire communication must pass between
7 two or more states or it must pass between the United States
8 and a foreign country. A wire communication includes a wire
9 transfer of funds between banks in different states,
10 telephone calls, e-mails and facsimiles between two
11 different states.

12 The item sent through the wires need not
13 self-contain a fraudulent representation. However, it must
14 further or assist in the carrying out of the scheme to
15 defraud. It is not necessary for the defendant to be
16 directly or personally involved in the wire communication as
17 long as the communication was reasonably foreseeable in the
18 execution of the alleged scheme to defraud in which the
19 defendant is accused of participating. I remind you that
20 the Government need not prove that Mr. Shkreli actually
21 committed wire fraud, the unlawful act charged as the object
22 of the conspiracy in Counts 2 and 5. Rather, the Government
23 must prove beyond a reasonable doubt -- what the Government
24 must prove beyond a reasonable doubt is that the purpose of
25 the conspiracy was to commit wire fraud and that the

1 defendant knowingly and intentionally joined that
2 conspiracy.

3 I have previously instructed you on venue for the
4 conspiracy count, and those instructions apply here. In
5 sum, if you find that the Government has failed to prove
6 either of the elements of conspiracy for either Count 2 for
7 MSMB Capital or Count 5 for MSMB Healthcare beyond a
8 reasonable doubt, then you must find Mr. Shkreli not guilty
9 of wire fraud conspiracy for that count.

10 To find Mr. Shkreli guilty of conspiracy to commit
11 wire fraud as charged in Count 2 or Count 5, you must find
12 that the Government has proven beyond a reasonable doubt
13 both elements of conspiracy as charged in Count 2 for
14 MSMB Capital or Count 5 for MSMB Healthcare and that
15 the Government has also established venue on that count by a
16 preponderance of the evidence.

17 I will now charge you on Count 7. Count 7 of the
18 superseding indictment charges Mr. Shkreli with wire fraud
19 conspiracy in connection with Retrophin as follows: In or
20 about and between February 2011 and September 2014 both days
21 approximate and inclusive within the Eastern District of
22 New York and elsewhere, the defendant Martin Shkreli,
23 together with others did knowingly and intentionally
24 conspire to devise and scheme and artifice to defraud
25 Retrophin and to obtain money and property from Retrophin by

1 means of materially false and fraudulent pretenses,
2 representations, and promises. And for the purpose of
3 executing such scheme and artifice, to transmit and cause to
4 be transmitted by means of wire communication in interstate
5 and foreign commerce, writing, sign, signals, pictures and
6 sound contrary to Title 18, United States Code Section 1343.
7 With regard to the conspiracy to commit wire fraud I have
8 already explained what it means to conspire to commit an
9 offense. Those same instructions apply to Count 7.

10 I further remind you that Government need not
11 prove that Mr. Shkreli actually committed wire fraud, the
12 unlawful act charged as the object of the conspiracy in
13 Count 7, rather the Government must prove each one of the
14 following two elements beyond a reasonable doubt.

15 First, that two or more persons entered into an
16 agreement to commit wire fraud and, second, that the
17 defendant knowingly and intentionally became a member of the
18 conspiracy: With regard to wire fraud I have already
19 instructed you on the elements of wire fraud. Those same
20 instructions apply to Count 7.

21 As a reminder, as I instructed you on Page 63, the
22 elements of wire fraud are: First, that there was a scheme
23 or artifice to defraud or to obtain money or property by
24 false and fraudulent pretenses, representation, or promises
25 as alleged in the superseding indictment. A fraudulent

1 representation may include the failure to disclose material
2 information if the defendant was under a legal, professional
3 or contractual duty to make such a disclosure. You have
4 heard testimony regarding the fiduciary duty of corporate
5 officers and directors. One such duty, the duty of loyalty
6 mandates that the best interest of the corporation and its
7 shareholders take precedence over any interest to satisfy a
8 director or officer and not shared by the stockholders
9 generally.

10 However, in order for a failure to disclose
11 material information to constitute a fraudulent
12 representation, the purpose of the wire fraud statute, the
13 defendant must have actually known that such disclosure was
14 required to be made and must have failed to make such
15 disclosures with the intent to defraud.

16 Second, that the defendant knowingly and willfully
17 participated in the scheme for artifice to defraud with
18 knowledge of its fraudulent nature and specific intent to
19 defraud.

20 And third, that in the execution of that scheme
21 the defendant used or caused to be used of interstate wires.
22 Specifically as to Count 7, the Government alleges that
23 Mr. Shkreli together with others conspired the defraud
24 Retrophin by causing it to, one, transfer Retrophin shares
25 to MSMB Capital investors even though MSMB Capital -- I'm

1 sorry.

2 Specifically as to Count 7, the Government alleges
3 that Mr. Shkreli together with others conspired to defraud
4 Retrophin by causing it to, one, transfer Retrophin shares
5 to MSMB Capital even though MSMB Capital never invested in
6 Retrophin.

7 2: Enter into settlement agreements with
8 defrauded MSMB Capital and MSMB Healthcare investors to
9 settle liabilities owed by MSMB funds and Shkreli.

10 And 3: Enter into sham consulting agreements with
11 defrauded MSMB Capital or Elea Capital investors as an
12 alternative means to settle liability owed by the MSMB funds
13 and Mr. Shkreli.

14 You can find Mr. Shkreli guilty of Count 7 only if
15 the Government has proven both elements of the conspiracy
16 beyond a reasonable doubt as to one of the above means
17 satisfied in 1, 2 or 3 or as to any one of the settlement
18 and consulting agreements, but you must be unanimous as to
19 that finding.

20 Venue, with regard to venue I have already
21 previously instructed you on venue for wire fraud
22 conspiracy, and those instructions apply here.

23 Now, with regard to Count 8. Count 8 of the
24 superseding indictment charges Mr. Shkreli with conspiracy
25 to commit securities fraud in connection with Retrophin as

1 follows: In or about and between November 2012 and
2 September 2014, both days being approximate and inclusive
3 within the Eastern District of New York and elsewhere, the
4 defendant Martin Shkreli together with others did knowingly
5 and willfully conspire to use and employ manipulative and
6 deceptive devices and contrivances contrary to Rule 10B5 of
7 the rules and regulations of the United States Securities
8 and Exchange Commission Title 17, Code of Federal
9 Regulations Section 240.10B5 by, A, employing devices,
10 schemes and artifices to defraud.

11 B, making untrue statements of material facts and
12 omitting to state material facts necessary in order to make
13 the statements made in light of the circumstances under
14 which they were made not misleading.

15 And C, engaging in acts, practices and course of
16 business which would and did operate as a fraud and deceit
17 upon investors and potential investors in Retrophin in
18 connection with a purchase and sale of securities of
19 Retrophin directly and indirectly by use of means and
20 instrumentality of interstate commerce and the mail contrary
21 to Title 15, United States Code Section 7, 8 -- 78JB and
22 78FS.

23 In furtherance of the conspiracy and to effect its
24 object within the Eastern District of New York and
25 elsewhere, the defendant Martin Shkreli together with others

Proceedings

5592

1 committed and caused to be committed amongst others the
2 following overt acts: A, on or about December 12, 2012,
3 Evan Greebel sent an e-mail to Marek Biestek attaching six
4 stock purchase agreements and stated in part, quote,
5 "Attached are purchase agreements for the acquisition of the
6 unrestricted stock. Please ask each person to sign the last
7 page and return it to me," end of quote.

8 B, on or about December 13th, 2012 Evan Greebel
9 sent an e-mail to Marek Biestek and one of the seven
10 employees and contractors who received unrestricted or
11 free-trading shares and stated in part quote: "Please send
12 me an e-mail confirming the following: I represent that I
13 am not an officer, a director or holder of 10 percent or
14 more of the outstanding equities, securities of
15 Desert Gateway and do not alone or together with any other
16 person exercise control over Desert Gateway," end of quote.

17 C, on or about December 17th, Mr. Shkreli sends an
18 e-mail to all employees copying six of the seven employees
19 and contractors who received unrestricted and free-trading
20 shares and stated that Retrophin now had four employees and
21 that everyone else, including the employees and contractors
22 who received the unrestricted or free-trading shares were no
23 longer employees or consultants to Retrophin or MSMB, even
24 though they could continue using Retrophin's office space as
25 courtesy. Mr. Shkreli then forwarded this e-mail to Evan

Proceedings

5593

1 Greebel.

2 D: On or about December 20, 2012, Evan Greebel
3 sent an e-mail to Shkreli attaching a Schedule 13D and
4 stated "Attached is a draft of the 13D. We should discuss,"
5 end of quote.

6 E: On or about December 20th Shkreli filed an
7 Schedule 13D with the SEC that failed to disclose his
8 control over any of the unrestricted or free-trading shares.

9 F: On or about January 2nd, 2013, Shkreli sent an
10 e-mail to Evan Greebel requesting Evan Greebel's thought on
11 a draft e-mail that Shkreli wanted to send to one of the
12 seven employees and consultants who received unrestricted or
13 free-trading shares and was selling his RTRF stock. In the
14 draft e-mail Shkreli stated in part, quote, "I have decided
15 to commence litigation against you for failing to honor the
16 agreement that we made in our office on December 10th. You
17 agreed to work for MSMB. Instead you have failed to come to
18 the office. You will not even return my telephone calls."
19 End of quote.

20 Less than 30 minutes later Evan Greebel replied to
21 Shkreli and stated, quote, "Very risky given what your
22 agreement was. Could be opening a much bigger can of
23 worms." End of quote.

24 G: On or about February 19, 2013 Shkreli filed an
25 amended Schedule 13D with the SEC that failed to disclose

Proceedings

5594

1 his control over any of the unrestricted or free-trading
2 shares.

3 H: On or about March 8th, 2013 Evan Greebel sent
4 an e-mail to Shkreli and stated, quote, "Michael Fearnow and
5 the purchasers are signing an amendment to their purchase
6 agreement and in the amendment the purchaser is directing
7 Michael Fearnow to have the stock delivered to designated
8 people." End of quote.

9 I: On or about April 10th, 2013, Evan Greebel
10 sent an e-mail to Michael Fearnow and Shkreli and stated in
11 part, quote, "The 50K unrestricted or free-trading shares
12 that were owed to Marek Biestek should be broken down as
13 following," end of quote.

14 On or about -- J -- J -- on or about May 9th, 2013
15 in response to an e-mail from Evan Greebel requesting the

17 dispute with a distraught an MSMB Healthcare investor
18 Shkreli stated, quote, "Take from anyone. I don't care. Do
19 the math." End of quote.

20 Conspiracy. Again, I've already instructed you on
21 conspiracy generally at Page 51. Those same instructions
22 apply here. As a reminder, the Government need not prove
23 that Mr. Shkreli actually committed securities fraud, the
24 unlawful act charged as the object of the conspiracy in
25 Count 8. Rather, the Government must prove beyond a

Proceedings

5595

1 reasonable doubt the following: First that two or more
2 persons entered into an agreement to commit securities
3 fraud.

4 Second, that the defendant knowingly and
5 intentionally became a member of the conspiracy.

6 Third, that one of the members of the conspiracy
7 knowingly committed at least one of the overt acts charged
8 in the superseding indictment.

9 And fourth, that the overt act or acts that you
10 find were committed were done specifically to further some
11 objectives of the securities fraud conspiracy.

12 With regard to securities fraud I've already
13 instructed you on the elements of securities fraud at
14 Page 32 of these instructions.

15 As a reminder the elements of securities fraud
16 are: First, in connection with the purchase or sales of
17 securities Martin Shkreli did one or more of the following:

18 1: Employed a device, scheme, or artifice to
19 defraud.

20 Or 2, made an untrue statement of material fact or
21 omitted to state a material fact necessary in order to make
22 the statements made in the light of the circumstances under
23 which they were made not misleading; or

24 3: Engaged in an act, practice or course of
25 business that operated or would operate as a fraud or deceit

1 upon a purchaser or fellow.

2 Second, to act willfully, knowing and with the
3 intent to defraud.

4 Third, to knowingly use or cause to be used any
5 means or instrumentalities of transportation or
6 communication in interstate commerce or the use of the mail
7 in furtherance of the fraudulent conduct.

8 Any conduct that is designed to deceive or defraud
9 investors by controlling or artificially affecting the price
10 of securities is prohibited. An essential element of
11 manipulation of securities is the deception of investors
12 into believing that the prices at which they purchase and
13 sell securities are determined by the natural interplay of
14 supply and demand.

15 You have also heard the parties use the term
16 affiliate. An affiliate of an issuer under the law means a
17 person that directly or indirectly through one or more
18 intermediaries controls or is controlled by or is under
19 common control with such issuer. Whether a person is an
20 affiliate of Retrophin is a question of fact for the jury.

21 With regard to venue I have previously instructed
22 you on venue for the securities fraud conspiracy, those
23 instructions apply here.

24 Now, a word about the defenses. First, the good
25 faith attempt. This faith is a complete defense to the

1 charges in this case if defendant believed in good faith
2 that he was acting properly even if he was mistaken in that
3 belief and even if others were injured by his conduct, there
4 would be no crime. If you believe that Mr. Shkreli believed
5 in the truth of the representations that he made then it
6 does not make any difference if the representations were
7 untrue. The burden of establishing the last of the good
8 faith in criminal intent rests on the Government. A
9 defendant is under no burden to prove his good faith,
10 rather, the Government must prove bad faith or knowledge of
11 falsity beyond a reasonable doubt.

12 As a reminder I instruct you that when considering
13 the offense of good faith you consider it in conjunction
14 with my instructions on Page 41 and 68 regarding the
15 defendant's belief if such belief existed that ultimately
16 everything would work out so that no one would lose money.

17 The second defense is reliance on counsel. You've
18 heard evidence that with regard to Count 7 and 8 Mr. Shkreli
19 received advice from a lawyer and you may consider that
20 evidence in deciding whether Mr. Shkreli acted willfully and
21 with knowledge and with fraudulent intent. The mere fact
22 that Mr. Shkreli may have received legal advice does not in
23 itself necessarily constitute a complete defense. Instead
24 you must consider whether, first, Mr. Shkreli honestly and
25 in good faith sought the advice of a competent lawyer as to

1 what he may lawfully do.

2 Second, whether he fully and honestly laid out all
3 the facts before his lawyer.

4 And three, whether in good faith he honestly
5 followed such advice relying on it and believing it to be
6 correct.

7 In short, you should consider whether he's seeking
8 and obtaining advice from a lawyer Mr. Shkreli intended that
9 his acts shall be lawful. If he did so it is the law that
10 the defendant cannot be convicted of a crime that involved
11 willful and unlawful intent even if such advice was an
12 inaccurate construction of a law.

13 On the other hand a defendant cannot willfully and
14 knowingly violate the law and excuse himself from the
15 consequences of his conduct by arguing that he followed the
16 advice of his lawyer. Whether Mr. Shkreli acted in good
17 faith for the purpose of seeking guidance as to the specific
18 acts in this case, whether he made full and complete reports
19 to his lawyer and whether he acted substantially in
20 accordance with the advice received from his lawyer are
21 questions for you to determine.

22 Now for the closing instructions. I have now
23 outlined for you the rules and applicable -- the rules of
24 law applicable to the charges in this case and the processes
25 by which you should weigh the evidence and determine the

Proceedings

5599

1 facts. In a few minutes you will retire to the jury room
2 for your deliberations.

3 First, regarding the selection of a foreperson.
4 When you retire you will choose one member of the jury to
5 act as the foreperson. That person will preside over the
6 deliberations and speak for you here in open court. In
7 order for your deliberations to proceed in an orderly
8 fashion, you must have a foreperson, but, of course, his or
9 her opinion or both or not entitled to any greater weight
10 than that of any other juror. The foreperson merely acts as
11 your mouthpiece here in court.

12 2: Let me talk to you about verdict -- your
13 verdict and deliberations. The Government to prevail must
14 prove the essential elements by the required degree of proof
15 as already explained in these instructions. If the
16 Government succeeds, your verdict should be guilty as to the
17 count; if it fails your verdict should be not guilty as to
18 the count.

19 To report a verdict it must be unanimous, meaning
20 all of you must agree. Your function is to weigh the
21 evidence in the case and determine whether or not the
22 defendant is guilty based solely upon the evidence.

23 Each juror is entitled to his or her opinion.
24 Each should, however, exchange views with his or her fellow
25 jurors. That is the very purpose of jury deliberation, to

Proceedings

5600

1 discuss and consider the evidence, to listen to the views of
2 you fellow jurors, to present your own individual views, to
3 consult with one another, and to reach an agreement based
4 solely and wholly on the evidence, if you can do that
5 without violence to you own individual judgment.

6 Each of you must decide the case for yourself
7 after consideration with your fellow jurors of the evidence
8 in the case. But you should not hesitate to change an
9 opinion back after discussion with your fellow jurors it
10 appears it's erroneous. However, if after carefully
11 considering all of the evidence and the arguments of your
12 fellow jurors, you entertain a conscientious view that
13 differs from the others, you are not to yield your
14 conviction simply because you were outnumbered.

15 Your final vote must reflect your conscientious
16 conviction as to how the issues should be decided.
17 Your verdict, whether guilty or not guilty, must be
18 unanimous. As you deliberate your function is to weigh the
19 evidence in the case and to determine whether the defendant
20 is guilty beyond a reasonable doubt solely upon the basis of
21 such evidence. Under your oath as jurors you may not
22 consider any consequences, including the punishment that may
23 be imposed upon the defendant if he is convicted.

24 You may not permit that to influence your verdict
25 or in any way enter into your deliberation. The duty of

1 imposing punishment rests exclusively with the Court.

2 In addition, during your deliberations you must
3 not communicate with or provide any information to anyone by
4 any means about this case, you may only discuss the case
5 within the confines of the jury room. You may not use any
6 electronic device or media such as the telephone, a cell
7 phone, Smartphone, iPhone, Blackberry or computer, the
8 Internet, any Internet service, any text or instant
9 messaging service, any Internet chat room, blog or website
10 such as Facebook, MySpace, Instagram, LinkedIn, YouTube or
11 Twitter to communicate to anyone about any information
12 regarding the case or to conduct any research about this
13 case.

14 In other words, you cannot talk to anyone on the
15 phone, correspond with anyone or electronically communicate
16 with anyone about the case except with your fellow jurors in
17 the jury room during deliberations.

18 Along the same lines you should not try to access
19 any information about the case or do research on any issue
20 that arose during the trial with any outside source,
21 including dictionary, reference books, or anything on the
22 Internet.

23 Information that you may find on the Internet or
24 in a printed reference might be incorrect or incomplete and
25 in our court system it is important that you not be

Proceedings

5602

1 influenced by anyone or anything outside of the courtroom.

2 Your sworn duty is to decide this case solely and
3 wholly on the evidence that was presented to you in this
4 courtroom.

5 A word about note taking. Your notes are to be
6 used solely to assist you and are not to be substituted for
7 your recollection of the evidence in this case. Do not
8 assume simply because someone appears in a juror's note that
9 it necessarily took place in court. Instead it is your
10 collective memory that must control as you deliberate upon
11 the verdict. The fact that a particular juror has taken
12 notes entitles that juror's views to no greater weight than
13 those of any other juror and your notes are not to be shown
14 to any other juror during your deliberations. They are your
15 notes and yours alone.

16 A word about communications with the Court. If it
17 becomes necessary during your deliberations to communicate
18 with me for any reason, simply send me a note signed by your
19 foreperson or by one or more other members of the jury. No
20 member of the jury should ever attempt to communicate with
21 me or with any other court personnel by any means other than
22 a signed writing. I will not communicate with any member of
23 the jury on any subject touching on the merits of this case
24 other than in writing or orally here in the courtroom in
25 open court. Do not ever disclosure how the jury stands

Proceedings

5603

1 numerically or otherwise on the question of guilt or
2 innocence.

3 You do have the right to see the evidence. You
4 will have the exhibits and a list of exhibits received in
5 evidence during the course of the trial in the jury room
6 with you. If you wish to have any portion of the testimony
7 repeated, you may simply indicate that in a note. Be as
8 specific as you can if you make such a request. Let us know
9 which exhibit or which part of which witness' testimony you
10 want to hear and please be patient while we locate it. So
11 try to specify the name and subject matter of any testimony
12 that you would like to hear.

13 If you need further instructions on any point of
14 law, you should also indicate that in a note.

15 Now, when you have reached a unanimous verdict,
16 simply send me a note signed by your foreperson if you have
17 reached a verdict. Do not indicate in the note what your
18 verdict is. To record a verdict it must be unanimous and
19 you must be prepared to render a verdict for the defendant
20 as to each count of the superseding indictment, so consider
21 each count separately.

22 To help you I have prepared a verdict form that
23 may be of assistance to you in your deliberations. On the
24 verdict sheet are spaces marked guilty or not guilty for
25 each count. The form is in no way intended to indicate how

Proceedings

5604

1 you must deliberate or decide the facts of this case. The
2 foreperson should use a checkmark in the appropriate space
3 indicating guilty or not guilty for each count of the
4 superseding indictment with which Mr. Shkreli is charged.
5 The foreperson should also place his or her initials and the
6 date beside each mark on the verdict form. So for each
7 count there be will a box that will be checked by the
8 foreperson depending on what your unanimous verdict is and
9 that foreperson will initial and date the form.

10 The foreperson should also sign the bottom of the
11 verdict form and date the verdict form.

12 Finally, I want to remind you of the oath that you
13 took when you were sworn as a juror at the beginning of this
14 case. Remember, in your deliberations that this case is no
15 passing matter for the Government or for Mr. Shkreli. The
16 parties and the Court rely upon you to give full and
17 conscientious deliberation and consideration to the issues
18 and evidence before you. By so doing we carry out the
19 fullest your oaths as jurors to well and truly try the
20 issues of the case and a true verdict render.

21 Before asking you to retire to the jury room and
22 begin your deliberations, let me first consult with counsel
23 to be certain I have not overlooked any point.

24 (Continued on next page.)
25

Sidebar Conference

5605

1 (The following occurred at sidebar.)

2 MR. BRAFMAN: Your Honor --

3 MS. KASULIS: So -- go ahead.

4 MR. BRAFMAN: Your Honor, we obviously reserve the
5 objections we made and if we leave in that with respect to
6 no ultimate harm but other than that, we have no objections
7 to the Court's Charge, other than what was previously named.

8 MS. KASULIS: There are no objections from the
9 Government, Your Honor.

10 We did want to rise the issue of the alternate
11 jurors?

12 THE COURT: Yes. I will instruct them on that as
13 soon as we are finished here.

14 MS. KASULIS: Okay.

15 MR. BRAFMAN: Are you keeping them, I hope?

16 THE COURT: Yes, I am going to keep them.

17 MS. KASULIS: Okay, great.

18 MR. BRAFMAN: Okay.

19 THE COURT: They are going to be segregated, and I
20 usually -- I instruct them not talk.

21 MR. BRAFMAN: I think you should do that.

22 I have just one question, and it's your call,
23 obviously. Do you want to ask them whether they want to
24 begin deliberations now or whether they want to start on
25 Monday morning fresh? It's been a long day for everyone, so

Sidebar Conference

5606

1 it's truly -- if you want to ask that question.

2 MS. KASULIS: The Government -- we don't have a
3 position either way.

4 THE COURT: Well, I will see how they feel. I
5 think they will probably, hopefully, will want to get moving
6 on the deliberations. If they would like to start fresh on
7 Monday, that is fine, too.

8 MR. BRAFMAN: But I'm not certain they know they
9 have that option.

10 THE COURT: I will speak to them.

11 MR. BRAFMAN: Okay. Thank you, Judge.

12 MS. KASULIS: Thank you, Judge.

Proceedings

5607

1 (In open court, sidebar ends.)

2 THE COURT: Members of the jury, there are a few
3 matters that I must just bring up with you. The first is
4 whether you would like to begin your deliberations now or
5 start fresh on Monday? I recognize you have been sitting
6 and paying close attention throughout the day. So I leave
7 you with that option.

8 Is there a general view about whether to start now
9 or begin on Monday?

10 THE JURY: Monday.

11 THE COURT: Monday?

12 All right. The second matter -- that is fine.

13 The second matter is that the alternate jurors,
14 those jurors sitting in Seats 13 through 18 are asked to
15 remain at the courthouse each day and not to discuss the
16 case. You are here because if one of the 12 jurors seated
17 before you becomes unable to continue deliberations, the
18 next juror will be brought in, deliberations will begin
19 anew, and that juror will join the deliberations.

20 So what I told you before about not discussing the
21 case, still applies to all of you who are not in the jury
22 room. So Jurors 13 through 18 may not discuss the case.

23 You will be provided with lunch, and you will be
24 held in a room, a separate area, or you may be in the
25 courthouse in a different area if you wish, but you may not

Proceedings

5608

1 discuss the case amongst yourselves or with any other
2 person. If it becomes necessary to replace you in the jury
3 room, and into deliberations, as I said, you may then
4 discuss it with fellow jurors. So the prohibition against
5 discussions apply to the alternates.

6 And with regard to Jurors 1 through 12, do not
7 discuss the case now with anybody still. You may only
8 discuss within the confines of the jury room the evidence in
9 the case. In addition, if one of you has not yet arrived in
10 the morning, you may not deliberate. If one of you steps
11 out for a rest-room break, you may not deliberate. You may
12 only deliberate when all 12 of you are present.

13 We will be sending back the exhibits, a copy of
14 the superseding indictment, and the instructions. And those
15 will be available for you on Monday when you commence your
16 deliberations. Once we note that you are all present here
17 Monday, hopefully it will be close to 9:00 as possible, we
18 will bring all of those materials in for your consideration.

19 There will also be a court security officer
20 sitting outside your door. That person will be the person
21 to whom you will write notes to me with any requests for
22 evidence or questions, and that person will then contact me
23 and we will assemble here in court, or I will send a note
24 back to you to respond to your questions per your request.

25 With that, I will wish you a good weekend. I want

Proceedings

5609

1 to thank you all for your attention and your service. And
2 please do not discuss the case over the weekend.

3 Please leave your notebooks on your chairs and we
4 will make sure that those come back to you on Monday.

5 (Jury exits the courtroom at 3:46 p.m. to being
6 deliberations on Monday, July 31, 2017 at 9:00 a.m.)

7 (The following matters occurred outside the
8 presence of the jury.)

9 THE COURT: Is there anything else -- one thing we
10 would like to do is get all counsels' cell phone numbers so
11 we can call. And we would ask you not the stray more than
12 five minutes from the courtroom. If we get a note, we want
13 to bring you back and get you involved on whatever the note
14 may provide, all right?

15 So my clerk will take your cell phone numbers.
16 Please just confer with him and give him your cell numbers.
17 Thank you.

18 MS. KASULIS: Thank you, Your Honor.

19 THE COURT: Thank you.

20 MR. SRINIVASAN: Have a good weekend.

21 MS. KASULIS: Thank you.

22 (Matter adjourned to Monday, July 31, 2017 at
23 9:00 a.m.)
